MESSAGE FROM THE EXECUTIVE DIRECTOR

Aaniin, Boozhoo, Tansi,

On behalf of the Agency, Board of Directors and our dedicated staff, I am pleased to present the Annual General Report. This report provides an overview of the Agency's activities from April 1, 2025, to March 31, 2026.

Our team has been working diligently to operationalize the *Honouring our Children, Families and Nation Act* (the "Act") in all areas with the common goals of preventing children from coming into care and investing in families.

As described in this report, major efforts have been made towards reconciliation at all levels in the overall delivery of child and family services. It is measured by our data that reflects the services provided according to the Agency's mandate. The number of children coming into care has drastically decreased as a result of prevention programming and services. The Agency reduced the apprehension rate by **71%**.

January 21, 2026, marked the 4th anniversary of the Act coming into force as federal law. The past four years have flown by with all the tremendous work that the Board and our staff have accomplished. Similarly, as of January 31, 2026, it also marked the 3rd anniversary of the Coordination and Fiscal Agreements signing supporting the implementation of our Act. This day also represents the great efforts made by staff to take a monumental step towards decolonization and reconciliation as part of our service delivery.

This report reflects how reconciliation with children, youth, families, Elders and overall community Members that participate in services and/or Agency gatherings is actionized, confirmed through the increased participation in prevention services, the significant reduction of court matters, and a dramatic increase in supports. There have been significant increase in voluntary requests for Customary Care Agreements and Sharing Circles. The results of our activities are impressive and include the following:

- **80.5%** of Members voluntarily requested support services from the Intake and After Hours Program. There were 3,444 fields (Home visits), which is a positive increase of 587 from last fiscal year.
- **100%** of children in care who reside in Peguis First Nation are cared for by immediate and extended family members.
- **84%** of children in care who reside outside of the community are cared for by immediate and extended family members.
- **44%** of parents voluntarily participated in traditional parenting programs and **1,053** families received childcare/respice (child minding) services.
- **248** youth attended the youth cultural camps held at SunLodge Village (SLV).

- **1,669** children, youth and families attended the Rainbow Lodge (RBL) to seek culturally appropriate services.
- There was a total of **7,309** youth who participated in the Debinan Program.
- There were **193** sharing circles facilitated by the Sharing Circle Facilitator(s) and **557** family members attended to support.
- There are **80** Customary Care Agreements that consist of **45** children that were prevented from coming into care.
- There were approximately **11,580** children, youth and their families that participated in prevention services.
- There was a total of **5,485** participants that accessed traditional and cultural services in the community of Peguis First Nation at the SunLodge Village or Rainbow Lodge.

In addition, the Agency has invested in children and families at approximately \$24 million, to prevent children from coming into care. Meanwhile, through the Agency's prevention programming, there were **32,563** participants.

The analysis by the Quality Assurance Department, in respect to Agency caseload, clearly demonstrates the increase in services overall and the decrease in new admissions of children in care.

There are too many team members to acknowledge and thank at every level that work tirelessly with unwavering conviction to achieve the best outcomes for the children, youth and families. Gitchi Miigwetch for all playing an equal role in coming together reflecting the 7 sacred teachings in the work you do for the people.

Gitchi Miigwetch to the Elders for their continued support of the work that has been completed, we look forward to the work ahead recognizing your traditional roles within the community.

Gitchi Miigwetch to the Board of Directors for their accountable and transparent governance to the Nation. Their endless commitment and advocacy for the well-being of the community and their commitment to reconciliation is inspirational.

Most importantly, again the Agency acknowledges and gives thanks to our aunts, uncles, grandparents, immediate and extended family members that care for the children and support their families when they need it the most - Gitchi Miigwetch.

In the Spirit of Truth and Reconciliation,

**Bald Eagle Woman from the Eagle Clan,
Clemene Hornbrook, BSW, RSW
Executive Director**

HISTORY AND GOVERNANCE

ORGANIZATIONAL HISTORY

Peguis Child and Family Services (the “Agency”) was integrated with Anishinaabe Child and Family Services from 1980 to 1987. In 1987, the communities of Fisher River, Jackhead, Dakota Tipi and Peguis First Nation became mandated as Intertribal Child and Family Services Inc. This came after years of negotiations between the Federal and Provincial governments and Chief and Council.

