REPRESENTING

AMETEK - THERMOX INSTRUMENTS

Analyzers: Flue Gas Oxygen & Combustibles, Insitu Oxygen, Inert Gas Purity & Trace Oxygen, Flue Gas Moisture, CEM-O₂ and Boiler Trim Analyzers. Portable Flue Gas Analyzers.

AMETEK - WESTERN RESEARCH

Analyzers: Process Gas and Liquid Analyzers, Tunable Diode Laser (TDLAS) & Photometric (IR/UV/Vis), H₂O, H₂S & HC Dew Point in Natural Gas, Moisture Analyzer with Built-In Calibration, Stack Gas and SRU Applications.

AMETEK – CHANDLER ENGINEERING

Analyzers: Natural Gas Quality Instrumentation – Dew Point Testers, Ranarex Specific Gravity Meters. Liquid Densitometer.

AURA GAS CONTROLS

Regulators: for control of Calibration & Specialty Gases. Field Repairable, Quick Delivery Lifetime Warranty, Encapsulated Seat Design, Inert & Anti-Corrosive,

AUTROL

Smart Transmitters: High Accuracy Process Flow, Pressure & Temperature. Field Programmable. HART and FF Communications. Diaphragm Seal and 2, 3, & 5 Valve Manifolds.

DRAEGER SAFETY

Gas & Fire Detection: Fixed Gas Detection for Toxic & Combustible Gases, E-Chem & IR Sensors, Fire Detection using CCTV, IR, & UV. Open Path IR LEL Monitoring Systems, Single & Multipoint Controllers, Alarm Systems. Custom Systems.

FILTERSENSE

Bag House Controls/Monitors: Bag House Control w/ Intellipulse Technology. Continuous Dust Gauge, Bag Leak Detection, Solids Flow Sensors, Liquid Mist Monitors & Pressure Transmitters.

FIREYE, INC.

Flame Safeguard Systems: Infrared (IR) & Ultraviolet (UV) Flame Scanners. Microprocessor Based "Insight" Flame Scanners with Integral Flame Relay. Burner Management Components. Gas Fired Igniters from 0.3 to 40 mmBTU/HR.

We accept MasterCard, Visa, and American Express

REPRESENTING

GASCO

Cal Gas: Calibration Gases in Recyclable & Disposable Cylinders for single & multi-component. Fixed, Variable, Trigger, and Demand-Flow regulators in SS and Brass.

MET ONE

Weather Stations: Instruments & Towers for Wind Speed, Wind Direction, Amb Temp, RH, Bar. Pressure, Solar Radiation & Precipitation. PSD compliant systems & Data Loggers.

PERMA PURE - BALDWIN

Sample Conditioning / Probes: Heated Filter Probes, Inertial Filter Probes, GP & XP Designs. Sample Coolers, Permeation Dryer & Humidifiers, Custom Designed Sampling Systems.

THERMO ENVIRONMENTAL (TECO)

Analyzers: Complete CEM Systems & Analyzers for NO_x, SO₂, CO, CO₂, Opacity & Stack Flow, Mercury (Hg), HCl, H₂S, & Hydrocarbons for EPA Compliance. Dilution Sample Probes. Data Acquisition Systems (DAS). EPA Certified Ambient Air Analyzers.

VAN LONDON/PHOENIX CO.

Process Liquid Analytics: In-Line and Submersible pH, ORP, Conductivity, and Dissolved O₂. Direct replacement probes for most major suppliers. Fittings & Retractable Housings.

WALTRON

Water Quality Analyzers: Dissolved Oxygen (DO), Sodium, Silica, Phosphates, Hydrazine, Degassed Acid Conductivity, Oil-in-Water, Iron, Ammonia, Copper & Hardness.

ZEECO

ProFlame Scanners: Integrated, Solid State UV and IR Flame Scanners. Simple Set-Up for single and multi-burner applications. Superior background flame signal suppression results in High Reliability. Approved for hazardous and non-hazardous areas.

FIELD SERVICE

On-Call Analyzer Calibration & Repair Service. CEM Analyzer Maintenance Contracts. RATA Test Supervision. CEM System Design, Retrofits & Upgrades.
