YOUR DISCHARGE CHALLENGES, ANSWERED

"Will they accept my complex wound patient?"
Yes. Stage 3–4 pressure injuries, DTIs, diabetic and vascular wounds are **managed in-house**.

"Will this patient bounce back to my hospital?"
CoE status requires wound-related hospitalizations **under 1% per quarter**. Woodbury had **zero**.

"Who carries the wound plan after discharge?"
Weekly Vohra physician rounds plus a **Wound Care Certified nurse 7 days a week**.

"Will my patient need wound-clinic trips?"
No transport needed. Sharps debridement and UltraMIST® therapy are **delivered on-site**.

ADVANCED WOUND CARE, ON-SITE

Specialist wound care without the wound-clinic trip

- **Physician-performed sharps debridement**, the gold standard, at the bedside
- **UltraMIST® ultrasound therapy** for stalled, hard-to-heal wounds
- **Weekly physician rounds**, twice weekly when acuity requires

WHAT THE CENTER OF EXCELLENCE SEAL REQUIRES

Earned yearly — every criterion must be met

- ★ Wound-related hospitalization rate under 1% each quarter
- ★ Wound Care Certified nurse available 7 days a week