The Agency became autonomous on April 1, 1999, and was incorporated under the Manitoba Child and Family Services Act. Since the enactment of the *Honouring our Children, Families and Nation Act*, the Agency has been incorporated under the Manitoba Companies Act as a non-profit corporation.

BACKGROUND

The Agency logo was changed in 2014 when tobacco was passed to Agency Elder Josie Bear who now sits in the spirit world. She dreamt about buffalo gathering, they surrounded four children, encased by the circle of life with all four colors representing the four directions. As she described her vision, she reiterated it was the Agency who acts as the buffalo - protecting children and lifting up families to fulfill their sacred responsibilities as the children are gifts that must be nurtured and loved. She then, sternly reminded the Agency, we are all buffalo, we all have the responsibility to protect all the children in the community.

NAMING THE REPORT

The Waabishkoda Bizhiki - White Buffalo "Report" represents Dream Knowledge from Elder Josie Bear whom the buffalo visited while she was in a sleep state that signified the healing that was to begin. Since this vision is acknowledged in the north, it is represented by the white cloth to signify healing. Hence the report is named to honour the vision that guides the work - Waabishkoda Bizhiki - White Buffalo "Report".

TRUSTS AND INVESTMENTS

Aaniin, Boozhoo, Tansi,

The recent court settlement, initiated by Peguis Child and Family Services (the “Agency”), for children in care to access their Children’s Special Allowance withheld by the Province, resulted in a win for children from 2005-2019. Former Children-in-Care who are now Adults can file a claim to access these benefits and Minors will have their monies placed in a Minors Trust until such time as they come of age of majority. It is with concern and care that the Agency would like to establish a Minor’s Trust to support those Peguis children listed as minor’s eligible to file a claim for compensation as children in care. The Agency is responsible for filing claims on behalf of current children in care.

As the Agency looks within the community for strength and empowerment, they engaged the services of Sharon Stevenson to set up the procedures, policies, implementation, governance and oversight of a Minor’s Trust for Peguis children. Coupled with capacity building and a financial wellness plan for children, youth, families and members to share her knowledge, experience and training.

Trusts and Investments presentations were provided to members at the recent *Former & Present Child In Care Settlement Information Session*, held on August 29, 2025 at Maamawibiway. The Agency has established the Trusts & Investments Department to support the pending Minor’s Trust arising from the provincial Children’s Special Allowance (CSA) settlement. In collaboration with the Legal and Finance Departments, this initiative ensures accountability, transparency, and responsible investment of individual minors’ compensation claims—until they reach the age of majority.

The Agency is committed to providing financial wellness sessions and resources to children, youth, families, and community members. Together, building financial knowledge will empower current and future generations.

LEGAL DEPARTMENT

The Legal Team primarily works with legal matters the Agency is involved in, plus our team coordinates logistics in relation to Elders involvement in the Alternatives to the Court Process ("A2CP"). In addition, In-House Counsel Stevenson often provides presentations to visiting First Nations and other entities/organizations on the Agency's implementation process related to the *Honouring our Children, Families and Nation Act* (the "Act").

January 21, 2026, marked the fourth anniversary of the enactment of the Act and it has been another fulfilling experience for our team to be part of an historic journey for the Agency and our First Nation. Within the interactions with our Elders, we have received positive and uplifting feedback on our collective work to date. In addition, many First Nations and their organizations from across Canada continue to reach out and express their gratitude and have complimented on the Agency's work as we share our experiences based on our journey to implementation. Our visitors and new friends have expressed how proud they are of the work that the Agency has accomplished. We are making transformative change in the way social work is conducted and positively influencing child welfare law based on our Indigenous legal traditions.

