---

Mr. Weir

In Table R301.2(1) for Ice Barrier underlayment required the answer is yes. The 24" warm wall requirement for ice and water shield is being enforced.

Thank you,

Steve Davis

Chief Building Inspector, OKC

**Subject:** Re: roofing questions

Please supply a letter that states the OKC requirement regarding the table and warm wall ice/water barrier, since you can't supply your table. Or a statement like you did yesterday over the phone that OKC requires the 24" warm wall requirement for re-roofing.

Thanks,

**Gerry Weir**
