

KYOCERA'S TOTAL MOBILE SOLUTION FOR HOSPITALS & HEALTHCARE

Empower Hospital Staff with Critical Communication & Safety Tools

An ultra-rugged productivity and communication tool with enterprise-level durability, functionality, and blazing wireless speeds – DuraForce PRO 3 by Kyocera allows hospital staff to do more.

Push-to-Talk (PTT) Capable¹ for Quick Dispatch:

Enable instant communication for rapid staff coordination.

Location Tracking: Monitor employee locations in real-time for enhanced safety, security, and productivity insights.

Removable Battery: Reduce downtime with swappable batteries* to keep staff devices powered and operational.

Wi-Fi Hotspot: Seamlessly connect up to 15 medical devices via powerful, integrated hotspot functionality.

Programmable Buttons: Quick access to apps or tools staff utilize most via three programmable, physical keys.

Built Ultra-Rugged: Withstands drops², dirt, and spills. Waterproof³ design supports cleaning and sanitizing.

Scanning Solutions: Transform DuraForce PRO 3 into a modular asset and inventory management powerhouse that can track medications, patients, furniture and more.*

Kyocera's ultra-rugged devices, combined with our large accessory partner ecosystem, help you to build a Total Mobile Solution customized to your specific healthcare needs.
