Inspiring Spaces: Renovation Progress at Central Campus

Holy Family Catholic Schools' Inspiring Spaces renovations continue to transform Central Campus. Despite weather delays, work has advanced significantly since summer.

Grading is complete for the future outdoor athletics areas, with approximately 140,000 cubic yards of earth moved to accommodate tennis, softball, baseball, football, and track and field. September's 10 inches of rainfall also put the new water retention basin to the test.

Work continues on the future auditorium, where orchestra pit footings have been poured and interior finishes are being planned. Construction goals include having walls up by Christmas and the roof on by spring.

Please keep our construction crews and school community in your prayers as these spaces take shape to serve generations of Holy Family students.
