PAYMENT POLICY & PRE-ARRANGED FUNERALS

At Time of Need:

The legal representative of the deceased must enter into a Funeral Service Contract and we request a credit card number for our file. Preferably, payment is due at the time our services are rendered by cash, cheque, debit card or e-transfer (limited daily amounts) or credit card. We will accept Mastercard or VISA for deposits and payments towards funeral home services and selected items (disbursement items may be excluded unless pre-authorized by the arranging director). Should the contract include disbursement items which may be paid directly by credit card (such as newspaper notices or floral tributes), such a charge will be deducted from the contract and we will request your permission to provide your credit card information directly by the provider of the disbursement item.

Should the purchaser not be in a position to satisfy the funeral account at the time the services are rendered, on approved credit, we may be able to accept a deposit of a sufficient amount to cover the total of disbursement items, taxes and 25% of the funeral services and supplies. The balance must be paid no later than 30 days from the date of the service.

Overdue accounts are subject to interest charges at a rate of 1.5% per month (18% per annum) retroactive to the date of the service. In a case where funeral costs must be invoiced to an estate where liquidity of funds is dependent upon probate, an automatic administrative fee of 5% may be added to the total funeral account and this does not preclude further interest charges if applicable.

Pre-arranged Funerals:

You may pre-arrange your wishes at no charge and your instructions will be maintained on file until the time of need. At that time, a contract is prepared based on rates in effect at the time of your death and which requires approval by your legal representative before any services may be provided.

Payment in advance of the provision of services and supplies is an available option with the growth on the invested funds utilized to compensate for inflation. **Trust/Annuity:** You may pay the money directly to us and we will place it in trust, where it will accrue interest until the contract is fulfilled (when the services and supplies are delivered) or the contract is cancelled. **Insurance:** You may purchase an insurance contract (in full or time pay option) where the proceeds of the insurance contract will be used to pay for the services or supplies at the time they are delivered, or the contract is cancelled. Flexible monthly pre-payment options are also available to fit your budget.
