

A-Pro Pool & Spa FLUFF-N-BUFF SERVICE

Arctic Spas of Lindstrom

Pool Water Look Like This?

Want it to Look Like This?

WE CAN HELP!

What does our FLUFF-N-BUFF SERVICE Include:

- Skim surface to remove leaves/debris;
- Brush walls and steps to remove algae and buildup;
- Vacuum pool floor (automatic or manual), if floor is visible;
- Empty skimmer and pump baskets;
- Clean or backwash filter if needed;
- Check and adjust chemical levels (chlorine/salt, pH, alkalinity, hardness, metals, phosphates);
- Inspect equipment (pump, heater, filter) for obvious issues;
- Report any problems or recommended repairs; and
- We won't know how many visits you'll need until we see the pool and begin service.

Cost:

- 1st hour = \$250
- Every hour after = \$225
- Multiple Visits, if needed = ~\$500-\$2,000
 - Depending on pool water & clean-up
 - Water clarity and chemistry takes time and patience
- For a more accurate quote, please send pictures via email to admin@apropoolnspace.com

Please Note:

Restoring pool water clarity and balance is a multi-step process that can take 48–72 hours (sometimes longer if the pool is heavily contaminated). A-Pro Pool & Spa will clean and test the water, treat it, and monitor progress — We will update you after each service. Expect at least 2–3 days for significant improvement; severe cases may take a week and multiple treatments.