CSA Claim (Provincial)

This fiscal year was very busy and fulfilling with many activities completed. The Agency continues to help Members navigate the CSA (*Children's Special Allowance*) Claim process. The claims application process will continue until January 5, 2027. You will recall that Children who were in care and provincially funded between the period from January 1, 2005 to March 31, 2019, may be eligible for compensation for the time they would have been in care with any provincial child welfare agency, including Peguis CFS. First Nations Child and Family Services and Jordan's Principle Claim (Federal)

There is also the First Nations Child and Family Services and Jordan's Principle and Trout Class Action Settlement. There are nine (9) classes of claimants through this class action, but only two classes are actively accepting applications at this time, these classes are:

- The Removed Child Class; and

- Caregiving Parent or Caregiving Grandparent of a removed Child Class.

The Agency was not involved with this national class action. This claim is open for three years for these two classes and applications will close on March 10, 2028. Please visit <https://fnchildclaims.ca> or call 1-833-852-0755. This federal claim deals with federally funded children in care from April 1, 1991 to March 31, 2022.

We encourage claimants who are unsure of which claim they may qualify for, to submit an application to both claims processes. Melanie Stranger is available to assist in navigating through the national class action process as well.

Wills and Estates Workshop

On March 13, 2026 the Agency hosted a Wills and Estates Workshop at the Peguis Community Hall, it was well attended with over 150 Members participating. Two lawyers from Sternat Manaignre Law Corporation were invited to provide an overview of Wills, Powers of Attorney and Health Care Directives. In addition, the Agency is grateful for the insightful presentations from the Peguis Lands Department and Peguis Membership Department which helped in providing useful information related to Estate planning.

Acceptance Commission

Another highlight was the work of the Acceptance Commission Panels. The following outlines the panels held during this fiscal year:

- July 2025 - one child in CCA (Customary Care Agreement) now under the legal guardianship of extended family.
- January 2026 - one child in a CCA, now under the legal guardianship of maternal grandmother.
- January 2026 - one child now under legal guardianship of maternal aunt.

Every Panel has a complement of four (4) Interested Elders that consider the application for customary acceptance with the assistance of relevant Agency staff. Those Interested Elders that have sat as part of a Panel to date include:

- Faylene and Floyd Sutherland
- Wayne Bird
- Darcel Gottfried
- Pauline B. Sinclair
- Lee Bell
- Diane R. Bear
- Gladys Yaroshinski
- Joyce and Brian Beach
- Debbie Burka
- Rose-Marie Mayo
- Gloria Lalman
- Judy Stevenson
- Leslie Daniels
- Marlene Eagle

Each of these Acceptances have also entered into a Subsidized Supported Guardianship agreement with the Agency for financial support in raising the children to the age of majority (18 years). Several more panels are expected to occur over the next few months.

Each Acceptance Commission is unique in their respective circumstances but the common thread amongst them is the amount of love, nurturance and compassion each Customary Acceptance applicant shows for their children. Sharing Circle Facilitators Mandy Sinclair and Kim Johnston have guided the Sharing Circle process as part of the acceptance sharing circle with the family and Panel Elders. We are truly blessed in that we get to witness such an event and expression of love and care, as well as hear the words of experience and wisdom from our Elders. The families and Elders have consistently stated that the Acceptance Commission process is the way in which customary or traditional adoption should occur.

2025 Elders Gathering

This was our second Elders Gathering at the Maamawibiway Property and it was a huge success. We had over 324 Elders and 108 chaperones registered, and the Elders were offered wellness services such as Cedar Baths, Massages and spiritual support as part of the gathering. We went over the various A2CP plus had some amazing entertainment from A. R. Cash and his band (Johnny Cash Tribute) as well as music from Nelson Little and his band. A video from last years gathering is available for viewing at www.peguiscfs.ca.

Litigation

The Agency filed a judicial review in Federal Court against Canada for the failure of the Office of the Superintendent of Financial Institutions (“OSFI”) to federally register the Staff Pension Plan for the Employees of Peguis Child and Family Services (the “Plan”). The application was filed on February 6, 2025 (Federal Court File No. T-390-25) challenging OSFI’s decision not to register the plan. The litigation was settled in favour of the Agency. In September 2025 Canada agreed to the following:

- register the Plan through OSFI;
- pay costs in the amount of \$10,000; and
- that there is no confidentiality associated with the settlement.

