

# CHILD/ADOLESCENT ADHD ONLY ASSESSMENT

This assessment is for children and adolescents aged 6 years – 18 years, still at school.

**IF YOU ARE SEEKING AN ADHD ASSESSMENT FOR MEDICATION PURPOSES, WE RECOMMEND GOING STRAIGHT TO A PAEDIATRICIAN/PSYCHIATRIST**  
If this is a dual diagnosis (with Autism), please refer to Diagnostic Assessment. There is no additional charge to the Diagnostic Assessment.

ADHD medication: please note you do not need an assessment from a psychologist for ADHD in order to receive medication. In most cases, it is easier and more cost effective to go straight to a Paediatrician/Psychiatrist. They will need to do their own due diligence due to prescribing schedule 8 medications and some may not accept my report. Every Paediatrician/Psychiatrist has a different process.

*Payments are due at the time of booking. Report payments are due at the completion of the Interview stage.*

## 01. PREDIAGNOSTIC TESTING – FEE \$232.99

\*These are booked separately.

## 03. REPORT WRITING – PAYMENT \$292.00

We will write a detailed report for you to share with a PAEDIATRICIAN/PSYCHIATRIST.

Following feedback, the report will be completed.

Again, for MEDICATION you will need a Paediatrician/Psychiatrist.
