Welcome to Christ Church, Falkirk

Christ Church in Falkirk is a welcoming and inclusive church serving Episcopalians and the wider community. Affectionately known by some as “the vibrant little church on the corner,” we are a valued local place of worship, fellowship and community activity.

Built in 1864 by the renowned architect Sir Rowand Anderson, our historic church can accommodate around 120 people. We have adapted the building over time to meet the needs of our changing and diverse congregation, including providing wheelchair spaces within the pews. However, further improvements are urgently needed to ensure that everyone can access and use the church safely, independently and with dignity.

We are seeking grant funding towards a major accessibility project to improve access to the church and install a fully accessible toilet. The project will benefit wheelchair users, people with limited mobility, those who use walking aids, older people, families with young children and buggies and anyone who may find access to our historic building difficult.

These improvements will help remove physical barriers that currently prevent or discourage some people from attending worship, community events and activities. A fully accessible toilet will provide essential facilities for visitors and members who cannot currently use the existing provision safely or comfortably. Improved access will also enable people to remain in the church for longer and participate more fully in worship, fellowship and community life.

Christ Church is committed to ensuring that everyone is welcomed and able to enter and use our church safely and with dignity. Everyone should have the opportunity to hear the Gospel, participate fully in worship, enjoy fellowship and take part in the many events and activities we provide.

The project will strengthen our role as an inclusive community hub and help us respond to the needs of an ageing population and people living with disabilities or reduced mobility. It will ensure that our historic building remains accessible and useful to the whole community for many years to come.

We proudly say:

ALL ARE WELCOME

Grant support would help us turn this commitment into reality. By investing in improved accessibility at Christ Church, funders will help remove exclusion, promote equality and ensure that no one is prevented from taking part in church or community life because of disability or limited mobility. Our aim is to create a place where everyone can cross our threshold knowing that they are valued, respected and truly welcome.