The Agency continues to set legal precedent through this action. The Agency was represented by Earl Stevenson and Kaisha Thompson from the law firm of Duboff Edwards Schachter.

Community Circle of Care

Rannon Wilson has been installed as the Community Circle of Care (the “CCC”) Coordinator for the Agency, having been brought on board in August 2025. The Agency hosted an introductory meeting where 31 First Nation departments and 5 Churches/Lodges were represented, in total there were 45 participants at the meeting held on November 24, 2025. A second follow-up meeting occurred on February 4, 2026, to fine-tune policy documentation, as well as to discuss the Nation’s drug strategy. Feedback from the various departments has been requested so that a booklet of departmental resources can be created.

First Nation and Organizational Consults

The Agency continues to be sought out by many First Nations and child welfare organizations to share on our journey to implementation. The Agency hosted 15 Nations/Organizations from June 16 to 18, 2025 at Maamawibiway, it was a very fulfilling gathering where much was shared, including a tour of Agency resources and collaterals. Below is a list of Nations and organizations that visited with the Agency over the past fiscal year, either in-person or virtually.

Capital and Infrastructure - Fiscal Agreement

The Agency completed negotiations in January 2023 and negotiated approximately \$34M to build, purchase and acquire capital assets to deliver child and family services as per *Honouring our Children, Families and Nation Act*.

The Agency received an initial amount of \$15.1M in capital funding in fiscal period 2023-2024, along with capital reimbursements of \$2.7M. In February 2025, a capital submission to Canada was completed which resulted in a reimbursement of \$16.2M.

According to Section 16 of the fiscal agreement:

16.1 Peguis and Canada acknowledge the Agency shall have legal and beneficial interest in any capital facility or asset constructed or acquired with funding provided by Canada....

16.2 Peguis and Canada acknowledge the Agency shall enjoy peaceful enjoyment, possession and control over any capital facility or asset acquired with the funding from Canada....

16.4 Any capital facility or asset acquired by the Agency off-reserve with the funding from Canada shall be the sole responsibility of the Agency and neither Canada nor Peguis shall have any ownership or control over such off-reserve capital facility or asset.

As per negotiations, Canada has stipulated that all costs incurred are specific to the delivery of child and family services. The child and family services funding cannot be used to support other underfunded programs and/or services outside of child and family services, or any other program or service that is already funded by Canada.

The finance team continues to demonstrate accountability, and transparency as per all financial reporting requirements to the Board of Directors, leadership, and funders. The finance team looks forward to another year of operationalizing the *Honouring our Children, Families, and Nation Act*, to meet the needs of children, youth, and families.

TRADITIONAL WAYS OF HEALING

LOVE

Carried by the Eagle

Accepting people for who they are, what they believe and loving unconditionally.

The Creator had cleansed the earth 2 other times, first with ice then with water, when the human beings lost their way and were getting out of control. As the Creator planned to cleanse the earth again - because once again the humans had lost their way - the Eagle came forward to speak on their behalf, "Let me fly out and search to see if any people are still trying to follow your ways". So the Eagle flew out searching, until he came across the Red people still honouring the Creator and the life he gave them. The Creator then instructed the Eagle to do this everyday and as long as some people were still following the Creators laws he would not cleanse the Earth again, for how much he loved the people. The Eagle carries the teaching love, he flies closest to the Creator and carries our prayers and so we always offer him tobacco to thank him. Love is the most powerful medicine Creator gave us. We must love ourselves first to be able to love. Love can heal. Love can work miracles. We must use love in everything we say, think and do. We feed the Eagle fish in the fall as they leave and in the spring when return. The Eagle carries the medicine Sweetgrass.

To know love is to know peace. The Eagle has the ability and strength to carry all teachings. Eagle can reach the highest of all creatures and believed to be closest to Creator. Love is based on admiration, tenderness, devotion and kindness for all things around you.

FAMILY PRESERVATION

TRADITIONAL WAYS OF CARING FOR OUR CHILDREN

RESPECT

Carried by the Buffalo

Treat others the way you want to be treated; respecting who they are as a person.

