How we supply our Building Stone

- Supplied in multi-lift bulk bags
- 100-125mm or 125-150mm on bed (alternative bed widths are available to special order)
- Typical coverage is approx. 4m² faced area per bulk page
- Bespoke finishes are also available on request

Lovell Stone Group offers a comprehensive range of traditional British building stones throughout the UK. All our building stone is produced on the latest 'piano-key' style guillotines, thereby creating a beautiful rustic finish and giving a consistent quality face.

Our building stone range is constantly evolving, visit our website for new products.

Please be advised: Stone is a natural product. Some variation in colour, shade and texture is expected and will produce a unique and beautiful character for your project.

We also supply a range of landscaping products
