

Courses for 6th to 12th Grade

On a flexible schedule, students complete courses for credit to get ahead or earn better grades.

Students work one-to-one with experienced Brightmont Academy teachers all the time. Teachers move at the pace and use the instructional methods that best fit each individual's needs. Course curriculum can be tailored to match specific school and district instructional objectives, including new Common Core standards. Students will earn a letter grade and 1.0 credit for all high school level courses unless otherwise specified. Additional courses may be available. Contact the Campus Director with specific requests.

Advanced Courses

Students who advance more quickly can complete more challenging courses to better prepare them for college and career.

Instructors will create a customized academic program for students to build on their strengths and meet their goals. Students interested in earning college credit can take Advanced Placement® (AP®) courses. Students interested in specific programs of study, such as health science or business, can complete Career and Technical Education courses. Honors courses are also available in many subjects. The following courses are offered for up to 1.0 high school credit unless otherwise specified. Contact the Campus Director for more information.

Advanced Placement®

AP® Biology
AP® Calculus AB
AP® Chemistry