According to *Honouring our Children, Families, and Nation Act*, subsection 6 (7):

Priority to Preventative Services

6.7 (a) In the context of providing Child and Family Services in relation to a Child, and to the extent that providing Preventative Services to support the Child's Family is consistent with the Best Interests of the Child, the provision of those services are to be given paramount consideration before other services and programming.

(b) The Agency shall consider Early Intervention Services as further support for the Child's Family in order to avoid apprehension.

(c) The Agency will coordinate with other First Nation service providers, such as Peguis Jordan's Principle, to ensure that there is no duplication of services and to ensure that substantive equality principles are met.

Respect - Carried by the Buffalo

The Buffalo gave every part of his being to the Red people. The Red people used the Buffalo for food, tools, homes, clothing and in ceremony. So this give and take between the Buffalo and the Red people is the ultimate development of respect. Respect has to be earned by showing it. Respect yourself, and all living things. Respect everyone's uniqueness and free will from the biggest to the smallest.

Treat everyone the way you wish to be treated. We feed the Buffalo apples or berries. The Buffalo carries the medicine Sage.

Courage - Carried by the Bear

We are told in the winter time the Bear is hibernating, but the truth is that the bear is fasting and that is because of him that the Red people did not lose their way of life. The Red man evolved from the bear, the Bear is our brother and when we want to know who we really are we should call on him. It takes courage in this day and age to live as the Red man. But the Bear tells us to be strong and proud to be who the Creator made us. To face life with integrity and bravery is to know courage. Bear teaches us to overcome challenges and fears that prevent us from what's in our heart and spirit. Bear shows us to live a balanced life and to stand up for what we believe in and have the courage to be yourself. We feed him in the fall before he begins his fast and again in the spring when he awakes, fish berries and honey. The Bear carries the medicine Bear root.

INVESTIGATION SERVICES

COMING TOGETHER TO SPEAK TRUTH IN A SHARING CIRCLE

HONESTY

Carried by the Sabe

Be transparent, open, clear, and act with integrity.

Ogagwaadagi'ann Investigative Program

The Ogagwaadagi'ann Investigative Program provides a standardized approach to investigating allegations of physical, sexual and emotional abuse against children. The goal of the program is to ensure that children receive protective services related to abuse as outlined in the *Honouring our Children, Families and Nation Act*.

Action by Agency

On receiving information that causes the Agency to suspect that a Child is or might be abused, the Agency shall:

- (a) Where there is a preliminary opinion that serious physical injury or sexual exploitation of the Child has occurred, immediately consult with a duly qualified medical practitioner and where believed necessary and appropriate, arrange for a medical examination of the Child and any other Child by a duly qualified medical practitioner or at a medical child abuse facility;
- (b) Notify and consult immediately with an appropriate Peace Officer for the area as to the particulars of the case;
- (c) Share all relevant information, including information of a confidential nature, with the Peace Officers, medical and hospital professionals and other agencies or persons involved in the investigation and management of the case, to ensure the best course of action for the protection of the Child is taken; and
- (d) Refer the matter to the Child Abuse Committee.

The Agency coordinates a Child Abuse Committee whose primary responsibility to review all Child Abuse Investigations and to maintain best interest of the children. The committee members also make recommendation to the Agency pertaining to entry of the identified offender(s) into the Manitoba Child Abuse Registry.

Further services the Ogawaadag'iann investigative program provides include:

- Investigate matters of alleged abuse where the alleged offender is a Peguis First Nation Band Member;
- Will conduct Forensic or Global interviews with Peguis First Nation Band Members who have been victim or witness to allegations of abuse;
- Will attend meetings with collaterals to ensure adequate services are being provided to victim and their family;
- Will collaborate with other agencies to complete global or forensic interviews with non-band members;

Child Abuse Committee

Child Abuse Committee consists of representatives from Child and Family Services, Public Health, Probation, Education and the RCMP. The committee reviews instances of child abuse. This multi-disciplinary team provides consultation in the investigation and management of cases and makes recommendations regarding the protection of children. Child Abuse Committees are an integral part of the review and management of abuse cases.

Child Abuse Committee allow all key members of the investigation to come together, share their findings and make further decisions about both the investigations and plans of action.

