

# How to Watch Worship from Home

## First Presbyterian Church of Shreveport

If you are unable to attend worship in person, you are still an important part of our congregation. Each Sunday morning, our worship service is shared live online so you may participate from home.

We offer **two simple ways to watch: Facebook and Vimeo.**

### BEFORE YOU BEGIN

- You may watch on a **computer, tablet, or smartphone.**
- You do **not** need a Facebook or Vimeo account to watch.
- The livestream usually appears **a few minutes before worship begins.**

If you arrive early and do not see the service yet, **nothing is wrong.** Please stay on the page and wait.

### WATCHING ON FACEBOOK (STEP BY STEP)

Facebook is a familiar option for many people, but it can be confusing if you arrive early.

#### What to Do

1. Open your internet browser (such as Chrome, Edge, or Safari).
2. Go to [www.facebook.com](http://www.facebook.com).
3. In the search box, type:  
**First Presbyterian Church of Shreveport ([Link Here](https://facebook.com/fpcshreveport))** – <https://facebook.com/fpcshreveport>
4. Click on the church's page.
5. **Stay on the main page.**
6. When worship begins, the live video will appear at the top of the page.
7. Click the video to watch.

#### Very Important Reminder

If you do **not** see a live video yet:

- This is normal.
- The service has not started yet.

#### Please do not click on other videos or tabs.

Those are recordings from previous Sundays and can be confusing. When the service goes live, it will appear on its own. If needed, you may gently **refresh the page once.**

### WATCHING ON VIMEO (OFTEN SIMPLER)

Many people find Vimeo easier because it does not show old videos or extra options.

#### What to Do

1. Go to the church's Vimeo link – <https://vimeo.com/fpcshreveport> ([Link Here](https://vimeo.com/fpcshreveport)).
2. If the service has not started yet, you may see a still picture or blank screen.
3. When worship begins, the video will start automatically.
4. Click the play button if needed.
5. Adjust the volume using the speaker icon.

You do not need to click anything else.

## **IF YOU MISS THE LIVE SERVICE**

- Both Facebook and Vimeo save the service automatically.
- You may return later the same day or during the week to watch the full service.

## **COMMON QUESTIONS**

- **“I see an old service. Did I miss worship?”** Not necessarily. Go back to the main page and wait for the live service to appear.
- **“I don’t hear anything.”** Check the volume on your device and the speaker symbol on the video.
- **“The screen looks small.”** Look for a square or arrow icon to make the video full screen.

## **NEED HELP?**

If watching online ever becomes frustrating, please know that you are not alone. The church office is happy to help during the week, and we are always glad you are worshiping with us—wherever you are. You remain part of this community, held in prayer, and deeply valued.
