

## **ENRICHMENT PROGRAM**

FPDS continues to make it their mission to excel and remain on the cutting edge. We have designed an academic, enjoyable and competitive Enrichment Program for this Fall. Our program is unique because it will benefit the entire school and will focus on Music and Literacy. Enrichment not only nurtures curiosity and creativity, but helps children develop healthy self-esteem, problem solving, critical thinking, language, math and fine motor skills.

Our Preschool Program utilizes Technology including an interactive board in K4 and tablets in conjunction with lessons in the classrooms. This gives us an opportunity to incorporate new educational initiatives including Science, Technology, Reading, Engineering, Arts and Mathematics.

Children in the Preschool K3 and K4 Program receive additional enrichment activities in Weekly Children's Chapel and Storytime in the FPC Children's Library. All K4 children also enjoy participating in weekly Children's Worship Center. This is a 4-day program Mondays-Thursdays.
