1 EXECUTIVE SUMMARY

1.1 Introduction

The following is a brief summary only and is qualified in its entirety by the more detailed information appearing in the body of this Prospectus. Information in this executive summary is not intended to be exhaustive and should always be read in conjunction with the full text of this Prospectus. The information provided in this summary has been updated until and reflects the situation as per the date mentioned on the cover page of this Prospectus.

All defined terms laid down in Chapter 2 “Definitions” are applicable to this Executive Summary.

1.2 The Fund, Fund Manager and Legal Owners

The Fund (founding date: 27th of July 2020) is a Dutch fund for joint account (*fonds voor gemene rekening*). The Fund has an umbrella structure meaning that the Fund consists of Sub-funds and issues separate series of Participations for each Sub-fund and of which Sub-funds the assets are separately administered and each Sub-fund having its own Investment Objective and respective Strategy and cost structure as set out in this Prospectus. The Sub-funds are part of the Fund.

Wellscott Capital Management B.V. will act as the AIFM of the Fund. In managing the assets and liabilities of the Fund, the Fund Manager will act solely in the best interests of the Participants.

The Legal Owner I will be the legal owner of all assets of Sub-fund BBDGF and Sub-fund PWF and liabilities of Sub-fund BBDGF and Sub-fund PWF. The Legal Owner I will acquire and hold the assets of Sub-fund BBDGF and Sub-fund PWF and assume the obligations for the account and risk of the Participants in Sub-fund BBDGF and Sub-fund PWF.

The Legal Owner II will be the legal owner of all assets of Sub-fund DBFF and liabilities of Sub-fund DBFF. The Legal Owner II will acquire and hold the assets of Sub-fund DBFF and assume the obligations for the account and risk of the Participants in Sub-fund DBFF. The Legal Owner I will act solely in the best interests of the Participants in Sub-fund BBDGF and Sub-fund PWF. The Legal Owner II will act solely in the best interests of the Participants in Sub-fund DBFF.

1.3 Investment Objective and Strategy

Please be referred to Section 3 of the Prospectus.

1.4 Legal, Tax and Regulatory Aspects

1.4.1 Legal Structure

The Fund is not a legal entity (*rechtspersoon*) but a contractual arrangement *sui generis* between the Fund Manager, the Legal Owners and each of the Participants separately, governing the assets and liabilities acquired or assumed by the Legal Owners for the account and risk of the Participants. The Fund has an open-ended structure. The Fund is governed by the Terms and Conditions. By executing the Subscription Form, a Participant represents and warrants to have reviewed the Terms and Conditions and agrees to be

bound thereby. A Participant is admitted to the Fund by the issuance of Participations to the Participant.

The Fund shall have three Sub-funds, each represented by a separate series of Participations as follows. BBDGF (series A Participations), PWF (series B Participations) and DBFF (series C Participations), which Participations shall be issued based on the Total Subscription Price subscribed for by the Participant and/or the date of subscription as described in Section 7.1.3 of this Prospectus. The Sub-funds will have a different Investment Objective and Investment Strategy as described in Section 3. In addition, the fee structure per Sub-fund is different: the Management Fee is 0.80% of the Net Asset Value of BBDGF, the Management Fee is 1.5% of the Net Asset Value of PWF and the Management Fee is between 0.60% and 1.00% of the Net Asset Value of DBFF.

Conversion of Participations in one Sub-fund into Participations in another Sub-fund or vice versa is not possible.

1.4.2 Tax Aspects

The Fund qualifies as a transparent or “closed” fund for joint account Dutch tax purposes, since Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to article 15 (*Redemption of Participations*) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions). Consequently, the Fund does not qualify as a taxable entity. Tax is therefore levied on the results and revenue of the investment at the level of the Participants and not at the level of the Fund itself. This implies that for Dutch tax purposes the Fund’s results are directly allocated to the individual Participants in accordance with the size (and, if applicable, the duration) of their pro rata investment.

1.4.3 Regulatory Position

The Fund Manager is in possession of an AFM license as referred to in article 2:65(a) FSA, and as a consequence may offer the Participations to professional and non-professional investors within the Netherlands in compliance with the FSA. The Fund Manager is subject to conduct of business and prudential supervision by the AFM and DNB.

The AFM license of the Fund Manager has been issued prior to the implementation of the AIFMD in the Netherlands, and was automatically converted into an AIFMD license by the AFM on 22 July 2014, in accordance with the Netherlands AIFMD implementation schedule. This Prospectus is prepared in conformity with the FSA as in force on the date of this Prospectus.

Further information with respect to the regulatory position of the Fund is set forth in Section 5.2 of this Prospectus.

1.5 Fund Governance

The Participants will hold meetings when called by the Fund Manager. The Fund Manager shall call a meeting of Participants (i) as often as the Fund Manager deems necessary in the interest of Participants and (ii) in case of one (1) or more Participants holding, in aggregate, at least 25% of the outstanding Participations request the Fund Manager to call such meeting. The Fund Manager may also call a meeting of each Sub-fund in which case the same provisions apply.

1.6 Distribution Policy

Any distribution to Participants shall be published on the Fund Manager's website. Distributions of Net Proceeds will be made in cash, in EUR.

Distributions relating to Annuity Investment Participations may only be made if they are in accordance with the Annuity Investment Conditions.

1.7 Minimum Investment, Subscriptions and Redemptions

The minimum subscription amount for each of Sub-fund BBDGF and Sub-fund PWF is EUR 5,000.- per Participant and the minimum subscription amount for Sub-fund DBFF is EUR 1,000.- per Participant. This minimum subscription amount may be waived by the Fund Manager in its sole discretion. See Section 7.1.2 of this Prospectus for further information on minimum subscriptions per Sub-fund.

Section 7.1.3 of this Prospectus contains the subscription procedures. The Fund Manager reserves the right to reject an application in whole or in part.

Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to Article 15 (*Redemption of Participations*) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions). The Fund Manager may suspend a redemption under certain conditions. Section 8 of this Prospectus contains the redemption procedures.

3 THE INVESTMENT OPPORTUNITY

3.1 Fund Objective, Strategy, Performance Objectives

3.1.1 Fund Objective

BBDGF OBJECTIVE

BBDGF's objective is to create a concentrated equity portfolio of quality companies with a sustainable or growing dividend distribution with the aim of increasing the value of the capital invested over time. BBDGF is aimed at investors with a long-term investment horizon (minimum five years). The expected return is in line with the MSCI World Index Net Return (in EUR, Bloomberg ticker MBWO Index).

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

PWF OBJECTIVE

PWF's objective is to achieve long term capital growth. To achieve this, the strategy of PWF is to invest in a diversified portfolio of individual listed equities and/or ETFs across at least seven market sectors.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

DBFF OBJECTIVE

DBFF's objective is to achieve long term capital growth. To achieve this, the strategy of DBFF is to invest (directly or indirectly) predominantly in a basket of individual Quality Shares, looking at the extent to which attention is paid to the ESG policy of the relevant share.

The DBFF portfolio promotes environmental and social characteristics, as defined in article 8 SFDR.

The Fund does not have a sustainable investment objective or take into account EU criteria for environmentally friendly economic activities.

Ecological characteristics

By not investing in companies involved in fossil energy extraction and aviation and by investing in companies with lower pollution values than similar companies (best in class), DBFF promotes climate change mitigation, protection of water resources and pollution control as ecological characteristics.

Social characteristics

By not investing in companies involved in weapons, pornography, fur and special leathers, and by screening companies for compliance with international treaties, DBFF promotes respect for human rights and animal welfare as social characteristics.

For more information on the environmental and social features it promotes, see **Schedule 4** hereto and paragraph 3.4 (*Fund Investment Restrictions (DBFF)*) of this Prospectus.

3.1.2 **Fund Strategy**

BBDGF STRATEGY

To achieve the BBDGF objective, BBDGF will invest in listed equities and create a long only portfolio. The BBDGF portfolio will consist of 25-75 equity securities.

BBDGF's investment philosophy and strategy is based on research provided by analysts of *Beleggers Belangen*, a weekly Dutch magazine and website with up-to-date information for non-professional investors. The equity selection is based on the ability of the companies to create sustainable and/or growing dividend distributions to its shareholders. Any dividends received on the equity will be reinvested.

BBDGF will only invest in equity instruments issued by companies from developed countries and will invest in at least 3 different economic sectors.

The portfolio will be managed subject to the Investment Restrictions set out below. The Fund Manager may only deviate from these provisions and change the Investment Strategy by amending this Prospectus and the Terms and Conditions in the way set forth in **Schedule 1** hereto regarding the Terms & Conditions of this Prospectus.

If BBDGF holds investments denominated in currencies other than the Euro, this entails a foreign exchange risk. The Fund Manager therefore may, but is not under an obligation to, hedge foreign exchange risks if it considers this to be in the interest of BBDGF.

BBDGF may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or with related party funds, on the terms and conditions as applicable under the relevant funds' documentation with the prior approval of the Participants by Ordinary Consent. Valuations in relation to any such transaction may be performed by one or more parties (i.e. administrator) involved in such transaction as defined in 10.1.

The financial instruments in which BBDGF invests are predominantly traded on the regulated markets of the European Union, Switzerland, the United Kingdom, Norway, the United States of America and Canada.

PWF STRATEGY

To achieve the PWF objective, PWF will exclusively invest in a diversified portfolio of individual listed equities and/or ETFs across at least seven market sectors. To mitigate downside market risk, PWF may use derivatives that mainly consist of options and futures. PWF may also hold cash and cash equivalents. The portfolio will be managed actively to achieve the goals of long term growth.

