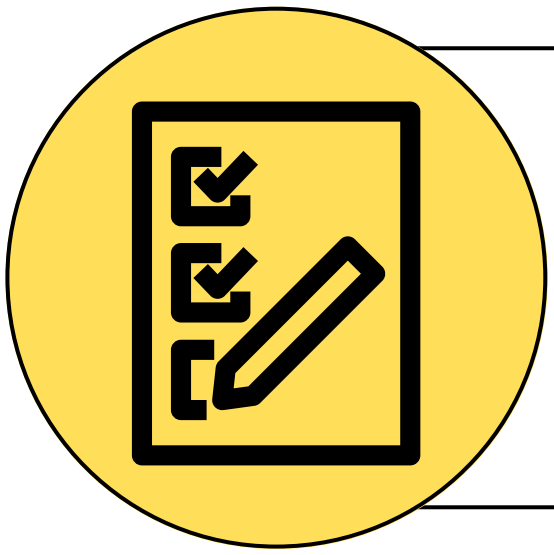
ADULT ADHD ONLY ASSESSMENT

This assessment is for adolescents aged 16 years not at school - ADULT

IF YOU ARE SEEKING AN ADHD ASSESSMENT FOR MEDICATION PURPOSES, WE RECOMMEND GOING STRAIGHT TO A PSYCHIATRIST
If this is a dual diagnosis (with Autism), please refer to Diagnostic Assessment. There is no additional charge to the Diagnostic Assessment.

ADHD medication: please note you do not need an assessment from a psychologist for ADHD in order to receive medication. In most cases, it is easier and more cost effective to go straight to a Psychiatrist. They will need to do their own due diligence due to prescribing schedule 8 medications and some may not accept my report. Every Psychiatrist has a different process.

Payments are due at the time of booking. Report payments are due at the completion of the Interview stage.



01. PREDIAGNOSTIC TESTING - FEE $232.99

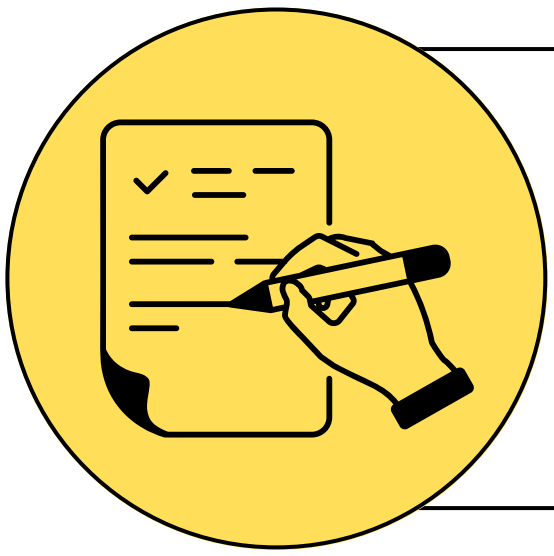
We will email tests to you and to a Trusted Other Adult. This may be a spouse, sibling, adult child, work colleague or someone similar.

Review the info sheet for Prediagnostic Testing for further information. Deduct this from the total if you have already completed this.

02. ASSESSMENT INTERVIEW - PAYMENT $310

1 x up to 1.5 hours telehealth session (can request in person but this may take longer to schedule). This is a detailed assessment that will explore the developmental, social & medical background of the Client.

A Diagnostic Interview for ADHD (DIVA) is conducted.



03. REPORT WRITING - PAYMENT $310

We will write a detailed report for you to share with a PAEDIATRICIAN/PSYCHIATRIST.

A Single Disciplinary assessment of ADHD is not accepted by the NDIS. If you are seeking this, please request a MULTIDISCIPLINARY assessment.

04. ASSESSMENT HANDOVER - PAYMENT $311.96

To explain the findings and any recommendations. Following feedback, the report will be completed.

Again, for MEDICATION you will need a Psychiatrist.

TOTAL FEE (INCLUDING PREDIAGNOSTIC): $1164.95

CURRENT AT 1 JULY 2025
