6300 // ENVIRO-BLEND® ICE MELTER

BEST COMBINATION OF MELTING POWER AND ENVIRONMENTAL SAFETY.

Safe Step® 6300 Enviro-Blend® is safer for people, pets and vegetation,* but has a melting power that outperforms other ice melter blends. The patented formula contains our powerful melting catalyst MG 104®, which helps prevent refreezing substantially longer than conventional products.

Key features

Melts ice to -10°F (-23°C)

Contains the proprietary, powerful melting catalyst MG 104, which helps prevent refreezing up to 2½ times longer than conventional ice melters

Less harmful for plants, pets, shoes or carpet*

Environmentally gentle, but proven tough on ice

Safe Step 6300 Enviro-Blend provides optimum melting power right out of the bag. Each granule contains the action of multiple ice melting ingredients — for true melting power down to -10°F (-23°C). Plus, it prevents refreezing longer than conventional ice melters, which reduces concrete-harming freeze-thaw cycles.

Designated a “Safer Choice” by the U.S. EPA

Safe Step 6300 Enviro-Blend has earned a Safer Choice designation from the United States Environmental Protection Agency (EPA), providing a product that is effective and safer for health and the environment.
