IMPORTANT INFORMATION - April 2026

Standard Colours:

Pricing is for standard Colours - Matt Black, Riverstone, Bell Bronze, Orbital Silver, Raw Steel, Ivory & Classic White unless specified (Please be aware, some powdercoat colours variations do occur with each batch - please enquire for further information) - There is a large variation in the colour Raw Steel & is noticeably more so on the Verve track & 32mm Square rod due to the flat face of the rods, please contact our office for further clarification on these colours.

Please allow 10-20 business days delivery turn around (off peak season)

All products come in standard colours (rod, finials, brackets, holdbacks etc)

Rod & Track Orders

Rods & Tracks are invoiced to the mm size that is given.

Pricing in this price list is rounded up for quoting purposes.

Special Finishes:

Hand Painted colours = (+ 35% per order) allow 14 - 25 days delivery turn around (off peak season)

All products are able to be hand painted (rod, finials, brackets etc) - however we do not recommend painting the Vantage Eyelet Rod & Holdbacks. Please contact our office for further information.

Please note: we do not recommend hand painting on Vantage rod. When using eyelets or full circle rings they can rub against the rod and hand painted products can be rubbed off.

Disclaimer - Please do not use full circle rings or eyelets on Versatrak rod as this is used only for Vanda glides or rings, when using full circle rings please refer to the Vantage Rod section on page 12 & 13 of this price list.

Powder coated colours:

POA, please enquire. Special powdercoat colours are POA as price of powder varies depending on the colour. Please allow 30 business days delivery turn around (Please make sure the colour is a powdercoat colour - we need the powdercoat code).

Return Policy:

Standard Colours - products in a standard colour (excluding rods & custom made components), if in saleable condition can be returned for credit. If components returned within 7 days, a full refund will be given. If returned after 7 days, there is a restocking fee of 20% on the wholesale price.

Hand Painted Finishes - These are unable to be returned

Custom Made Brackets & Components - These are unable to be returned

All products are able to be powdercoated to suit (rod, finials, brackets, holdbacks etc)

Bending Information:

We require wall to wall measurements in (mm) and accurate angle/s. (We can supply angle finders Free of Charge). **Please do not make any bracket deductions as we will calculate this for you.**

For any complicated bends 2 or more on 1 length of rod/track please contact our office for POA

Please Note when ordering:

When placing orders please write the length you require - the measurement given will be the cut length excluding finials. Due to having a large range of finials available they are all at different lengths, should you require your rod to include the finials ie (overall length including finials) you will need to stipulate this on your order.

FREIGHT

It is always a good idea to check all componentry ordered is correct so that once your fitter is on site, the installation can go smoothly (human error does occur from time to time). Before signing off on a delivery of goods, please check to see if there are any damages. If you are unsure please sign "need to be inspected for damages". Alternatively please take the time to double check the delivery.

If you sign for the goods & they are damaged, full replacement cost will be charged as we are not able to claim insurance on signed off goods.
