

# STEM Connex: your trusted talent partner for Engineering

*Sourcing Elite Electrical and Mechanical Engineering talent for Data Centers, Construction, Oil & Gas and Renewable projects across Europe*

## Electrical Engineering

STEM Connex supports the challenges of recruiting electrical engineers across Europe by offering a highly targeted, industry-specific approach that bridges the gap between talent shortages and growing demand. As a specialised recruitment agency focused on STEM fields, STEM Connex taps into a niche network of qualified candidates, including both active job seekers and passive talent, ensuring access to hard-to-reach professionals.

## Mechanical Engineering

STEM Connex maintains a deep talent pool of pre-vetted mechanical engineers, technicians, and project professionals, allowing companies to hire faster and more efficiently. STEM Connex also helps employers overcome regional and international hiring challenges by advising on certifications, compliance, and relocation support when needed.

## Engineering Sectors

### Data Centers

### Construction

### Oil & Gas

### Renewable

**We connect engineering firms and consultancies with the right talent, at the right time, to ensure project success**

📍 HQ: 4 Minster Court, Camberley, Surrey, GU15 3YY

📍 Leeds Office: 1 Park Row Leeds, LS1 5AB

📍 Portugal Office:

**+44 204 587 4482**

Reg Number: 11584953

# STEM Connex: Challenges & Solutions in Engineering Staffing

*How STEM Connex delivers the right talent to drive Success*

## Challenges

### Talent Shortages

Difficulty finding electrical engineers with specialized skills for Data Centers, Big Pharma, or Oil & Gas projects.

### Time Constraints

Tight project timelines requiring rapid hiring of qualified professionals.

### Compliance & Eligibility

Verification of qualifications, certifications, and work eligibility for UK/EU projects.

### Retention and Fit

Securing talent with the right experience and cultural alignment for project-based work

## Solutions

### Specialised Talent Pools

Access to a vetted network of electrical engineers with niche expertise in target sectors

### Rapid Placement

Streamlined recruitment processes to deliver talent within tight deadlines.

### Compliance Expertise

Verification of qualifications, certifications, and work eligibility for UK/EU projects.

### Tailored Matches

Precise candidate screening to ensure technical and cultural fit for project success.

## Why Choose STEM Connex?

### Deep Sector Knowledge

In-depth understanding of Data Centers, Construction, Oil & Gas and Renewable requirements.

### Extensive Network

Connections to top electrical & Mechanical engineering talent across the UK and EU.

### Proven Track Record

Success in placing talent for high-stakes, large-scale projects.

### Client Centric Approach

Customized recruitment solutions tailored to each project's needs

***"With STEM Connex, you gain a partner committed to your project's success from start to finish."***
