DID YOU KNOW?

Domestic violence and children
 Domestic violence has many forms, including emotional, financial, physical, and sexual abuse. Research on children who live in homes with domestic violence shows that there can be long-standing consequences to a child's health. Twenty-six states have passed laws protecting children who witness domestic violence. Children who grow up seeing violence between parents often struggle in their own relationships later in life. The single greatest predictor of whether children will grow up to be perpetrators of domestic violence is whether they witness it themselves as children. For more information, read the VIRTUS® article "Domestic Violence, Part 1" at lacatholics.org/did-you-know.

¿SABÍA QUE?

Violencia doméstica y los niños
 La violencia doméstica puede ser de muchas formas, como abuso emocional, económico, físico y sexual. Los estudios sobre los niños que viven en hogares con violencia doméstica han demostrado que crecer en este entorno puede tener consecuencias a largo plazo para la salud del niño. Veintiséis estados han aprobado leyes que protegen a los niños que son testigos de violencia doméstica. Los niños que crecen viendo violencia entre sus padres suelen tener dificultades en sus propias relaciones más adelante en la vida. El principal factor que permite predecir si un niño se convertirá en perpetrador de violencia doméstica es si ha sido testigo de la misma violencia durante su infancia. Para mayores informes lea el artículo de VIRTUS® "Domestic Violence, Part 1" (Violencia doméstica, parte 1) en lacatholics.org/did-you-know.
