SPECIAL PLANETARY ASPECTS FOR MARCH 2024:

Happy Birthday, Pisces!

Pisces is the twelfth and final sign of the zodiac with Neptune as its ruling planet. Pisces gemstones are turquoise, sugalite, amethyst and covellite. The color of turquoise is associated with the sign of Pisces.

Pisceans are highly intuitive, spiritual individuals. Many possess the gift of prophetic dreaming. They are also dreamy, imaginative, creative, sensitive and lovers of art and poetry.

I am happy to report **there are no retrograde planets for this month of March 2024!** Things are now moving in the right direction!

March 10 – Pisces Super New Moon – This Pisces Super New Moon which is very close to Earth and jam packed with big emotions and Super Charged Energies! This is the time to follow your intuition and manifest your desires. We are at a pivotal point because we are already within the energies of the Equinox arriving on March 19. The planets are aligned for abundance.

March 19 at 11:06 PM EDT we will be experiencing The Spring Equinox which is the first day of Spring and the first day in the astrological

ALL ABOUT ANGELS BY MARY SILVERNAIL, PSYCHIC ASTROLOGER:

Happy St. Patrick's Day! Erin Go Bragh! (English translation: Ireland Forever)

Whenever I think of St. Patrick's Day I associate St. Patrick with Brigit, the dearly beloved Saint of Ireland born ca.450. After hearing St. Patrick speak she devoted her life to giving whatever she had to those in need. She helped the poor with a loving and open heart, yet is also known for her extreme courage and as a warrior.

Originally Brigit was a highly respected Celtic goddess in ancient Ireland. In the fifth century she was adopted by the Catholic Church as St. Brigit. She is the combination of protector, warrior, mother, loving and healing us in her feminine ways.

Brigit is the female equivalent of Archangel Michael who protects us, lovingly guides us and gives us the courage that we

sign of Aries. The ancients believed the New Year began with The Spring Equinox. All astrological influences are magnified at that time.

March 25 – Libra Lunar Eclipse / Full Moon – it's all about relationships. We become keenly aware of our actions and the impact on others. By trying to keep everyone happy we may lose sight of that everyone needs to do their fair share so as not to create animosity or to feel overburdened ourselves.

Libra is all about balance and this is the time to balance the scales in every area of life. Jupiter in Taurus has everyone's interest at heart and adds a grounding quality to the arrangement relating to a solid foundation for the future. Plus the Moon trine Pluto signifies the end of a tricky phase with matters being brought to a head.

Look back for possible connections to what is happening now regarding relationships and partnerships to the Libra Solar Eclipse of October 14, 2023 and then Pisces Blue Moon of August 31, 2023. This is finally the time to clear up any confusion.

Empaths, be aware that this month the energies are flowing on deeper levels than usual, gratefully mostly harmonious. Holding smoky quartz crystal or onyx in your hand while meditating can disperse any negativity. Than perhaps working with some rose quartz helping you connect back to all that is good through its pink heart energy bringing pure love, joy and peace.

"Your work is to clarify and purify your vision so that the vibration that you are offering can then be answered."
(Abraham – channeled by Esther Hicks)

Happy Spring! Blessed New

need.

Whenever you feel you need courage and empowerment, just ask Archangel Michael to stand with you on your left side and Brigit to stand with you on your right side. They will encourage and support you in all your endeavors. Many times you may possibly feel a sensation of heat from their fiery powers. Both Archangel Michael and St. Brigit are known for coming to your side instantaneously when called upon for help.

In my readings and healing sessions at Hope Hypnosis & Holistic Center, many times the issue my client comes to me with is a feeling of lack of empowerment. During part of the session I will call upon Archangel Michael and St. Brigit to come and join us and to help heal any courage and strength issues for the person. Immediately Michael and Brigit's presence is felt and the energy in the room and within my client is uplifted with bright, motivating and powerful sensations. I also enlighten them on many other techniques to help enhance their empowerment and courage on a continuing basis.

Perhaps this St. Patrick's Day would be a good time for you to ask Archangel Michael and Brigit to help empower you on your path in life.

Many Divine Blessings of

Beginnings!,

LOVE

by Kirsten Sciallo

As the cool breeze of Spring becomes readily apparent and kites dance high in crisp sky, hopes of nicer weather are on all of our minds. March is a marvelous month to try to kick yourself into focus mode to keep yourself moving in a positive direction. Break out the vision board, plant some flowers and connect with Mother Earth as you begin to harmonize your body and bring balance into your soul. In just a few months it will be Summer again and trust me, you will want to have some goals in place so you can appreciate some much-needed rest and relaxation. What I like to do this month is downsize and clear up the energy in my home. I find when my space is clean and organized, so is my mind. You can accomplish so much more with a space that is free and clean. I am giving you a nudge to release any item or circumstance that is heavy on your mind or heart. This will make space for all of the things that are in alignment of where you truly want to be. Just wanted to end by wishing everyone a Happy Saint Patrick's Day! I'm also wishing everyone a very special Easter with friends and family.

Light and Love,

Kirsten
