

EARLY CHILDHOOD DEVELOPMENTAL NEEDS ASSESSMENT

This assessment may support an NDIS Early Childhood Early Intervention application. **Acceptance is not guaranteed.*

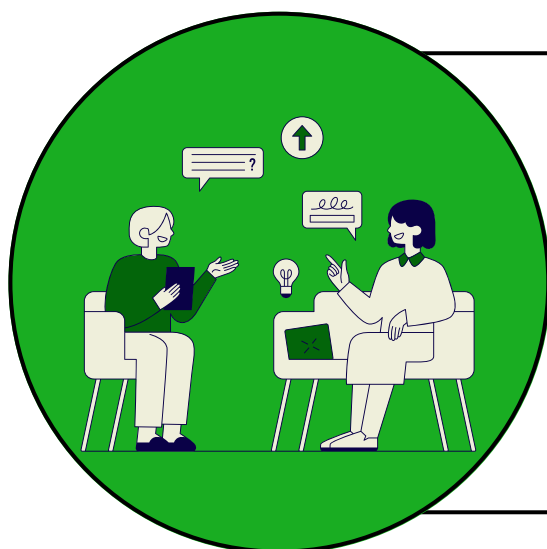

This assessment is recommended for children between 2-4 years of age.

Children can meet developmental markers at different rates – we recommend this assessment to identify developmental delays for a diagnosis of Global Developmental Delay.

If after they turn 5 years the delays are still evident, we can assist with a Diagnostic Assessment.

By engaging in Early Intervention, children have the opportunity to maximise their developmental potential and enhance their participation in daily life, potentially decreasing the need for ongoing treatment in later life.

Payments are due at the time of booking. Report payments are due at the completion of the Interview stage.

01. INTERVIEW & TESTING – PAYMENT \$232.99

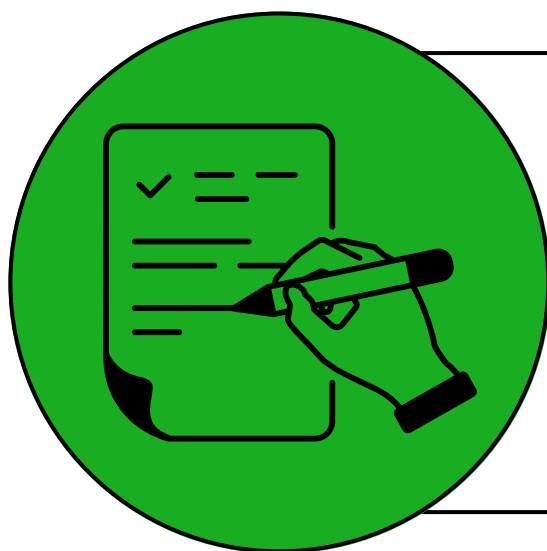

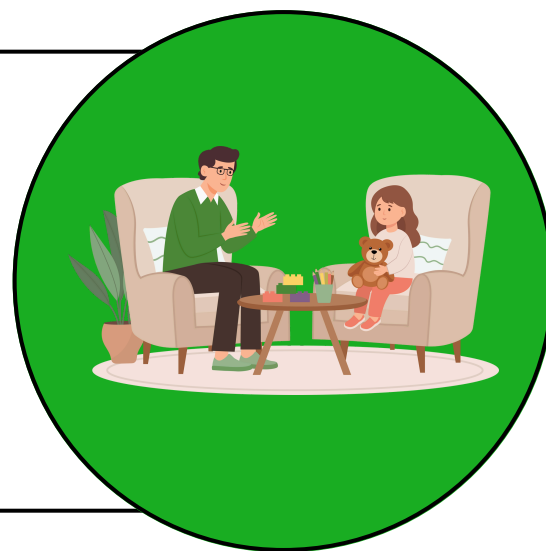

We will email tests to the Parent/Carer and the nominated teacher.

In the Interview, we will meet with the Parent/Carer to explore the academic background of the client.
The child is not required at this stage.

02. ASSESSMENT INTERVIEW – PAYMENT \$310.00

1 x up to 1.5 hours in person assessment – Parent and Child

This is a detailed assessment that will explore the developmental, social & medical background of the Client. The therapist will also observe and engage in activities with the Child.

03. REPORT WRITING – PAYMENT \$310.00

To explain the findings and any recommendations.
Following feedback, NDIS reports will be completed.

We will complete a Psychosocial Capacity Assessment Overview with Report and NDIS Access Request Form.

04. ASSESSMENT HANDOVER – PAYMENT \$311.96

To explain the findings and any recommendations.
Following feedback, reports will be completed.
