

Theatrical Education & Training

Learn to act from expert instructors with extensive performing arts industry experience. Whether you're looking to improve your theatre skills or preparing for a college theatre program, you'll love the guidance you get from the UP Education Team. Our mission is to provide an intensive study in a supportive and inclusive environment where students can advance their artistic potential. Through weekly classes, we aim to inspire self-expression, cultivate discipline, and build a lifelong love for the arts. We believe in the power of performance to change lives, build community, and create tomorrow's leaders on and off the stage!

UP ACADEMY

The Academy offers students the opportunity for a more intensive course of study in theatre arts, focusing on acting and important theatrical fundamentals with classes that provide training to support varied levels of skills and experience. Students ages 10-18 are invited to apply for the year, which runs in two sessions: September - November 2026 and April - June 2027. The Academy will break during the youth production schedule, and we will offer Winter Studio classes. See below for details.

While elements of the Academy may be taken independently, the program is designed for students to embark on a significant course of study and build their skills year over year, preparing them for potential careers in Theatre or simply a wonderful love of the arts to take with them beyond their journey here.

SKILLS FOR LIFE

Whether choosing a life in the theatre or any career path, soft skill development contributes to a successful life. From collaboration to communication and emotional intelligence to self-confidence, these skills play a significant role in determining an individual's success and happiness. Although several tools and processes are used for this training, none are as effective as an education in theatre.

Fall 2026 & Spring 2027

• Aspiring Actors - Ages 14-18

Aspiring actors learn to behave logically and naturally onstage. Students work on scene study, monologues, poetry, and audition technique. Relaxation, concentration, collaboration, and focus are stressed. Students are exposed to various techniques including: Spolin, Stanislavski, Hagen, Meisner, and Alexander techniques. We work on speech, diction, and improvisation during every class meeting.