The Child Abuse Committee must have, at minimum, the following five mandatory members:

- The Agency's child abuse coordinator;
- A duly qualified health care practitioner employed, retained or consulted by the Agency to review cases of suspected child abuse for the Agency;
- A police officer representing a law enforcement service operating in the area within the Agency's jurisdiction;
- A representative of a school division located within the area of the Agency's jurisdiction; and
- A staff member of the Agency, other than the child abuse coordinator.

The responsibilities of the Child Abuse Committee are to:

- Review every case of suspected abuse referred to the committee;
- Review, as required, the involvement of the police, medical and hospital professionals, and others involved in the investigation and management of the case;
- Provide consultation in the investigation and management of the case; and
- Make recommendations where it is considered appropriate or necessary to protect the child or any other child.

Once the Child Abuse Committee has reviewed the case, the committee is responsible for the following key actions:

- (a) Form an opinion whether the person abused the child;
- (b) Form an opinion whether the name of the person should be entered in the Child Abuse registry; and
- (c) Report its opinions and, where it has formed the opinion that the person has abused the child, the circumstances of the abuse to the Agency.

Where a Child Abuse Committee suspects a person of having abused a child, the committee shall, in the prescribed manner, give to the person who is suspected an opportunity to provide information to it and shall:

- (a) form an opinion whether the person abused the child;
- (b) form an opinion whether the name of the person should be entered in the registry; and
- (c) report its opinions and, where it has formed the opinion that the person has abused the child, the circumstances of the abuse to the agency.

When entry on the registry is recommended by the Child Abuse Committee, the person to be listed must be notified and has the right to object to the listing through the Court of King's Bench of Manitoba, which will then determine whether the person has abused a child. If no notice of

application is filed in the court within 60 days by the person who is subject to the report, the agency must report the name of the person and the circumstances of the abuse to the Child and Family Services director for entry on the Child Abuse Registry.

Honesty - Carried by the Sabe

The Sabe is a very gentle creature, and for this the Creator gave him a gift. The Creator saw that it saddened Sabe when the people were so afraid of him. So the Creator gave him the ability to be either physical or spiritual, and this is why he's never been captured and never will be. But he brings the message to live honestly. Be who the Creator made you with honor - the Red Man - whether you're a man or woman and live it to the best of your ability. And if you live a truly honest life you will be as big as a Sabe. To journey through life with integrity is to know honesty. Sabe walks among people. Sabe teaches us to be true to ourselves and our spirit. Allowing truth to guide us and accepting who are we will guide us to being honest.

We feed him potatoes and onions by placing them in a tree. The Sabe carries the medicine Weekay.

Wisdom - Carried by the Beaver

The Creator gave the Beaver the gift of his teeth. When the Beaver uses his teeth he can divert water to a burned out place and create a beautiful place once again. If he should stop using his teeth they will grow until he is unable to eat and will die.

Like the Beaver, the Creator gave us all unique gifts to learn and develop for the betterment of the people, and it is said that when we don't know our gifts or don't use them, we become dead inside and feel as though we have no purpose. And if we all use our gifts as the Beaver does, we can create a beautiful world. We feed the Beaver turnip, carrots and any other fruit or vegetable that is hard. The beaver carries the medicine Grey Willow.

9.9 The Agency must ensure that the Customary Caregiver and Customary Care Home meet the safety requirements set out in the Agency's prescribed requirements.

Continued Application of the Act

9.11 The fact that a Child is receiving supports and Child and Family Services under a Customary Care Agreement does not prevent

- (a) The Child or the Child's Family from receiving Child and Family Services;
- (b) The Agency from being authorized from apprehending the Child; or
- (c) A judge or master from finding the Child to be in need of protection.

