

CORPORATE HEADQUARTERS OFFICE | \$650,000

The owners of a 1 million square foot building wanted the HVAC system cleaned and encapsulated. Our HVAC Project Manager provided a proposal of the time and cost for the work. A mock demonstration was requested by the facility manager. Upon approval of the process, Guarantee started the project on June 1st. On July 31st, our team completed the HVAC cleaning, and by August 1st, the encapsulation of the internally lined duct work began. With crews working nights and weekends, the encapsulation was completed on August 15th, with no impact to operations.