The portfolio will be managed subject to the Investment Restrictions set out below. The Fund Manager may only deviate from these provisions and change the Investment Strategy by amending this Prospectus and the Terms and Conditions in the way set forth in **Schedule 1** hereto.

If PWF holds investments denominated in currencies other than the Euro, this entails a foreign exchange risk. The Fund Manager therefore may, but is not under an obligation to, hedge foreign exchange risks if it considers this to be in the interest of PWF.

PWF may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or with related party funds, on the terms and conditions as applicable under the relevant funds' documentation with the prior approval of the Participants by Ordinary Consent. Valuations in relation to any such transaction may be performed by one or more parties involved in such transaction.

The financial instruments in which PWF invests are predominantly traded on the regulated markets of the European Union, Switzerland, the United Kingdom, Norway, the United States of America and Canada.

DBFF STRATEGY

To achieve the DBFF objective, DBFF will primarily (directly or indirectly) invest in a diversified portfolio of listed individual stocks in which the ESG policy plays an important role and mainly consists of Quality Shares. To mitigate downside market risk, DBFF may use derivatives that mainly consist of options. DBFF may also hold cash and cash equivalents. The portfolio will be managed actively to achieve the goals of long term growth.

The portfolio will be managed subject to the Investment Restrictions set out below. The Fund Manager may only deviate from these provisions and change the Investment Strategy by amending this Prospectus and the Terms and Conditions in the way set forth in **Schedule 1** hereto.

If DBFF holds investments denominated in currencies other than the Euro, this entails a foreign exchange risk. The Fund Manager therefore may, but is not under an obligation to, hedge foreign exchange risks if it considers this to be in the interest of DBFF.

DBFF may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or with related party funds, on the terms and conditions as applicable under the relevant funds' documentation with the prior approval of the Participants by Ordinary Consent. Valuations in relation to any such transaction may be performed by one or more parties involved in such transaction.

The financial instruments in which DBFF invests are predominantly traded on the regulated markets of the European Union, Switzerland, the United Kingdom, Norway, the United States of America and Canada.

3.2 Fund Investment Restrictions (BBDGF)

The below restrictions will apply to the Fund Assets in respect of BBDGF.

3.2.1 *Position sizes*

BBDGF shall invest at least 90% of its portfolio in the equity (long only) asset class, whereby it shall:

- a) invest at least 95% in companies with a minimum market capitalization of EUR 1,000,000,000;
- b) not invest more than 30% of its portfolio value in a single country, whereby, as an exception, the Fund may invest up to 80% of its portfolio value in the United States; and
- c) not invest more than 40% of its portfolio value in a single (GICS2) sector.

Further, BBDGF may:

- a) invest up to 10% of its portfolio value in a single entity, provided that the aggregate exposure to single entities in which BBDGF invests more than 5% of its portfolio value is less than 40% of its portfolio value; and
- b) hold up to 10% of its portfolio value in cash or cash funds as ancillary liquid assets in order to service inflow or outflow or to await reinvestment.

The BBDGF portfolio turnover rate (*PTR*) shall not be more than 2 times per annum.

3.2.2 *Investment criteria*

BBDGF will only invest in equity instruments issued by companies from developed countries and will invest in at least 3 different economic sectors.

3.3 Fund Investment Restrictions (PWF)

The restrictions below will apply to the Fund Assets in respect of PWF.

3.3.1 *Position sizes*

Individual stocks

No one of the individual stocks will exceed 7.5% of the total Fund Assets.

Derivatives

The Fund is allowed to use derivatives like options and futures.

3.3.2 *Investment criteria*

When composing the PWF portfolio, the following investment criterium must be met:

- the portfolio may only consist of listed products; and
- the portfolio consists of at least 7 different market sectors.

3.4 Fund Investment Restrictions (DBFF)

The restrictions below will apply to the Fund Assets in respect of DBFF.

3.4.1 *Position sizes*

Individual stocks

No one of the individual stocks will exceed 7.5% of the total Fund Assets. The portfolio must be diversified with a minimum of 30 individual stocks.

Derivatives

Fund is allowed to use derivatives like options and futures.

3.4.2 *Investment criteria*

The DBFF portfolio promotes ecological and social characteristics, as defined in article 8 SFDR (see **Schedule 4** hereto).

When composing the DBFF portfolio, the following investment criterium must be met:

- the portfolio may only consist of listed products.
- the portfolio consists of at least 7 different sectors;
- the portfolio consists of at least 30 share positions;
- Sustainability indicators are applied as binding elements of the DBFF portfolio (**Schedule 4** hereto); and
- ESG score of at least 45 (based on methodology of an external data provider). If such ESG score falls below this threshold, the Fund Manager will close the position in short term.

3.5 Borrowings and leverage

The Fund Assets may be pledged to a custodian, if appointed at any time, to borrow against the Fund Assets, limited to 100% of the Fund Assets. In order to mitigate the risk of currency devaluations or fluctuations, the Fund Manager may hedge against a decline in the value of the Fund's non-EUR denominated Fund Assets. The Fund Manager is not allowed to lend any of the Fund Assets to a third party.

To achieve the Fund's objective, the Fund will use leverage in executing its investment strategies. Such leverage may take a variety of forms, including margin borrowing from securities brokers and dealers, derivative instruments that are inherently leveraged as determined by the Fund Manager in its sole and absolute discretion. Whether Leverage will be deployed in the portfolio depends on a set of predefined longterm riskparameters that all have moved within certain critical values. The amount of leverage deployed depends on a set of shortterm riskparameters that all must have been met to determine the amount of leverage relative to the portfolio.

Leverage employed by the Fund may be secured by the Fund Assets.

The Fund may use leverage provided by the Custodian based on collateral up to 100% of its Net Asset Value of the portfolio, so the exposure (measured by the gross method) can be a maximum of two times its Net Asset Value. In due course of investing this percentage will be substantially lower.

In the event of any change in the Fund's policy on leverage, this will be notified to Participants in the monthly newsletters by email. The total amount of leverage and its composition employed by the Fund (calculated in accordance with the gross method as calculated by the Administrator) will be reported in each monthly report provided to the Participants. This report will be drafted by the portfolio manager.

3.6 Life span of the Fund (Term)

The Fund is formed for an indefinite period of time but shall terminate upon the occurrence of any of the events set forth in article 24.1 of the Terms & Conditions.

3.7 Sustainability Risk incorporation (SFDR)

Investments may be exposed to Sustainability Risk. Examples of such events or circumstances include climate change, involvement in child labor, or scarcity of raw materials. Such events and circumstances could have a negative effect on the value of investments.

The Fund Manager assesses Sustainability Risks as any other risks such as market risk. All of these risks could result in the possibility that expected or targeted returns may not be achieved.

By integrating risk factors – including sustainability factors - into the investment decision process Sustainability Risks are managed by the Fund Manager. If the Fund Manager identifies high risks - including sustainability risks - the Fund Manager will not invest or replaces an existing investment

Since all three portfolios are diversified, the Fund Manager believes that any Sustainability Risk may arise, but given the investment restrictions (3.2 BBDGF, 3.3 PWF and 3.4 DBFF), the required pre-investment risk assessment and post-investment monitoring activities, the Fund Manager expects that the likely impact of Sustainability Risks on the returns for all three portfolios are limited.

No Consideration of Principal Adverse Impacts

The Fund Manager does not consider principal adverse impacts of its investments decisions on sustainability factors at entity level. As the Fund Manager is required to assess all indicators of Table 1 of Delegated Regulation 2022/1288 as well as the relevant indicators of Tables 2 and 3 if it were to include negative impacts on sustainability factors at entity level the Fund Manager believes that there is currently insufficient reliable data available to adequately analyze all of these negative impacts and integrate them into its investment process.

The Fund Manager takes into account some principal adverse impacts on sustainability factors for DBFF.

The Fund manager will follow developments in this area closely and reconsider the above statement if it appears that sufficient reliable data becomes available in the market.

4 RISK FACTORS

4.1 Introduction

An investment in the Fund carries a high degree of risk. There can be no assurance that the Fund will achieve its Fund Objective or that Investee Funds' investment policy or activities will be successful.

The value of the Fund's investments and the Participations may fall as well as rise and returns on past investments are no guarantee as to the returns on future investments. Accordingly, Participants may lose all or part of their investment in the Fund.

An investment in the Fund requires the financial ability and willingness to accept for an indefinite period of time the risk and lack of liquidity inherent in the Fund.

Due to the Investment Strategy, the value of Fund Assets can strongly fluctuate up and downwards.

Potential participants should consider, among others, the non-exhaustive list of risks mentioned below, review this Prospectus and its ancillary documents carefully and in their entirety, consult with their professional advisors and conduct and subsequently rely upon their own investigation of risk factors associated with the proposed investment.

Participants should realize that the existence and occurrence of certain risks may contribute to the existence and occurrence of other risks.

4.2 Risks Relating to the Fund

Performance

In so far the Fund invests in Investment Funds, the Fund's results depend upon the performance of Investee Funds.

Market Risks

Markets may rise and fall and the prices of financial instruments and other assets on the financial markets in general, and more specifically the prices of assets of the nature and type the Fund may invest in and hold, can rise and fall. A careful selection and spread of investments does not provide any guarantee of positive results.

