

UK BAILIFFS

Van dwellers & occupied vehicles

Restore access.
Recover control of your land.

OCCUPIED VEHICLE REMOVAL

0330 133 1818

ukbailiffs.co.uk

An occupied vehicle. A considered response.

A lived-in van can turn a car park or development plot into an ongoing management problem. We help you move the matter forward with a planned response and a clear contact throughout.

VANS / CAMPERVANS / MOTORHOMES

For private landowners, businesses, managing agents and councils. The scope is agreed around the site and the outcome required.

HOW YOUR INSTRUCTION PROGRESSES

01 Tell us what is happening

Explain the location, how long the vehicles have been present and any permission or previous contact.

02 Agree an operational plan

We consider the information, risks and support required before confirming the scope and arrangements.

03 Engage and attend

The team carries out the accepted instruction, communicating with occupants and working towards a controlled departure.

04 Close the instruction clearly

You receive the outcome and can arrange further site clearance, security or preventative measures.

SERVICE & SUPPORT

From persistent occupation to a managed outcome.

The practical aim is to help you use your land again, with attention to the people, vehicles and site conditions involved.

Private & commercial sites

Support for car parks, industrial estates, development land, farms and other managed sites. Share the impact on access, operations or planned works so the response can address your priorities.

Councils & public bodies

Operational support can be coordinated around the authority's approved instruction. A clear brief helps align attendance, communication, reporting and any specialist resources.

PLAN THE NEXT STEP

An occupied vehicle needs its own assessment. The position of the occupants and any authority to move the vehicle must be considered; towing is not automatic.

Start resolving your occupied-vehicle problem.

Speak to our team about the facts, your priorities and the support you need. We will identify the information required to assess your instruction.

WHAT TO PROVIDE

Site address and your authority to instruct.
Vehicle and occupation details already known.
Any permission, correspondence or previous action.
Access issues, known welfare concerns and risks.

Send information already available. There is no need to approach occupants or obtain new photographs to make an initial enquiry.
