

CHILD DIAGNOSTIC (AUTISM, ADHD) MULTIDISCIPLINARY ASSESSMENT

A Multidisciplinary Assessment (with an eligible diagnosis) is accepted by the NDIS. This means you will see a Psychologist and a Speech Pathologist OR Occupational Therapist. We may ask some questions that overlap but both interviews are required for this diagnosis.

ADHD medication: please note you do not need an assessment from a psychologist for ADHD in order to receive medication. In most cases, it is easier and more cost effective to go straight to a psychiatrist. Psychiatrists will need to do their own due diligence due to prescribing schedule 8 medications and some may not accept my report. Every psychiatrist has a different process.

Payments are due at the time of booking. Report payments are due at the completion of the Interview stage.

01. PREDIAGNOSTIC TESTING - FEE \$232.99

We will email tests to the Parent/Carer and their classroom teacher.

Review the info sheet for Prediagnostic Testing for further information. Deduct this from the total if you have already completed this.

02.A. ASSESSMENT INTERVIEW PARENT/CARER - PAYMENT \$450.38

1 x up to 2 hours telehealth session (can request in person but this may take longer to schedule). This is a detailed assessment that will explore the developmental, social & medical background of the Client.

02.B. ASSESSMENT INTERVIEW CHILD - PAYMENT \$450.38

1 x up to 1 hour in person session with a Psychologist. They will conduct a MIGDAS assessment with the Child. Brief feedback will be offered to the Parent/Carer. Wherever possible, this is done without the Parent/Carer in the therapy room.

*These are booked separately.

03. ASSESSMENT INTERVIEW 2 - PAYMENT \$450.38

1 x up to 1 hour telehealth session.

This is a detailed assessment (Speech Pathologist or Occupational Therapist) that will explore the developmental, social & medical background of the Client.

04. REPORT WRITING - PAYMENT \$450.38

To explain the findings and any recommendations. Following feedback, NDIS reports will be completed.

We will complete a Psychosocial Capacity Assessment Overview, a Diagnostic Assessment and NDIS Access Request Form.

05. ASSESSMENT HANDOVER - PAYMENT \$450.38

To explain the findings and any recommendations.

A MULTIDISCIPLINARY assessment is an accepted pathway into the NDIS (with eligible diagnoses). For medication, you will still need to consult a Psychiatrist.