Family Sharing Circle

9.12 The Family Sharing Circle is a process that can be accessed by the Child, Youth or Family to help deal with child protection and prevention challenges they may be facing. This process is meant to serve as an alternative to dealing with challenges through the Court process. A Family Sharing Circle is intended as a voluntary and inclusive process where the Family works together to solve issues and make a plan to address the required care and support for the Child. The basic steps include, but are not limited to:

- (a) The Family works with the Family Sharing Circle Coordinator to decide who participates, and

where and when the circle should take place. The Child's participation will also be determined and whether the Child should attend. The Family Sharing Circle Coordinator then arranges for the circle to occur;

(b) At the circle, the Family Sharing Circle Coordinator makes sure everyone knows one another, and all are comfortable and understands the process, what is happening and the available supports. Participation is voluntary and not mandatory. Everything discussed at the circle is confidential, allowing participants to freely speak.

(c) The Family then has private time to discuss and work out a plan for the future. The Family Sharing Circle Coordinator will be available in close proximity to assist if required. The Family Sharing Circle Coordinator shall collaborate with the Family to develop a case plan based on the discussion within the circle.

(d) The participants will assist in helping the Child understand the plan, and that the Child will have had an opportunity to say on what the Child wants. The plan will also be reviewed by the Agency taking into consideration the Best Interests of the Child.

(e) The First Nation will develop regulations and policy to reflect the Family Sharing Circle principles for implementation.

Community Circle of Care

9.13 The Community Circle of Care is another process that can be accessed by the Child, Youth or Family to help deal with child protection and prevention challenges they may be facing. This process is meant to serve as an alternative to dealing with challenges through the Court process.

(a) The Community Circle of Care provides care coordination for community-based services and supports to the Child, Youth and Family which require Child and Family Services where such services can be provided by the Agency as well as other services that can be provided from other departments and collaterals within Peguis First Nation.

(b) An Elders Council will be established to serve as the coordinating body that ensures that those departments, collaterals and the Agency have proper referrals to initiate the Community Circle of Care.

(c) If the Child, Youth or Family volunteer to participate in the Community Circle of Care, the Elders Council will provide orientation and guidance for the process to assist in coming to a care plan for the Child, Youth or Family.

(d) The Elders Council will collaborate with the Agency, departments and collaterals on policy that steers the Community Circle of Care.

(e) The Community Circle of Care will meet to discuss the challenges facing the Child, Youth or Family with those impacted by the challenges and will collaboratively come up with a service plan to assist the Child, Youth or Family to overcome the challenges without having the need to utilize the Court process.

(f) The Elders Council and the Agency shall review the service plan to ensure its implementation and is in line with the Best Interests of the Child.

(g) The First Nation will develop regulations and policy to reflect the Community Circle of Care principles for implementation.

Humility - Carried by the Wolf

The Wolf carries humility because wolves are the reflection of working together. The Wolf pack chooses a lead wolf, and the rest humble themselves by following his lead. All decisions, like where their territory is, and where they hunt are made by the lead wolf. So the wolf teaches us that alone and on our own we fail, but by turning our lives over to the Creator and his guidance, we will be successful. Humility is knowing that we all need help in our lives in order to be happy and achieve our purpose. Wolf teaches us to find balance within ourselves and be selfless and kind. We can show humility with our compassion, kindness, gentleness and patience. We feed the Wolf meat. The wolf carries the medicine Berry Roots.

TRUTH

Carried by the Turtle

Be accountable and recognize truth as an opportunity to grow.

(b) Primary consideration must be given to the Child's physical, emotional and psychological development, safety, security, well-being and the Child's sense of continuity and need for permanency with the least possible disruption, as well as the importance of that Child having an ongoing relationship with the Child's Family and the Peguis First Nation or people to which the Child belongs and of preserving that Child's connection to culture, heritage and the First Nation's traditional territory.

Truth - Carried by the Turtle

It is said that the Grandmother Turtle has been here since the beginning of time. It is said she survived all the purification of the earth, and holds the truth. Once you know and live the other seven teachings, you will then know truth. The back of Grandmother Turtle's shell represents Turtle Island, the sweat lodge, and the 13 moons calendar. She draws herself inside and like her we must look inside ourselves to find "our" truth. We feed the Turtle fruit. The turtle carries the medicine Cedar.

