

WHAT WILL BECOME OF THE CREMATED REMAINS?

Kept at home, tribute niche, burial, scattering on land or water and more.

HeffnerCare.com
Crematory & Funeral Chapels

Visit our website for location details
Lewisberry - Mill Hall - Milton
Red Lion - Renovo - York

Vessels for cremated remains are available in traditional, contemporary and unique styles that reflect everything from military service to personal interests. For scattering, environmentally friendly vessels are available. Many urns can be personalized. Your funeral director will welcome the opportunity to assist you with that.

Read more than 35 Questions & Answers at PartingStone.com

She was only 35 and knew her time was limited. Her husband honored her wishes.

"Parting Stone provided an opportunity for my wife's presence to continue to be felt in my life each day. One of our traditions always centered on us conversing to and from work each day. Thanks to Parting Stone, I have been able to feel as if I am able to hold her hand as we talk each day. It has provided a comfort for my son to hold while he reads at night. Having something tangible has been nothing short of magical as I look to keep her near me each and every day."

- Chad Riddle, husband of the late Caitlin Riddle

Solidified remains are an alternative to conventional cremated remains, also referred to as ashes.

PARTING STONE®

Ashes at Sea off the coast of Key West

We offer this unique service for those who embrace the idea of having the ocean as their final resting place. Please feel free to ask us for more details. This service includes the following;

- **The cremated remains will be personally transported** to Key West, FL, by one of our on staff, licensed funeral directors, who is also a certified scuba diver.
- **Our staff** will personally distribute the ashes at a location you elect to rest in the ocean off the coast of Key West.
- **You may elect** a reef or a shipwreck for placement of the ashes.
- **Ashes will NOT be indiscriminately strewn** off the side of a boat.
- **A certificate will be provided** verifying the location where the ashes were distributed.
- **We will also notify EPA** in compliance with the required notification.

Indoor Tribute Niche: A Flexible Option

Treasured photos, personal interests, hobbies and military service are just some examples of the items families have displayed in niches.

Our Tribute Niche Service is an alternative to burial, scattering, taking the cremated remains home or making a permanent decision today. We understand that the loss of a loved one is a painful experience and that mourning often compounds the difficulty in making decisions about permanent memorialization. Selecting the niche service provides an indoor resting place for up to 30-years where you can visit. With 48-hour notice to us, you may also choose to retrieve the niche contents at any time.

What happens at the conclusion of the 30-year term?

You have options.

1. Extend the term, or
2. Retrieve the niche contents, or
3. Do nothing and we will place the niche contents in our memorial crypt, a permanent resting place.

The memorial crypt is at Susquehanna Memorial Gardens, York, PA, next to the crypt of the late James W. Heffner, founder of Heffner Funeral Homes.

SinoSource® Cloisonné Urns

Cloisonné is an ancient art form invented by the French and perfected by the Chinese. Cloisonné predates stained glass art. Made from brass, copper and colored enamel, cloisonné is crafted by hand and the finished item is fired in a kiln and gilded. As a result of this meticulous process, every cloisonné piece is a beautiful, durable and unique work of art.
