GNWMC MEDICAL STAFF:

Robert A. Jason, M.D., F.A.O.C.G., Medical Director - Board Certified in Obstetrics and Gynecology - Dr. Jason is founder of Great Neck Women's Medical Care. He completed his residency at Long Island Jewish Medical Center where is he currently an attending physician. He is also affiliated with North Shore University Hospital. A former instructor in Obstetrics and Gynecology at the State University of New York at Stony Brook and the Albert Einstein College of Medicine. Dr. Jason's are of expertise is in early detection of breast and gynecological malignancy through advanced diagnostic

technologies.

Keith F. Rawlinson, M.D., F.A.C.O.G., F.R.C.S.(C), F.A.C.S., F.R.C.O.G., Associate Medical Director - Dr. Rawlinson is Board Certified in Obstetrics and Gynecology and in the sub-specialty of Maternal-Fetal Medicine. He was formerly Chief, Division of Maternal-Fetal Medicine at North Shore University Hospital, Cornell University Medical College and at Harlem Hospital Center, College of Physicians and Surgeons at Columbia University. Dr. Rawlinson provides expertise in Perinatal Consultation, Antepartum Testing and Obstetrical/Gynecological Ultrasound.

Kathy Kahn Brandes, M.D., M.A.C.R. - Dr. Brandes is a Board Certified Radiologist, distinguished as one of the few in the area to have completed a fellowship in mammography. She completed her residency at Lenox Hill Hospital and a fellowship at the University of Michigan. Dr. Kahn was formerly Physician in Charge of Breast Imaging at a prestigious private radiology practice in Manhattan's upper east side. She also has expertise in obstetrical/gynecological ultrasound and ovarian cancer screening.

Lindsey D. Allan, M.D., F.R.C.P. - Dr. Allan is Professor of Pediatrics and attending physician at Presbyterian Hospital College of Physicians and Surgeons of Columbia University. She was Professor of Fetal Cardiology, UMDS, University of London, and a Fellow in Medical Genetics at the Hospital for Sick Children, Glasgow, Scotland. Dr. Allan is a member of the Royal College of physicians and a member of numerous medical societies. She has over 60 original, peer-reviewed articles, mainly on Fetal Cardiology. She lectures and runs fetal echocardiography courses internationally and is well known in the field for her published books on the subject. She is the first in the world to employ transvaginal fetal echocardiography. Now, fetuses at 14-18 weeks can be diagnosed with structural cardiac abnormalities, compared to 18-22 weeks using traditional transabdominal fetal echocardiography.

Barbara L. Seifert, M.D. - Dr. Seifert is a Pediatric Cardiologist. Dr. Seifert completed her Fellowship training at Cornell University Medical Center and was Chief Fellow there prior to becoming the Fellow in Fetal Echocardiography at the Mount Sinai Medical Center. She completed her faculty appointments at St. Francis Hospital and formerly was the head of Fetal Echocardiography at Winthrop University Hospital.

Keith B. Lescale, M.D., F.A.C.O.G. - Dr. Lescale is Board Certified in Obstetrics and Gynecology and Board Qualified in Maternal-Fetal Medicine. He is Assistant Professor, Attending Physician and head of the Antepartum Testing Unit at Mount Sinai School of Medicine, Elmhurst Hospital Center. He is a former Assistant Attending Physician and Fellow in Maternal-Fetal Medicine at the New York Hospital, Cornell University Medical Center and completed his internship and residency at Louisiana State University School of Medicine, New Orleans, Louisiana. His area of expertise is in perinatal consultation and antepartum testing.

PHILOSOPHY OF PRACTICE:

Great Neck Women's Medical Care provides diagnostic imaging utilizing the latest, most sophisticated equipment, materials and protocols. We are dedicated solely to the needs of women. Our specialists are truly expert in their fields and strive to earn the confidence and trust of our patients and referring physicians. With these multiple screening and diagnostic modalities under one roof, we provide thorough evaluation in one diagnostic session. Now referring physicians can avoid sending their patients on multiple trips to multiple labs. We are open Monday through Saturday and emergency services are available. All reports are phoned in the same day of testing and hand delivered or faxed within 48 hours.