Lack of Liquidity

Some of the Fund Assets may be in assets which are illiquid or may become illiquid under certain market conditions. Accordingly, it may not always be possible to purchase or sell those assets for their expected value or, if applicable, the prices quoted on the various exchanges.

The Fund's ability to respond to market movements may be impaired and the Fund may experience severe adverse price movements upon liquidation of its Fund Assets.

Leverage Risk

The Fund's use of swaps, futures contracts, options contracts and certain other derivative instruments may have the economic effect of financial leverage. Financial leverage magnifies exposure to the swings in prices of an asset underlying a derivative instrument and results in increased volatility, which means the Fund will have the potential for greater gains, as well as the potential for greater losses.

Concentration of Investments

The Fund may hold relatively few, large investments in relation to the size of the Fund. The Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected. Lack of liquidity may aggravate such losses significantly. In addition, the Fund may own a significant percentage of all of the shares or other securities issued by an Investee Fund. It may not always be possible to dispose of such securities without incurring significant losses. Potential profits may not always be immediately realisable and may therefore be lost prior to realisation.

Restrictions on Transfers and Potential Illiquidity of Participations

Participations may not be registered under any securities laws and, therefore, cannot be resold unless they are subsequently registered under such laws or regulations thereunder. Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to article 15 (*Redemption of Participations*) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions). There is no public market for the Participations and none is expected to develop. Under certain circumstances as set out in Section 8 of this Prospectus, the Fund Manager may suspend the redemption of Participations.

(Foreign) Currency Risk

The Net Asset Value of the Participations may be affected by exchange rate fluctuations. As some of the Fund's Assets may be denominated in currencies other than the EUR while the Fund's accounts will be denominated in EUR, returns on certain Fund Assets may be significantly influenced by currency risk.

The Fund Manager may hedge against a decline in the value of the Fund's non-EUR denominated Fund Assets. Should the Fund Manager decide to hedge the risk of currency devaluations or fluctuations, the Fund Manager may not always succeed in realizing hedges under acceptable conditions and consequently the Fund may be subject to the risk of changes in relation to the EUR of the value of the currencies in which any of its assets are denominated.

Counterparty Risk

The Fund will be subject to the risk of the inability or refusal of payment or clearing institutions, principals or other service providers or other counterparties to its transactions, to perform or

to perform in time under such services or transactions. Any such failure, refusal or delay, whether due to insolvency, bankruptcy or other causes, could subject the Fund to substantial losses. The Fund Manager will seek to mitigate these risks by reviewing the creditworthiness and reliability of all service providers and counterparties and only entering into transactions with those parties that the Fund believes to be creditworthy and reliable.

Non-diversified Status of Fund Assets

The Fund may not be able to achieve adequate diversification in respect of geography, instrument and investment type, sector, capitalisation, liquidity, volatility and/or currency. Consequently the Fund Assets may be subject to and experience greater risk and market fluctuation than a fund that has investments representing a broader range of investment alternatives.

Economic Environment

In the current economic environment, there are increased risks of financial institutions on which the Fund is dependent for its operation or investment returns to fail, be bankrupted or subject to government seizure or nationalization.

Inflation

Due to inflation, the relative value of Participations may decline. The Fund will not specifically hedge inflation risk or take other measures to mitigate this specific risk.

Limited Operating History

The Fund is a recently established entity with limited operating history in order to evaluate the future performance of the Fund.

Changing Legislation

The regulatory and tax environment for investment funds in general as well as certain financial instruments and other types of investments are evolving and changes therein may adversely affect both the Fund's ability to pursue its investment strategies and the value of its Fund Assets. The effect of any future regulatory or tax change on the Fund is impossible to predict. The fiscal status of the Fund may change during the term of the Fund. The Participants are urged to seek fiscal advice before participating in the Fund.

Limited Rights of Participants

The Fund Manager has exclusive authority for managing all operations of the Fund. Participants cannot exercise any management or control functions with respect to the Fund's operations, although they have limited voting rights in certain organisational respects as set forth in the Terms and Conditions.

Redemption Risk and Restrictions

The Fund is an open-ended fund and Participations may be redeemed at the request of a Participant in accordance with the restrictions of Section 8 of this Prospectus and the applicable terms of the Terms and Conditions. Accordingly, there can be no guarantee that the actual Redemption Price reflects the Net Asset Value per Participation as at the date of submitting the Redemption Notice.

The Fund Manager may further suspend the redemption of Participations if: (i) a state of affairs exists which constitutes a state of emergency as a result of which the sale of Fund Assets would, in the sole opinion of the Fund Manager, not be practical or would negatively affect the rights of other Participants; (ii) the Participant did not act in compliance with applicable legislation or the Terms and Conditions; (iii) for whatever reason, the valuation of Fund Assets or Fund Obligations to be sold cannot be promptly or accurately ascertained; or (iv) relevant exchanges are not open for business or the sale of Fund Assets is otherwise restricted or suspended.

Redemptions may cause the Fund to dispose of assets in order to meet its redemption obligations earlier than anticipated or under less favourable market conditions than the Fund would otherwise have disposed of such assets. This may result in a lower Net Asset Value of the Fund generating lower or negative returns for the non-redeeming Participants. Significant redemptions may lead to significant losses to Participants, which remain invested in the Fund.

Early redemptions of Annuity Investment Participations may have tax consequences.

Unclear Legislation

Unclear rules and regulations and conflicting advice may result in a breach of rules and regulations applicable to the Fund. Resulting fines and other sanctions and possible damage to the reputation of the Fund, the Fund Manager and other connected persons may result in a negative impact on the Net Asset Value of the Fund and the Participations.

General Political Factors

Investment results may be adversely affected by developments in countries in which the Fund Assets or counterparties are located. This may result in a partial or complete loss by the Fund as a result of the breakdown of the country's financial system. Such developments include, without limitation: war; civil unrest, ranging from protests to civil war; changes in the political situation and/or government of a country; acts of terrorism; expropriation and creeping expropriation; and inability to transfer moneys cross-border or convert moneys to hard currency.

Indemnification

Under the Terms and Conditions, the Fund Manager and the Legal Owners are entitled to be indemnified out of Fund assets against costs, losses and expenses which they may incur or become liable in connection with the execution of their duties. In addition, the Depositary, the Administrator and other service providers also are entitled to indemnity under the terms of

their respective agreements for services. These obligations could require substantial indemnification payments out of the Fund Assets, provided however that the Depositary shall not be so indemnified with respect to any matter resulting from its negligent or intentional failure to properly fulfil its obligations in accordance with article 21(12) of the AIFMD, and no other person shall be so indemnified with respect to any matter resulting from its attributable breach (*toerekenbare tekortkoming in de nakoming*).

Sustainability Risks

Investments may be exposed to sustainability risks. Sustainability risk means an environmental, social or governance event or condition that if it occurs could cause an actual or potential material negative on the value of the investment.

4.3 General Risks Associated with Investments in Investee Funds

The risks similar to those cited with respect to the Fund might also apply to Investee Funds, in addition to the specific risks which might be applicable to such Investee Funds, such as:

Non-listed Securities

An Investee Fund may invest a large portion of its assets in securities that may not be listed or traded on a stock exchange or regulated market. The issue of such securities may not be monitored by an authority. There may also not be a secondary market monitored by the authorities for such instruments, and the liquidity of these instruments may accordingly be low. As these debt instruments may be issued by issuers who are new to the market or were only recently established, the selection of investments may not be based on detailed historical analyses of the issuer's activities. Consequently the risks and default risks for such investments may be much greater than for conventional securities.

Capital Market Developments

The profitability of portfolio companies of Investee Funds partly depends on the developments in the capital markets. Developments in both debt and equity markets may impact on the ability of portfolio companies to obtain debt financing or raise capital through share offerings. This may in turn impact the returns available for the relevant Investee Fund.

Credit Risk

Subscription amounts paid by Participants prior to the relevant Subscription Date, which are invested into Investee Funds prior to such Subscription Date, may be viewed by the courts as being Fund Assets. In the event of the Fund becoming insolvent prior to the relevant Subscription Date, such subscription amounts would be at risk with all other Fund Assets.

Follow-on Investments

An Investee Fund may have the opportunity or be requested to increase its investment in a particular portfolio company. In case an Investee Fund undertakes such follow-on investments, it may significantly increase its exposure to a particular portfolio company. In case it does not

undertake such follow-on investments, this may have a negative impact on the returns of a particular portfolio company, or may lead to a dilution of the value of the relevant Investee Fund's investment.

Investment Strategy (including the use of derivatives and leverage by the Investee Funds)

Risks involved in these type of investments are greater than that normally associated with other types of investment, as the investment strategies can be subject to sudden, unexpected and substantial price movements. Consequently, the trading of such investments can lead to substantial losses as well as gains in the net asset value per share, unit or participation within a short period of time.

Investments may be made in markets that are volatile and/or which may become illiquid. Accordingly, although certain investments may give greater liquidity than an equity investment, it may be impossible (in the event of trading halts or daily price fluctuation limits on the markets traded or otherwise) or expensive to liquidate positions against which the market is moving. Alternatively, it may not be possible in certain circumstances for a position to be initiated or liquidated promptly (in the event of insufficient trading activity in the relevant market or otherwise).

Accordingly, the ability to respond to market movements may be impaired. These risks may be accentuated where it is required to liquidate positions to meet margin requests, margin calls, redemption requests or other funding requirements.