TRADITIONAL INDEPENDENT LIVING PROGRAM

The Traditional Independent Living program (TILP) is a program which may be available to Youth who have entered an Extension of Services Agreement with Peguis Child & Family Services. This is a resource designed to meet the unique needs of Members between the ages of 18 to 25 years, who have been in the care of child and family services for their entire life. Participants will live in a supported community located at Maamawibiway where through mentorship and on-site service, they will have access to a range of supports and resources to build upon cultural identity, skills for independence, and invest in long-term stability. Services provided throughout the program will be focused on equipping Youth with the skills, knowledge, tools and connections to continue to be successful when they leave the program.

Not all Members who have been involved with child welfare will be eligible for this Program. The program's focus is to provide a resource to Youth who have been in care long-term and will benefit from focused and intensive support. Time spent in care is a significant factor considered when identifying Youth to participate in this program. Additionally, only Members who are in active receipt of an Extension of Services Agreement may be eligible to access this program.

The youth are supported by 2 (two) TILP Coordinators, 2 (two) Community Mentors and one TILP Administrative Assistant during their time in TILP. Each of their roles are specific to ensure Youth are receiving day-to-day support on-site during their time in Program. Each Youth participant will enter into a 'Participation and Occupancy Agreement' with the Agency. As part of the Agreement, participants will contribute monthly savings which will be necessary for their long-term sustainability and maintenance of their home, once they leave the Program.

Other components of the Agreement will involve guidelines for living within the TILP community, and matters relating to respect for fellow participants and safety. The Agreement outlines requirements for a Youth's ongoing participation in the opportunities provided within the Program, which includes but are not limited to Elder Services, training in employment requirements, and First Aid training. Additionally, Community Mentors facilitate weekend programming, like arts and craft, shared dinners, to bring the Youth to assist in building a sense of community within TILP.

Over the next several months, the Program looks forward to providing ongoing programming for TILP Youth, and ensuring Youth are able to provide feedback on programming and make suggestions for additional opportunities for effective workshops. Guest speakers will be invited on a regular basis to discuss different barriers that Youth may experience during their transition to adulthood.

QUALITY ASSURANCE

The Quality Assurance Coordinator position involves two crucial components, each contributing to the overarching goal of excellence in service delivery. The first part is compiling all the Agency data and statistics with assistance from the Data Management Administrator that is related to the revised standards, policies, and procedures. This data collection process assists in conducting effective evaluations with recommendations for service delivery in the Agency's program areas. This process ensures that services provided are positive and meaningful for our children and their families.

The second part of the Quality Assurance Coordinator position is to review complaints and assess concerns from membership that are related to service delivery. Members that are involved in the complaints process can expect the Quality Assurance Coordinator to uphold the complaint process in compliance with legal and regulatory requirements related to the Canada Fiscal Agreement ("CFA"), at subsection 18.3(d),

Issues of concern related to the implementation of the Peguis Act may be dealt with through the Agency's complaints process as set out in the Peguis Act.

The Complaints process involves a team approach that completes an initial assessment to ensure a plan is in place to address the concern immediately. The worker and supervisor will be responsible to address the immediate concern prior to proceeding with the formal complaint process. The Quality Assurance Department is responsible to inform other bodies and the public of the complaints process, and the manner to file complaints about the Agency's communications or conduct. The Quality Assurance Coordinator will ensure that proper steps are followed, as per the Complaints and Appeal Regulation, the HOCFNA and the Coordination Agreement, at subsection 9.5(c),

A Member or Child affected by a decision by the Agency may submit a written request to the Agency to review the process to ensure the integrity of the decision that the Member or Child is afforded natural justice and procedural fairness through this process.

Traditional Elder Services (One-on-One)

Traditional Elder Services are services provided to individual children, youth, and families. Elders are traditional healers and teachers and help people by using traditional healing practices such as Ceremonies, Seven Sacred Teachings, the Medicine Wheel, and other sacred teachings.

Participants requesting Elder Services will receive one-to-one experience with a traditional Elder and Elder's helpers at the Rainbow Lodge. Participants are encouraged to form personal relationships with Elders and Elder's helpers, as they participate in a wide range of traditional activities.

The Elder's helper will ensure the participant is welcomed, oriented to the environment, and has ongoing support during all activities and teachings.
