IT'S SPRING!!! The flowers are blooming, the birds are singing. Archangel Raguel especially loves the flowers of Spring because they represent

For all Sun Signs: May is transforming your life more than ever before. Throughout May and June expect transformative shifts that could change your life.

Shift up to your highest frequency!!!

May 1 – Full Scorpio Flower Moon - brings sudden awareness to our lives, particularly of areas that require more balance. It challenges us to face what needs to go in our lives so we can move on in a healthier manner, as well as the responsibilities and debts we have to others.

May 6 through October 15, 2026 – Pluto Retrograde in Aquarius

Whatever is hidden will come to the surface. It is a time to be reassessing how we use our power. Pluto will be in Aquarius for the next 18 years.

May 16 – Taurus New Moon – signals a fresh start. We're prompted to take charge, especially around creating greater security and comfort. This is a good time to review your relationship with money and possessions, clarify what you truly value, and focus on what genuinely brings you happiness and fulfillment. Strengthen your self-worth and simplify where you can.

May 20 – Sun Enters Gemini – Happy Birthday Gemini

May 31 – Sagittarius Full Blue Moon – second Full Blue Moon of the month - bringing sudden awareness to our lives, particularly in areas that require more balance. This Blue Moon reminds us of the need to reach out beyond our usual routines, thought patterns, and circles. The Full Moon in Sagittarius is a time of expansion. We should be especially aware of what we would like to promote at this time.

This Full Moon aligns with Pluto and Saturn, suggesting that focused effort and determination will pay off. It is a powerful time for motivation and ambition. It also harmonizes with Juno,

the infinite possibilities of new beginnings. Spring itself is a new beginning for all of nature. Why not create some new beginnings in your life with the help of Archangel Raguel? He will gladly help you get in touch with your highest purpose and align yourself with the expansive vista of your future possibilities.

In order to feel close to Raguel and ask for his loving support in creating new opportunities for you, simply put a few Spring flowers in a vase or glass of water. Then light a white candle next to, but not too close to the vase of flowers and simply ask for his assistance. Then be very quiet and still and listen for his guidance. Trust what you hear or feel. This will be Divine guidance. He will guide you toward the path that will give you the greatest joy.

Archangel Raguel is wonderful at directing you towards discovering your life's work.

He also will help create balance in your life wherever that is needed. Even by smoothing out disagreements and resolving deep-seated issues within you or with others.

In my readings and healing sessions at Hope Hypnosis & Holistic Center LLC, many times the issue my client comes to me with is a lack of understanding their life's purpose or help in resolving a misunderstanding in a relationship. I call upon Archangel Raguel to Divinely give me the guidance they need. He is just waiting in the wings to help.

adding finesse and style to how we relate to others.

LOVE

by Kirsten Sciallo

Happy Memorial Day everyone! Let's take a moment to remember and honor all of those loved ones who served their country. They have given the ultimate sacrifice so that we can enjoy our freedom and that is certainly a reason to honor and respect our service members. May begins the steps to Summer and it would be great if you could also give some thanks to how far you have come. Be kind to your body, your mind, and your spirit. Take some walks in nature or strolls by the beach to clear your mind to a state of relaxation optimal for manifestation. You can become the cocreator your future and you deserve a beautiful one. If you find yourself uncertain, I encourage you to get in a space to quiet your mind. When you are at peace and balanced, all of the answers that you seek will present themselves to you. Remember that no one knows you better than yourself so it is a time to respect your own truth. You already know all of the true answers that your heart desires. Give yourself permission to be the person that you have always strived to become.

Light and Love,
Kirsten
