

WHAT IS ONE LIFE LESSON YOU HOPE YOUR PLAYERS TAKE AWAY FROM THE SEASON?

This season we have been focusing on the things that we can control during the games - attitude and effort. That applies to all areas of life!

DO YOU HAVE ANY GAME-DAY SUPERSTITIONS? Sadly no!

WHO WAS THE COACH THAT INFLUENCED YOU AND WHY? One of my most influential coaches was my college coach, Paul Koelpin, native New-Ulmer!

TELL US ABOUT YOURSELF & YOUR FAMILY.

My wife Katherine and I have been coaching with the club for eight years now. We both played college soccer and have been around the game all our lives. We both also currently coach the soccer teams at Martin Luther College. Our three kids have been part of the club since we moved here eight years ago. To us, there's nothing better than early summer in New Ulm and seeing the soccer fields filled with kids playing the great game of soccer!

HOW DID YOU GET INTO COACHING? In college, Katherine and I began helping with summer soccer camps, which was fun to help entry-level kids get into the game. Then as our children wanted to play more, we decided to follow along with them! Having played it all our lives, we knew the skills we wanted our kids to develop and it has been fun to teach that to the other players on our teams as well.

WHAT IS YOUR FAVORITE DRILL? At this level, my favorite drills are those that focus on one-v-one skills, offensively and defensively. So much of the game of soccer comes down to winning those one-v-one battles!