Some of the investment strategies may include short selling which involves agreeing to sell securities at a future date although, at the time of such agreement, the securities to be sold may, or may not, be owned by the seller. The seller may, at times, have to borrow securities of the same type for delivery to the purchaser, with an obligation on the seller to replace any such borrowed securities at a later date. Short selling allows the investor to profit from declines in market prices to the extent such declines exceed the transaction costs and any costs of borrowing the securities.

However, if the borrowed securities must be replaced by purchases at market prices in order to close out a short position, any appreciation in the price of the borrowed securities would result in a loss. Purchasing securities to close out a short position can itself cause the price of the securities to rise further, thereby exacerbating the loss. There can be no guarantee that securities necessary to cover a short position will be available for purchase.

In addition, in some markets there are rules prohibiting short sales at a price below the last sale price, which may prevent the short sales from being executed at the most desirable time.

The Investee Funds may use derivatives. Investments in derivatives involve significant risks and may result in losses. The prices of futures contracts and derivative instruments are highly volatile. These prices are influenced by, among other things, interest rates, implied volatility, dividend yield, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and political and economic events.

Forward contracts, unlike futures contracts, are not traded on exchanges and are not standardised. Forward and 'cash' trading is substantially unregulated; there is no limitation on daily price movements and speculative position limits are not applicable. The principals who deal in the forward markets are not required to continue to make markets in the currencies or commodities they trade, and these markets can experience periods of illiquidity, sometimes of significant duration. Disruptions can occur in any market traded due to unusually high trading volume, political intervention or other factors.

Some of the investment strategies may incur leverage through cash borrowings. The use of cash borrowings creates special risks and may increase the investment risk. Borrowing creates an opportunity for greater yield and total return but, at the same time, will increase the exposure to capital risk and interest costs.

Cash Management

Investee Funds may enter into arrangements by which cash not required for trading purposes will be managed by the investment managers. Such arrangements may include the entry into of repurchase or reverse repurchase transactions and other cash management arrangements, including holding cash in bank accounts or secured or unsecured deposits, or investing such cash in corporate or government bonds, or such other instruments as deemed appropriate by the investment manager.

A repurchase transaction involves the sale of securities by a seller to a buyer for a purchase price, and an agreement for the seller to repurchase such securities on a mutually agreed future date for the same purchase price, plus interest at a negotiated rate. From the perspective of the buyer, the transaction is referred to as a reverse repurchase transaction, and involves buying securities against payment of a cash price, with the buyer agreeing to resell the securities at a future date, and the original seller agreeing to repurchase such securities at the same price, plus interest at a negotiated rate. Such transactions are economically equivalent to a cash loan collateralised by the securities.

The use of repurchase and reverse repurchase agreements involves certain risks. For example, if the seller of securities under a reverse repurchase transaction defaults on its obligation to repurchase the underlying securities, as a result of its bankruptcy or otherwise, the Investee Funds seek to dispose of such securities, which action could involve costs or delays. The Investee Funds may suffer a loss to the extent that the proceeds from the disposal of the underlying securities are less than the repurchase price due from the defaulting seller.

Discretion of Investment Managers; Strategies, Instruments and Techniques

The investment managers have discretion in the types of financial instruments which they may trade and have the right to modify the trading strategies, instruments or hedging techniques. Any of these new trading techniques may not be thoroughly tested in the market before being employed and may have operational or theoretical shortcomings which could result in unsuccessful trades and, ultimately, losses to the companies. In addition, any new investment

strategy, choice of instruments or hedging technique may be more speculative than earlier techniques and may increase the risk of an investment.

4.4 Risks Relating to the Fund Manager

Due to the insolvency, negligence or fraudulent actions of the Fund Manager, its officers or employees or third parties used for the custody of assets of the Fund, the value of Participations may decline and the Fund Assets may be lost.

4.5 Risks Relating to the Legal Owners and the Depositary

Due to the insolvency, negligence or fraudulent actions of the Legal Owners and/or the Depositary, their officers or employees or third parties used for the custody of assets of the Fund, the value of Participations may decline and the Fund Assets may be lost.

4.6 Risks Relating to Conflicts of Interests

Other Clients

The Fund Manager will manage other funds other than the Fund. There can be no assurance that such services do not conflict with the interests of the Fund. The Fund Manager and the Legal Owners intend to manage potential and actual conflicts of interest issues in good faith in compliance with the Fund's conflicts of interests policy in order to take any necessary decision or action to ensure that the Fund Manager acts in the best interests of the Fund.

Sustainability risks

The Fund Manager and the Legal Owners intend to manage potential and actual conflicts of interest issues in good faith in compliance with the Fund's conflicts of interests policy and take all reasonable steps to identify, prevent, manage and monitor conflicts of interest in relation to sustainability risks to prevent them from adversely affecting the interests of the Fund and its Participants.

Transactions with the funds managed by the Fund Manager or with related party funds

The Fund may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or with related party funds with the prior approval of the Participants by Ordinary Consent. The Fund Manager and the Legal Owners intend to manage potential and actual conflicts of interest issues in good faith in compliance with the Fund's conflicts of interests policy in order to be able to take all reasonable steps designed to identify, prevent, manage and monitor conflicts of interest in order to prevent them from adversely affecting the interests of the Fund and the Participants.

Diverse Participants

Participants may have conflicting investment, tax and other interests with respect to their investments in the Fund. The conflicting interests may relate to, among other things, the nature of Fund Assets, the structuring of Fund Assets and the timing of disposition of Fund Assets. As

a consequence, conflicts of interest may arise in connection with decisions made by the Fund Manager that may be more beneficial for one Participant than for another Participant, especially with respect to Participant's individual tax situations. The Fund Manager will consider the investment, tax and other interests of the Fund and its Participants as a whole, not the investment, tax or other interests of any Participant individually.

The foregoing factors are not exhaustive and do not purport to be a complete explanation of all the risks and considerations involved in investing in the Fund. In particular, the Fund's performance may be affected by changes in market conditions, and legal, regulatory and tax requirements. The Fund will be responsible for paying the fees, charges and expenses referred to in this document regardless of the level of profitability.

Delegation

The Fund Manager has delegated certain key functions like administration and the compliance function. Before a delegation partner is committed, a thorough check is done on the delegation partner including a conflict of interests analysis. During the performance of the delegation agreement any possible conflicts of interests are addressed based on the delegation policy and conflicts of interests policy as used by the Fund Manager.

Conflicts of interests might arise between the Fund Manager and the delegation partner or between the delegation partner and other clients of the delegation partner in relation to the Fund Manager and/or the Fund.

No such conflicts of interests currently exist or are expected to arise in the near future.

Other positions of a portfolio manager

This is the risk that a portfolio manager also acts for other funds or investment initiatives of the Fund Manager, to the detriment of the Fund or the Participants.

The Fund Manager maintains a strict policy regarding conflicts of interests and external positions where full transparency is the norm. The board and the External Compliance Officer will actively monitor on (potential) conflicts of interests.

The portfolio manager of Sub-fund BBDGF and Sub-fund PWF only manages funds from the Fund Manager. However, it is noted that Mr drs. Schilder, one of the portfolio managers for Sub-fund DBFF, does manage another low vol fund.

Independent financial advice

Potential Participants who are in any doubt as to the risks involved in investing in the Fund are recommended to obtain independent financial advice before making an investment.

5 LEGAL AND REGULATORY STRUCTURE OF THE FUND

5.1 Legal Structure of the Fund

5.1.1 Legal Form

The Fund is an open end investment fund (*beleggingsfonds*) as referred to in article 1:1 FSA and a fund for joint account (*fonds voor gemene rekening*) organised and established under the laws of the Netherlands. The Fund has an umbrella structure meaning that the Fund is divided into Sub-funds and that for each Sub-fund a separate series of Participations is issued and of which Sub-funds the assets are separately administered and each Sub-fund having its own Investment Objective and respective Strategy and cost structure as set out in this Prospectus.

Under the laws of the Netherlands, the Fund is neither a legal entity (*rechtspersoon*) nor a partnership, commercial partnership or limited partnership (*maatschap, vennootschap onder firma* or *commanditaire vennootschap*), but a contractual arrangement *sui generis* between the Fund Manager, the Legal Owners and each of the Participants separately, governing the assets and liabilities acquired or assumed by the Legal Owners for the account and risk of the Participants. In view of its legal form of fund for joint account the Fund is not eligible for registration in the Trade Register (*handelsregister*) of the Netherlands.

The address of the Fund is Prinses Margrietplantsoen 33, 2595 AM 's-Gravenhage, the Netherlands.

The Fund will be managed by the Fund Manager. The Participants have no proprietary rights with respect to the assets of the Fund. The Legal Owner I is the legal owner of all Fund Assets I and the Legal Owner II is the legal owner of all Fund Assets II. The Legal Owner I will acquire and hold the Fund Assets I for the purpose of management and custody (*ten titel van beheer en bewaring*) on behalf of and for the account of the Participants in Sub-fund BBDGF and Sub-fund PWF. Such interest of the Participants is represented by the Participations held by each of them in Sub-fund BBDGF and Sub-fund PWF. The Legal Owner II will acquire and hold the Fund Assets II for the purpose of management and custody (*ten titel van beheer en bewaring*) on behalf of and for the account of the Participants in Sub-fund DBFF. Such interest of the Participants is represented by the Participations held by each of them in Sub-fund DBFF.

The Legal Owners may grant a power of attorney to the Fund Manager under the Terms and Conditions to manage (*beheren*) the Fund Assets in accordance with the Terms and Conditions.

