Ummm...

What were those 21 points again?

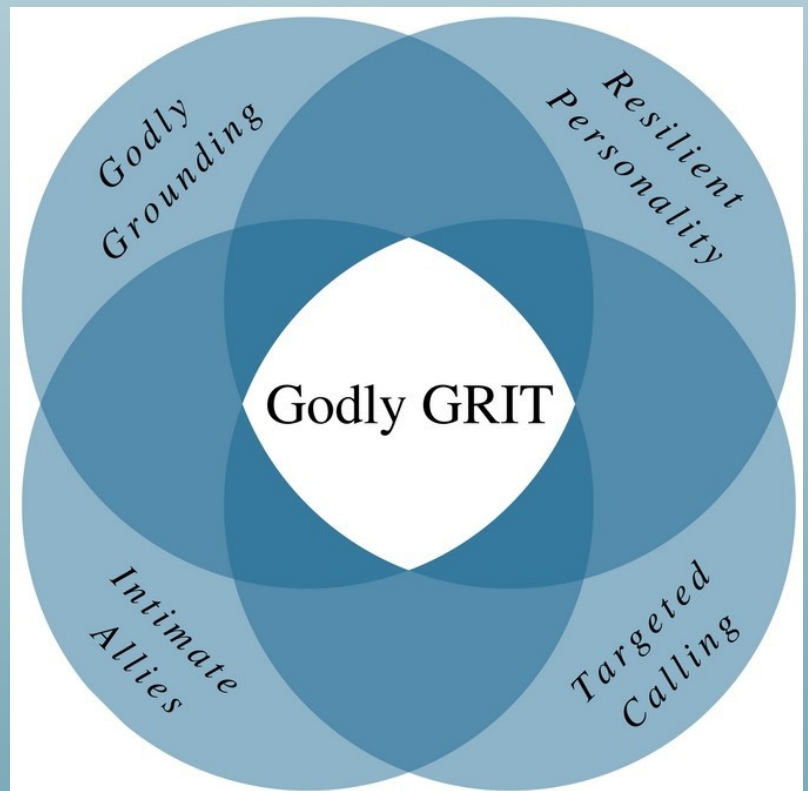

The 12-part Godly GRIT curriculum is simple, actionable, and based upon five years of research. And you get EVERYTHING for one price.

In my ministry, I had seen too many pastors who were weary and discouraged. But the existing literature on the topic didn't provide the help that was so desperately needed: something actionable and memorable.

I was convinced I would find there was only one key to persevering in our life's purpose: maintaining a strong relationship with God. I was wrong! While that is ***vital***ly important, the data from my research revealed that it is only one of four key factors.

My research data revealed four factors that work in harmony to give people the grit needed to keep persevering in God's purpose for their lives:

- ⇒ Godly grounding;
- ⇒ Resilient personality;
- ⇒ Intimate allies; and
- ⇒ Targeted calling.

Godly GRIT is not about having a “gritty” personality, but rather working to strengthen four key factors of perseverance. Each has three focus areas that our study’s curriculum helps to strengthen.

12 Focus Areas of the *Godly GRIT* Curriculum

“The study was well organized, easy to follow if you missed a week or two, and had lessons and readings that helped us implement our faith in our daily lives...it’s a path to a living faith.”

“Godly GRIT has something for everyone. It doesn’t matter where you are in your walk of discipleship, you can be challenged by strengthening and growing within the four factors. ... I liked doing it as a group each week with more individualized ‘homework’ to do before the next session. The Bible passages were well-chosen, both for the topic and in the chronology of the study. Colin masterfully wove his research gleaned from pastors into a study about the four factors of Godly GRIT that all Christians can use in their calling.”

“In the crazy and ever-changing world we live in, Godly GRIT provides practical and thought-provoking ideas on how to keep God at the center of our lives. While the study gives general guidelines and ideas on how to identify the different areas supporting Godly GRIT, it also explores ways to reflect on one’s own strengths and how to further develop them. From one who has participated in many Bible studies, I would wholeheartedly recommend this program to church leaders and lay-people alike.”
