About the Event

Welcome to the **2nd edition of ESD Cutting Edge!**

After the enthusiastic reception of our very first edition in Madrid, we are thrilled to invite you to the ESD Cutting Edge, which will take place on 11-12th December, 2025 in Lyon, where the prestigious Endoscopy Unit of Edouard Herriot Hospital will host this exceptional gathering.

A brand-new faculty of world-class ESD experts from across EMEA is ready to take the stage, bringing fresh perspectives, advanced techniques, and a passion for pushing the limits of therapeutic endoscopy. With 80 participants on site and an open door for our global online community, the energy and exchange of ideas promise to be even stronger.

Get ready for 2 days packed with live cases, interactive discussions, and future-focused insights into ESD across the GI tract. Under the leadership of our esteemed Chairs: **Prof. Mathieu Pioche, Prof. Michał F. Kamiński, and Dr. Enrique Rodriguez de Santiago**, ESD Cutting Edge once again delivers what its name stands for: innovation, excellence, and a true cutting-edge experience.

The provided agenda includes a **preliminary draft** of the program. Please note that detailed presentation titles, specific patient cases and their order are still subject to final confirmation.