5.1.2 Establishment, Term and Termination of the Fund

The Fund is established as of the first issue of a Participation and shall continue to exist for an indeterminate period of time. The Fund shall terminate upon the occurrence of any of the events set forth in article 24.1 of the Terms and Conditions.

5.1.3 ***Sub-funds***

All Participants shall be treated fairly by the Fund Manager. The organisation of the Fund Manager observes an elaborate integrity framework as required by law regarding its daily operations as well as regarding informational and notification duties for the benefit of investors and regulators. An example is the handling of Conflicts of Interests.

The Fund shall have three (3) Sub-funds: BBDGF, PWF and DBFF, respectively represented by series A Participations, series B Participations and series C Participations, which Participations shall be issued based on the Total Subscription Price subscribed for by the Participant and/or the date of subscription as described in Section 7.1.3 of the Prospectus.

All Sub-funds have a different Investment Objective and Investment Strategy and cost structure. Also, for the different Sub-funds a different Management Fee will be charged as described in Section 9.2.3 of the Prospectus.

No Participants shall have any other special rights as compared to other Participants, and no Participants shall have any preferential treatment as compared to other Participants. There are no specific legal or economic links between the Fund or the Fund Manager on the one hand, and Participants subscribing for any particular Sub-fund on the other hand.

Participations in each Sub-fund represent an equal interest in the Net Asset Value of that Sub-fund without priority or preference of one over the other.

A Participant cannot directly convert an investment in one Sub-fund into an investment in another Sub-fund. Such conversion from one Sub-fund into the other would need to be made through the procedure of redemption of Participation(s) of the relevant series in the respective Sub-fund followed by the subscription for Participation(s) of the relevant series in the other Sub-fund.

5.1.4 ***Liquidation***

Upon termination of the Fund, no further business shall be conducted except for such action necessary for the winding up of the affairs of the Fund. A liquidation report shall be prepared in connection with the liquidation. The balance left after the liquidation shall be paid in cash to the Participants (pro rata to the numbers of Participations held by them, against cancellation of these Participations). Payments relating to Annuity Investment Participations may only be made if they are in accordance with the Annuity Investment Conditions.

5.1.5 ***Key Fund Documents, Governing Law and Jurisdiction***

The Fund Documents will be:

- a) the Terms and Conditions. The Terms and Conditions represent the key organisational document of the Fund and amongst others set forth the agreement

between the Fund Manager and the Legal Owners concerning the management and custody on behalf of the Fund;

- b) this Prospectus; and

The Total Subscription Price will be increased by the Fund Manager with a surcharge, with a maximum of 0.15% of the Total Subscription Price in normal market circumstances, in order to meet any costs and expenses of the Fund incurred for the acquisition of Fund Assets in order to issue the Participations. If either (i) the signed and completed Subscription Form, or (ii) the Total Subscription Price has not been received timely, no Participations will be issued and the application shall be retained until the next Subscription Date (for the avoidance of doubt, no interest shall be due). In that case, the Net Asset Value per Participation on that Subscription Date shall be the basis for the determination of the Subscription Price for any Participations issued as per that Subscription Date, subject to receipt of (i) and (ii).

The Fund Manager may decide, at its sole discretion, to (i) accept Subscription Forms which are not received timely (but not later than on the Valuation Date immediately preceding the relevant Subscription Date) and (ii) accept an application for Participations in case of overdue payment, provided that the Total Subscription Price has been received on the Business Day prior to the relevant Subscription Date.

The Fund Manager reserves the right to accept or reject any application in whole or in part at its absolute discretion. When an application is rejected, the amount paid on application or the balance thereof (as the case may be) will be returned (without interest), as soon as practicable, to the same account from which such proceeds were originally debited.

Completed applications are irrevocable once the Subscription Form has been received by the Administrator and the Total Subscription Price has been received in the bank account of the relevant Legal Owner. The procedure used by the Administrator is stated in the Subscription Form and is compliant with the Dutch Act on the prevention of money laundering and financing of terrorism (Wet ter voorkoming van witwassen en financieren van terrorisme) summarized in **Schedule 3** hereto.

The Administrator reserves the right to request such other information as is necessary to verify the identity of an applicant. Pending the provision of evidence satisfactory to the Administrator as to the identity, the evidence of title in respect of interests may be retained at the absolute discretion of the Administrator. If, within a reasonable period of time following a request for verification of identity, the Administrator has not received evidence satisfactory to it as mentioned above, the Fund Manager may, in its absolute discretion, refuse to allot the Participations applied for in which event the subscription proceeds will be returned without interest of the applicant to the account from which such proceeds were originally debited.

8 TRANSFER AND REDEMPTION OF PARTICIPATIONS

8.1 Introduction

Transfers and redemptions of Participations are subject to limitations. Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to article 15 (*Redemption of Participations*) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions). The Fund Manager provides for adequate liquidity management in the Fund for redemptions to be paid and shall under normal circumstances be able to redeem Participations upon request, following the procedure described in paragraph 8.3 (*Redemption of Participations at the Request of a Participant*) of this Prospectus. Under special circumstances, however, the Fund Manager may suspend redemptions. These circumstances are described in paragraph 8.3.3 (*Suspension of Redemptions*) of this Prospectus. Paragraph 8.4 (*Mandatory Redemption of Participations*) of this Prospectus describes the extraordinary circumstances under which the Fund Manager and the relevant Legal Owner shall be entitled to redeem all (but not part of) the Participations of any Participant.

8.2 No Transfer of Participations

Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to article 15 (*Redemption of Participations*) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions). For the avoidance of doubt, in case a Participant holds Participations for a beneficial owner pursuant to a custody relationship between such Participant and the beneficial owner, a change of custodian by such beneficial owner shall be subject to a prior approval of the Fund Manager, but shall not be deemed a transfer for the purpose of the transfer restrictions under this Prospectus and the Terms and Conditions.

8.3 Redemption of Participations at the Request of a Participant

On any Redemption Date, provided the requirements of the Terms and Conditions have been met and redemption of Participations is not suspended in accordance with paragraph 8.3.3 (*Suspension of Redemptions*) of this Prospectus, the Fund Manager will redeem Participations at the request of a Participant sent in writing to the Administrator. For the avoidance of doubt, redemptions of Annuity Investment Participations are subject to the fulfilment of the Annuity Investment Conditions.

The Fund Assets, including, for the avoidance of doubt, any bridge financing, will be sufficiently liquid to, under normal circumstances, allow the Fund to redeem Participations as requested by its Participants for at least 10% of the fund assets managed per Sub-fund.

8.3.1 ***Redemption Price and Costs of Redemption***

The Redemption Price of a Participation is equal to the Net Asset Value per Participation of the relevant Sub-fund as at the Valuation Date immediately preceding the applicable Redemption Date. The Total Redemption Price is the applicable redemption price multiplied by the number of redeemed Participations of the respective Sub-fund. The Total Redemption Price will be decreased by the Fund Manager by a discount, with a maximum of 0.15% of the Total Redemption Price in normal market circumstances, in order to meet any costs and expenses of the Fund incurred for the disposal of Fund Assets in order to redeem the Participations. The discount is for the benefit of the Fund. The discount may be substantially higher than 0.15% during times of severe market stress. The Fund Manager shall determine the Total Redemption Amount.

In order to determine the net amount due by the Fund to a Participant in consideration for the redemption of Participations (the Total Redemption Amount), the Total Redemption Price might be at the sole discretion of the Fund Manager reduced by a discount equal to:

- For BBDGF : 0.10% of the Total Redemption Amount if redemptions are requested within 12 months from the relevant subscriptions;
- For PWF: 0.10% of the Total Redemption Amount if redemptions are requested within 12 months from the relevant subscriptions; and
- For DBFF: 0.10% of the Total Redemption Amount if redemptions are requested within 12 months from the relevant subscriptions.

Such redemption discount shall be for the benefit of the relevant Sub-fund.

8.3.2 ***Procedure***

Applications for the redemption of Participations should be submitted to the Administrator by means of a duly signed Redemption Notice specifying the details of the redemption at least twenty (20) Business Days before the relevant Redemption Date. Redemption Notices are irrevocable once received by the Administrator.

If the Redemption Notice has not been received timely, the application shall be retained until the next Redemption Date. In that case, the Net Asset Value per Participation of the respective Sub-fund as at the Valuation Date immediately preceding that next Redemption Date shall be the basis for the determination of the Redemption Price for any Sub-fund redeemed as per that Redemption Date.

The Fund Manager may decide, at its sole discretion, to accept Redemption Notices which are not received timely (but not later than on the relevant Redemption Date). This will only take place when remaining Participants are not disadvantaged in any way.

The Administrator will communicate the Total Redemption Amount by email for approval by the redeeming Participant.

The Total Redemption Amount will normally be paid to the redeeming Participant within five (5) Business Days after the release of the Net Asset Value at the applicable Redemption Date, provided that i) the Administrator has received the KYC Requirements; and ii) the Fund has received the redemption proceeds from the relevant Investee Fund, unless exceptional circumstances occur, in which case the consideration will be paid at the earliest possible Business Day thereafter.

In the case the Administrator has not received all the requested KYC Requirements, even though the redemption request will be processed, redemption proceeds will be held in the name of the redeeming Participant at the Fund's bank account without any interest accruing in favour of the Participant and the Participant will bear all associated risks until such time as the Administrator receives the outstanding KYC Requirements.

