Conversations that Drive Performance

31 JULY 2026

18:30AM – 3:30PM
HILTON HOTEL, DARWIN

The formula for performance is behaviour + environment. When leaders create the right environment for the right people, results follow.

What most often happens is the people are right, but the environment isn't, it's not clear, accountable or safe. Performance suffers.

This one-day workshop gives leaders at every level a proven system — and the conversation skills to create an environment of clarity, accountability and psychological safety.
