

Building a Shared Understanding.
Creating a Shared Vision.

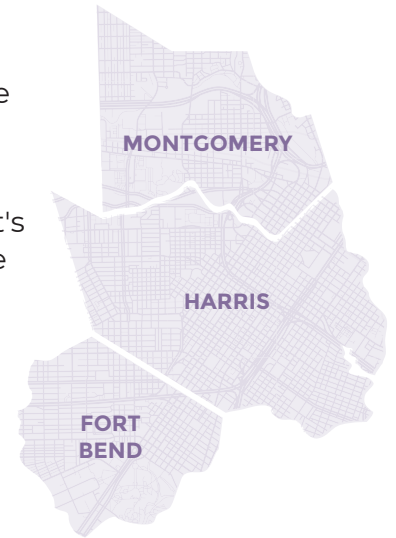

The Way Home COMMUNITY PLAN

HELP US UNDERSTAND WHAT THE DATA DOESN'T SHOW

The Way Home is developing a new community plan to help guide efforts to end and prevent homelessness across our region.

Data helps us understand trends, but data alone cannot tell the whole story. Community expertise helps us understand why. That's why we are bringing together people with lived experience, service providers, public agencies, businesses, health care partners, advocates, and community members to help inform the homeless response system's Community Plan for Harris, Fort Bend, and Montgomery counties.

Together, we will create a stronger path forward.

WHY YOUR EXPERTISE MATTERS

Teach Us What the Data Doesn't Show

Identify challenges and opportunities, what is working and where gaps remain.

Build a Shared Understanding

Create a clearer picture of the challenges and opportunities facing our community.

Create a Shared Vision

Inform priorities and a shared vision for what comes next.

HOW WE ARE BUILDING THE PLAN

Community expertise

Lived experience

Data and system insights

Partner engagement

Collaborative planning

MAKING OUR HOMELESS RESPONSE SYSTEM WORK — BETTER.