8.3.3 *Suspension of Redemptions*

The Fund Manager may suspend the redemption of Participations if:

- a) the determination of the Net Asset Value has been suspended (see Section 10.2);
- b) a state of affairs exists which constitutes a state of emergency as a result of which the sale of Fund Assets would, in the sole opinion of the Fund Manager, not be practical or would negatively affect the rights of other Participants;
- c) the Participant did not act in compliance with applicable legislation or these Terms and Conditions;
- d) for whatever reason, the valuation of Fund Assets or Fund Obligations to be sold cannot be promptly or accurately ascertained; or
- e) for whatever reason, the redemption of the Investee Funds Interests is suspended at the level of the relevant Investee Fund, as applicable.

In the event Redemption Notices are received for a particular Redemption Date from one or more Participants for an aggregate Redemption Price equal to 20% or more of the Net Asset Value of the relevant Sub-fund at such Redemption Date, the relevant Legal Owner and the Fund Manager may limit redemption of the relevant Participations to redemption of Participations with an aggregate Redemption Price equal to 20% of the Net Asset Value of the relevant Sub-fund and suspend redemption of the remaining Participations of that Sub-fund subject of such Redemption Notices.

Redemption of such remaining Participations of the relevant Sub-fund may then be held over to be effected at the first following Redemption Date. Such redemption and suspension shall be for each Participant from which a Redemption Notice had been received, pro rata the aggregate Redemption Price per Participation held by such Participant.

If Redemption Notices are received for the following Redemption Date, from one or more Participants for an aggregate Redemption Price equal to 20% or more of the Net Asset Value of the relevant Sub-fund at such Redemption Date (including from redemptions so held over from a previous Redemption Date), the same procedure shall apply provided

that redemptions so held over from a previous Redemption Date shall be effected with priority over redemptions of Participations per Sub-fund from Redemption Notices received subsequently.

In the event redemption of any Sub-fund is suspended for a period of longer than nine (9) months after the Redemption Date of the original Redemption Notice, the Fund Manager may, at its sole discretion, resolve to dissolve the relevant Sub-fund.

8.4 Mandatory Redemption of Participations

The Fund Manager and the relevant Legal Owner shall under certain extraordinary circumstances as set forth in the Terms and Conditions and with due regard to the general provisions and conditions relating to redemption of Participations be entitled to redeem all (but not part of) the Participations of any Participant.

In the case the Administrator has not received all the requested KYC Requirements, even though the redemption request will be processed, redemption proceeds will be held in the name of the redeeming Participant at the Fund's bank account without any interest accruing in favour of the Participant and the Participant will bear all associated risks until such time as the Administrator receives the outstanding KYC Requirements.

9 COSTS AND EXPENSES

9.1 Introduction

In this Section all costs and expenses related to the organisation, advisors, management and transactions of the Fund and each Sub-fund which will be paid by or charged to the Fund or Sub-fund as the case may be, and accordingly result in a reduction of the Fund's Net Asset Value are described.

This Section does not refer to costs and fees charged to the Participants by the Fund upon a subscription for or redemption of Participations (for these costs and fees see Sections 7 and 8) or by their own service providers in connection with an envisaged investment in or divestment from the Fund (like fees and costs charged to a Participant by its advisors, banks or brokers).

All costs referred to in this Section will be allocated to the period to which they relate. Unless indicated otherwise, all costs will be brought at the charge of the Fund's profit and loss account.

All amounts and percentages mentioned in this Section 9 are exclusive of Dutch or foreign value added tax (VAT), if due. Under present legislation, the Fund cannot deduct VAT charged to the Fund.

9.2.1 *Transaction costs*

Transaction costs inter alia include all costs of sourcing, evaluating, making, holding or disposing of Fund Assets, including, but not limited to, finders' fees, brokerage fees, (other) transaction costs and expenses and interest on investment-related borrowings. The Fund Manager will select transactional service providers on the basis of various considerations, like quality, promptness of performance of services and fee rates. Fee rates may not exceed market standard rates. The total amount of transaction costs from time to time is variable and depends on the number and size of transactions and applicable rates.

Fund operational costs will be divided between the Sub-funds and inter alia include, but are not limited to all costs of legal, tax, administrative, accounting, audit, maintaining a bank account, reporting, legal ownership and similar services and advices provided to the Fund and all costs of communications with and meetings of the Participants and the regulatory costs related to the supervision by the AFM and DNB. All operational costs shall be borne by the Sub-fund to which they pertain and be brought at the charge of the relevant Sub-fund's profit and loss account. The regulatory costs related to the supervision by the AFM and DNB are estimated at EUR 10,000.- per annum and are charged to the Fund Assets. Regulatory costs are set periodically, are (therefore) subject to change and are expected to increase annually.

The AFM charges a fee for ongoing supervision (*doorlopend toezicht*). This may be a fixed amount, with the possible addition of a variable amount based on a charge criterion (the size of the assets under management). Each Sub-Fund shall bear 1/3rd of the fixed amount charged as well as its pro rata assets under management share of any variable rate charged to the Fund. In addition to the fees for ongoing supervision, the AFM charges fees for certain non-recurring activities (*eenmalige verrichtingen*). 10 VALUATION, REPORTING AND INFORMATION DISCLOSURE

10.1 Valuation Principles

The Fund Manager has delegated the calculation of the Net Asset Value for each Sub-fund to the Administrator, whereby the Net Asset Value shall be based on the value of the Fund Assets and Fund Obligations in accordance with Dutch GAAP and, where more specific, certain valuation methods set forth in the Terms and Conditions, whilst Dutch GAAP will prevail for financial reporting purposes should there be a conflict amongst them.

The Investee Funds Interests shall be valued on the basis of the latest available valuation of Investee Funds Interests provided by the administrators of the relevant Investee Funds, as further set forth in the Terms and Conditions. To ensure valuations received from administrators of the Investee Funds are appropriate, valuations are reviewed by the Fund Manager and the Administrator, based on the previous valuation received and other relevant information. Valuations that deviate materially from the previous valuation are further analysed and if needed discussed with the manager or administrator of the relevant Investee Fund.

During a book year of the Fund, the Net Asset Value per Participation may vary between the different Sub-funds, but will be the same for Participations within a Sub-fund. The Net Asset Value for a Participation of a Sub-fund shall be determined by dividing the Net Asset Value allocable to such Sub-fund by the number of Participations in such Sub-fund as per the determination date.

10.2 Reporting to Participants

10.2.1 *Financial year*

The financial year of the Fund shall begin on the first day of January and end on the thirty first day of December of the next calendar year. The first financial year of the Fund will begin on the Closing Date and will end on the thirty first day of December 2021.

10.2.2 *Reporting on Net Asset Value*

Subject to certain exception grounds set forth in the Terms and Conditions, the Fund Manager shall as per last calendar day of each month determine the Net Asset Value and the Net Asset Value per Participation. The Net Asset Value shall be expressed in EUR and be determined in accordance with the Fund's valuation principles referred to above.

The Fund Manager has delegated the determination of the Net Asset Value and the Net Asset Value per Participation to the Administrator. In determining the Net Asset Value of the Fund and the Net Asset Value per Participation, the Administrator will follow the valuation policies and procedures adopted by the Fund as set out above.

The Fund Manager may declare a suspension of the determination of the Net Asset Value and the Net Asset Value per Participation per Sub-fund:

- a) if one or more stock exchanges on which Fund Assets are listed (or on which securities which belong to the assets of a collective investment scheme in which the Fund is invested are listed directly or indirectly), are closed on other days than normal days of closure or if the transactions on these exchanges are suspended or subject to irregular restrictions;
- b) if the communication means or calculation facilities normally used to determine the Net Asset Value no longer function or if, for any other reason, the value of a Fund Asset or Fund Obligation, cannot be determined with the speed or accuracy desired by the Fund Manager;
- c) if there are factors relating to the political, economic, military or monetary situation that make it impossible for the Fund Manager to determine the Net Asset Value; or
- d) if a resolution to liquidate the Fund is passed; or
- e) if the management board of an Investee Fund suspends the determination of the net asset value of the relevant Investee Funds Interests, as applicable.

When the Fund Manager is unable to determine the Net Asset Value and the Net Asset Value per Participation, the Participants will be informed hereof.

In case of errors in the calculation of the Net Asset Value, the Fund Manager will as soon as possible prepare a report on the errors that were made and which correction will need to be made to the Net Asset Value. If a correction is required of more than 0.5% of the Net Asset Value, and a Participant incurred a loss by an allocation or redemption against the erroneously calculated Net Asset Value, the Fund will at the request of such Participant provide compensation (in cash or in Participations) for the relevant Participant for the actual loss incurred. The compensation will be paid out of the Fund Assets.

Within ten (10) Business Days following the calculation of the Net Asset Value a statement on the Net Asset Value of the Fund and each Sub-fund as per last Valuation Date shall be published on the Fund Manager's website in the latest NAV statement. Simultaneously the Participant will receive a correction notification in writing from the Fund Manager.

10.2.3 Annual and Semi-Annual Reporting

Within six (6) months after the end of each financial year of the Fund, Fund Manager shall, in accordance with the applicable legal requirements, prepare and publish the Fund's (including each Sub-fund's) annual accounts (consisting of at least a balance sheet, profit and loss account and explanatory notes), annual report and other information for such financial year. The annual accounts shall be drawn up in accordance with the applicable provisions of Title 9 of Book 2 of the Dutch Civil Code and published on the Fund Manager's website. The Fund Manager will provide the Participants upon request and free of charge with copies of the annual accounts and the annual report, notwithstanding their compliance with other publication requirements under applicable laws.

