October 2025

Dear Friends,

In August at my annual rector's address, I had the great pleasure of giving lots of good news. Our membership is on the rise, our programming is well-attended, we have tenants moving into Fowler House, and we are living into our future vision with big plans ahead.

Christ Church is living fully into its mission to love God and love our neighbors in bold and courageous ways, from hosting the regional Pride Eucharist to growing our hive of honeybees to bringing new voices into our pulpit to encourage us in our next chapter. We are also honoring the history of who we have been as a sanctuary of faith and stability in a world roiling with discomfort.

We are writing our story every day, page by page, chapter by chapter. Every one of us is part of this community that straddles both the historic and the not-yet. Every voice and life is vital to who we are and who we are becoming.

Likewise, every single pledge makes a difference in our ability to do the work we have been given and to accomplish those things we are dreaming. If you have been pledging for many years, thank you! You are the financial bedrock of our community's life. If you are new to pledging, welcome! You have an opportunity to support the work of this incredible place and enrich your own spiritual life while doing so. Cheerfully, of course!

Blessings,

Noelle

Christ Church embodies God's unbounded love by embracing, liberating, and empowering people, whoever they are and wherever they find themselves on their journeys of faith.
