OUR STORY

Our journey began in the year 2000 from the regional city of Whanganui. A small energetic team had a vision to not only create innovative bathroomware, but to make dreams come true for everyday New Zealanders.

Our team members are everywhere.

Today, our team span the entire length of New Zealand and are the backbone of Newtech. Whether you chat to our customer service team, or at visit one of our showrooms, we strive to connect and offer the best possible experience for everyone.

Leading the way.

We are at the forefront of design & innovation and we work hard at building long lasting relationships and connections with all of our customers and ambassadors far and wide. Being in a competitive market we understand things need to move quickly, which is why we design and create as much as we can in-house. If it can be done, we can do it!

Sustainable Manufacturing.

We have made a promise to keep sustainability front of mind and work closely with our board suppliers. Our Moisture Resistant Board used across our Vista, Serenity and Laundry ranges comes from NZ forests and has achieved FSC® certification, ensuring the wood comes from responsibly managed forests.