The Fund Manager shall, in accordance with the applicable legal requirements, prepare and publish the Fund's (including each Sub-fund's) semi-annual financial statements as soon as possible yet within three (3) months after the end of the first six (6) months of the financial year. The semi-annual financial statements shall be drawn up in accordance with the provisions of Title 9 of Book 2 of the Dutch Civil Code. The semi-annual financial statements shall not be audited. The semi-annual financial statements shall be published on the Fund Manager's website and are available for Participants free of charge at the offices of the Fund Manager.

10.2.4 Other Information

The license provided to the Fund Manager pursuant to article 2:65 FSA and the Terms and Conditions shall be available for inspection at the office of the Fund Manager. A copy of the Terms and Conditions shall be provided by the Fund Manager upon request free of charge and shall be published on the Fund Manager's website. A copy of the Fund Manager's license and the Depositary Agreement shall be provided by the Fund Manager upon request at cost price.

Information regarding the Fund Manager, the Legal Owners and the Depositary from the Trade Register of the Netherlands shall be provided by the Fund Manager upon request at cost price.

The Fund Manager shall prepare a monthly statement containing an explanation of: (i) the total value of the investments of the Fund; (ii) an overview of the composition of such investments; (iii) the number of outstanding Participations; and (iv) the most recently determined net asset value of the Participations, indicating when the determination of the net asset value took place and with a period of at least one week between the times of preparation, and shall publish such statement on its website for the benefit of the Participants. The statement shall be co-signed by the Custodian. The Fund Manager shall provide this statement to Participants upon request at cost price.

The *Key Information Document* or *KID* (*Essentiële-informatiedocument* or *EID*) with respect to each Sub-fund shall be available on the Fund Manager's website.

10.2.5 Information Regarding Investee Funds

The Fund Manager and/or the relevant Legal Owner, shall on behalf of the Fund in its capacity of the holder of the legal ownership of Investee Funds Interests, be entitled to receive and/or inspect documents which Investee Funds shall make available for the holders of interests in such Investee Funds. The Fund Manager may upon request and with the prior consent of the investment manager of the relevant Investee Fund provide certain information related to the Investee Funds to which 20% or more of the assets of the Fund are allocated to Participants at cost price.

10.3 Liquidity Risk

The Fund Manager employs an appropriate liquidity risk policy and has adopted procedures which enable it to monitor the liquidity risk of the Fund and to ensure that the liquidity profile of the investments of the Fund complies with their underlying obligations. In particular, the Fund Manager can restrict redemptions on certain conditions as set out in the Terms and Conditions.

As and when relevant, but at least on a monthly basis, the Fund Manager shall periodically disclose to the Participants by e-mail:

- a) the percentage of the Fund Assets which are subject to special arrangements arising from their illiquid nature;
- b) any new arrangements for managing the liquidity of the Fund; and
- c) the risk profile of the Fund and the risk management systems employed by the Fund Manager to manage those risks.

10.4 FATCA

The Fund will use reasonable efforts to satisfy any obligations imposed on it in order to avoid the imposition of this withholding tax (except with respect to the interest of “recalcitrant account holders” as described in §1.1471-5(g)(2) of the Foreign Account Tax Compliance Act). A fund’s ability to satisfy its obligations under an agreement with the IRS will depend on each participant of such fund providing the fund with any information, including information concerning the direct or indirect owners of such participant, that the fund determines is necessary to satisfy such obligations. Any such information provided to a fund will be shared either with the local tax authority or the IRS, depending on the Model of the Intergovernmental Agreement.

An investment fund that is classified as subject to FATCA requirements will be required to register with the IRS and obtain a Global Intermediary Identification Number “(GIIN) and agree to have policies and procedures in place to identify certain direct and indirect U.S. account holders or equity holders. For these purposes the Fund would fall within the definition of a FFI for the purpose of FATCA.

Each prospective Participant agrees by signing the Subscription Form to provide such information upon request from the Fund Manager or the Administrator. If a fund fails to satisfy such obligations or if a participant of a fund fails to provide the necessary information to such fund, as applicable, payments of U.S. source income and payments of proceeds will generally be subject to a 30 per cent withholding tax.

The Fund may exercise its right to completely redeem a participant that fails to provide the Fund or the Administrator with the requested information in order for the Fund to satisfy its FATCA obligations, and the Fund may take any other action deemed necessary in relation to a participant's shares or redemption proceeds to ensure that such withholding is eventually borne by the relevant participant whose failure to provide the necessary information gave rise to the

withholding tax. Each prospective Participant in the Fund should consult their own tax advisor regarding the requirements under FATCA with respect to their own situation.

The Fund will endeavour to satisfy the requirements imposed on the Fund by FATCA to avoid the imposition of FATCA withholding tax. However, there can be no guarantee or assurance that the Fund will comply with all the requirements imposed by FATCA. In the event that the Fund is not able to comply with the requirements imposed by FATCA and the Fund does suffer US withholding tax on its investments as a result of non-compliance, the Net Asset Value may be affected and the Fund may suffer loss as a result.

The Common Reporting Standard

By investing or continuing to invest in the Fund, Participants shall be deemed to acknowledge that:

- a) the Fund is considered to (i) be a reporting financial institution under the CRS and the Fund (or its agent) will be required to disclose to the competent tax authority of the Netherlands certain confidential information in relation to the Participant, including but not limited to the Participant's name, address, tax identification number (if any), social security number (if any) and certain information relating to the Participant's investment;
- b) the competent tax authority of the Netherlands will be required to automatically exchange information as outlined above with the Foreign Tax Authorities;
- c) the Fund (or its agent) will be required to disclose to the Foreign Tax Authorities certain confidential information when registering with such authorities and if such authorities contact the Fund (or its agent directly) with further enquiries;
- d) the Fund may require the Participant to provide additional information and/or documentation which the Fund will be required to disclose to the competent tax authority of the Netherlands;
- e) in the event a Participant does not provide the requested information and/or documentation, whether or not that actually leads to breach of the applicable laws and regulations by the Fund, a risk for the Fund or the Fund's Participants being subject to withholding tax or penalties under the relevant legislative or inter- governmental regimes, the Fund reserves the right to take any action and/or pursue all remedies at its disposal including, without limitation, compulsory redemption or withdrawal of the Participant concerned;
- f) no Participant affected by any such action or remedy shall have any claim against the Fund (or its agent, including the Administrator) for any form of damages or liability as a result of actions taken or remedies pursued by or on behalf of the Fund in order to comply with the CRS, any further inter-governmental agreements or any of the laws and regulations related to the CRS; and
- g) all information to be reported under CRS will be treated as confidential and such information shall not be disclosed to any persons other than the competent tax authority of the Netherlands and the Foreign Tax Authorities or as otherwise required by law.

Participants should ensure that their tax affairs are compliant with the laws and regulations applicable in their jurisdiction(s) of residence and/or citizenship (as applicable).

11 DISTRIBUTIONS

11.1 Distributions Policy

As the primary Fund Objective of the Fund is to achieve capital growth, frequent and regular distributions of Net Proceeds (including profit distributions) by the Fund are not intended nor anticipated. However, the Fund Manager may, at its sole discretion and at any time, decide to distribute any Net Proceeds. It is expected that the Fund Manager will especially do so if the Fund Manager is of the opinion that there are no sufficient suitable investment opportunities to achieve the Fund Objectives. All distributions (including profit distributions) to the Participants will be made pro rata to the number of Participations held by each Participant.

Any distribution (including profit distributions) to the Participants, including the amount, composition and manner of payment, shall be published on the Fund Manager's website.

Distributions relating to Annuity Investment Participations may only be made if they are in accordance with the Annuity Investment Conditions.

11.2 Form of Distributions

Distributions of Net Proceeds (including profit distributions) will be made in cash, in EUR provided that the Administrator has received all requested KYC Requirements.

12 DUTCH TAXATION ASPECTS

12.1 Introduction

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect.

The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a Participant, and does not purport to deal with the tax consequences applicable to all categories of Participants. The tax and other matters described in this Prospectus do not constitute, and should not be considered as, legal or tax advice to prospective Participants. Participants should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of the Participations.

12.2 Taxation of the Fund

The Fund qualifies as a transparent or “closed” fund for joint account Dutch tax purposes, since Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to article 15 (Redemption of Participations) of the Terms and Conditions (reference is made to article 17 (*No Transfer of Participations, No Encumbrance of Participations*) of the Terms and Conditions).

Consequently, pursuant to article 2(4) CITA the Fund does not qualify as a taxable entity. Tax is therefore levied on the results and revenue of the investment at the level of the Participants and not at the level of the Fund itself. This implies that for Dutch tax purposes the Fund’s results are directly allocated to the individual Participants in accordance with the size (and, if applicable, the duration) of their pro rata investment.

12.3 Withholding Taxes

Distributions by the Fund are not subject to Dutch dividend withholding tax as a consequence of its transparency for tax purposes. Due to its transparency, the Fund itself is not entitled to any credit or refund of Dutch dividend withholding tax or (non-reclaimable) foreign withholding taxes withheld on dividends and interest received, nor can the Fund claim any benefits under a tax treaty concluded by the Netherlands with other states.

The tax transparency of the Fund also implies that any dividend withholding tax and foreign withholding taxes withheld on its investments are allocated to the Participants, i.e., on a pro rata basis. In principle, such withholding taxes may be set off by the Participants, whereby the conditions that apply are the same as would be the case for a direct investment (pro rata) by the relevant Participant.

Several countries⁴ have confirmed that they will disregard a Dutch tax transparent mutual fund for withholding tax purposes.

⁴ including Australia, Austria, Belgium, Denmark, Ethiopia, Germany, Norway, South Africa, Switzerland, Taiwan, the United Kingdom and the United States.

13 POLICY REGARDING VOTING RIGHTS AND VOTING CONDUCT INVESTEE FUNDS

The Fund Manager shall on behalf of the Fund, in its capacity of the holder of Investee Funds, not attend the general meetings of shareholders/limited partners/members of the Investee Funds and any relevant sole class or category meetings and shall not exercise the voting rights attached to such Investee Funds Interests.

ASSURANCE REPORT OF THE INDEPENDENT AUDITOR (RE SECTION 115X, SUBSECTION 1, UNDER E, OF THE BGFO WFT)

To: the manager of Pandion fund

Our opinion

In accordance with Section 115x, subsection 1, under e, of the Besluit Gedragstoezicht financiële ondernemingen Wft (BGfo Wft, Decree on the Supervision of the Conduct of Financial Undertakings pursuant to the Act on Financial Supervision), we have examined the prospectus of Pandion fund at 's-Gravenhage.

In our opinion the prospectus dated 5 December 2024 of Pandion fund contains, in all material respects, at least the information required by or pursuant to the Wet op het financieel toezicht (Wft, Act on Financial Supervision) for a prospectus of an alternative investment fund.

Basis for our opinion

We performed our examination in accordance with Dutch law, including Dutch Standard 3000A 'Assurance-opdrachten anders dan opdrachten tot controle of beoordeling van historische financiële informatie (attest-opdrachten) (assurance engagements other than audits or reviews of historical financial information (attestation engagements)). This engagement is aimed to obtain reasonable assurance. Our responsibilities in this regard are further described in the 'Our responsibilities for the examination of the prospectus' section of our report.

We are independent of Pandion fund in accordance with the 'Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten' (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence requirements in The Netherlands. Furthermore we have complied with the 'Verordening gedrags- en beroepsregels accountants' (VGBA, Dutch Code of Ethics).

We believe that the assurance evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relevant matters relating to the scope of our examination

Our examination consists of determining whether the prospectus contains the required information, which means we did not examine the accuracy of the information included in the prospectus.

Section 115x, subsection 1 under c of the BGfo Wft requires that the prospectus of an alternative investment fund contains the information which investors need in order to form an opinion on the alternative investment fund and the costs and risks attached to it. Based on our knowledge and understanding, acquired through our examination of the prospectus or otherwise, we have considered whether material information is omitted from the prospectus. We did not perform additional assurance procedures with respect to Section 115x, subsection 1, under c, of the BGfo Wft.

Our opinion is not modified in respect of these matters.

Responsibilities of the management for the prospectus

The management is responsible for the preparation of the prospectus that contains at least the information required by or pursuant to the Wft for a prospectus of an alternative investment fund.

Furthermore, the management is responsible for such internal control as it determines is necessary to enable the preparation of the prospectus that is free from material omission, whether due to fraud or error.

Our responsibilities for the examination of the prospectus

Our responsibility is to plan and perform our examination in a manner that allows us to obtain sufficient and appropriate assurance evidence for our opinion.

Our examination has been performed with a high, but not absolute, level of assurance, which means we may not detect all material omissions in the prospectus due to error and fraud.

We apply the ‘Nadere voorschriften kwaliteitssystemen’ (NVKS, regulations for quality management systems) and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our examination included among others:

- identifying and assessing the risks of material omissions of information required by or pursuant to the Wft in the prospectus, whether due to errors or fraud, designing and performing assurance procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material omission resulting from fraud is higher than for one resulting from errors, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- obtaining an understanding of internal control relevant to the examination in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the alternative investment fund.

1 DEFINITIONS

- 1.1 In these Terms and Conditions, except where terms are expressly defined herein, capitalized terms shall have the same meaning given to them in the Prospectus of the Pandion Fund.
- 1.2 Reference in these Terms and Conditions to an Article refer to an article of these Terms and Conditions.
- 1.3 Reference in these Terms and Conditions to any law, statute or statutory instrument or governmental regulation shall be deemed to include any modification, amendment, extension or re-enactment thereof.
- 1.4 References in these Terms and Conditions to "persons" are references to companies, corporations, unincorporated associations, partnerships, all other (corporate) entities (*rechtspersonen*) as well as individuals and natural persons (*natuurlijke personen*).
- 1.5 In these Terms and Conditions the masculine shall include the feminine and the neuter and the singular shall include the plural and vice versa as the context shall admit or require.
- 1.6 In these Terms and Conditions the headings used are for ease of reference only and shall not be deemed to form any part of these Terms and Conditions.

2 NAME, LEGAL FORM, TAX AND REGULATORY STATUS

- 2.1 The name of the Fund is: Pandion Fund.
- 2.2 The Fund is a fund for joint account (*fonds voor gemene rekening*) organised and existing under the laws of the Netherlands. The Fund has an umbrella structure meaning that the Fund will issue separate series of Participations for each Sub-fund of which Sub-funds the assets are separately administered and each Sub-fund having its own Investment Objective and respective Strategy and cost structure as set out in the Prospectus.
- 2.3 The Fund (of which each Sub-fund forms part) is an investment fund (*beleggingsfonds*) as referred to in article 1:1 of the FSA. The Fund Manager is in possession of an AFM license as referred to in article 2:65(a) FSA, and as a consequence may offer the Participations to professional and non-professional investors within the Netherlands. The Fund Manager is subject to conduct of business and prudential supervision by the AFM and DNB.
- 2.4 The Fund is under Dutch law not a legal entity nor a partnership, commercial partnership or limited partnership (*maatschap, vennootschap onder firma or commanditaire vennootschap*), but a contractual arrangement sui generis between the Fund Manager, the Legal Owners and each of the Participants separately, governing the assets and liabilities acquired or assumed by the Fund Manager or the Legal Owners for the account and risk of the Participants.

- 2.5 These Terms and Conditions form part of the contractual relationship existing between the Fund Manager, the Legal Owners and each Participant (separately) originating from the execution of the Participant's Subscription Form.
- 2.6 These Terms and Conditions do not form an agreement between any or all Participants among themselves and are not (otherwise) aimed at any cooperation among or between any or all Participants and no provision of these Terms and Conditions shall constitute or be interpreted as constituting any right or obligation existing between any or all Participants vis-à-vis each other or as a cooperation agreement (*samenwerkingsovereenkomst*) between the Fund Manager, the Legal Owners and any of the Participants.
- 2.7 A Participant's obligation to pay a consideration for Participations is a commitment (*verbintenis*) to the relevant Legal Owner (represented by the Fund Manager) only. This commitment is no contribution (*inbreng*) or commitment to make contribution to any partnership.
- 2.8 The Fund qualifies as a transparent or "closed" fund for joint account Dutch tax purposes, since Participations cannot be transferred (whether through a sale, donation, exchange, assignment or otherwise) by a Participant other than by way of redemption by the Fund pursuant to Article 15 (*Redemption of Participations*) (reference is made to Article 17 (*No Transfer of Participations, No Encumbrance of Participations*)). Tax is therefore levied on the results and revenue of the investment at the level of the Participants and not at the level of the Fund itself. This implies that for Dutch tax purposes the Fund's results are directly allocated to the individual Participants in accordance with the size (and, if applicable, the duration) of their pro rata investment.

3 TERM

The Fund is formed for an indefinite period of time but shall terminate upon the occurrence of any of the events set forth in Article 24.1.

it being understood that no resignation of such Legal Owner shall be effective before the appointment of a successor legal owner, whether or not on a temporary basis, in accordance with the provisions of Article 10.2 has become effective.

The Participants shall not be liable for the Fund Manager's obligations, the (relevant) Legal Owners' obligations or the Fund Obligations.

12 MEETINGS OF PARTICIPANTS, RESOLUTIONS OF PARTICIPANTS

SCHEDULE 3

ANTI-MONEY LAUNDERING OBLIGATIONS OF THE FUND

Pursuant to the Dutch Act on the Prevention of Money Laundering and Terrorism Financing is concerned (*Wet ter voorkoming van witwassen en financieren van terrorisme*, the "**Wwft**"), a "client investigation" (*cliëntenonderzoek*) needs to be conducted by the Fund Manager with respect to each applicant Participant prior to their entering into the Fund.

In general terms, the purpose of the "regular" Wwft client investigation is to:

- (i) establish and lay down the purpose and the nature of the envisaged business relationship, which must be documented, and subsequently (to the extent possible) "monitor" the consistency of the information so laid down with the actual (increased) knowledge the Fund Manager has of the Participant. When doing so, the Fund Manager may take into account the actual profile type of the client;
- (ii) establish the identity of the applicant Participant and verify the identity so obtained on the basis of "reliable sources"; in addition, if the applicant investor is a trustee, establish the identity of the settlors of the trust; the documentation on the basis of which the identification and verification has occurred must be retained;
- (iii) (if applicable) establish and verify the identity of any ultimate beneficiary owner of the applicant Participant, being:
 - a) natural person holding a 25% or more participating interest in the Participant or 25% or more of the voting rights in the Participant, or who is otherwise factually able to exercise a decisive influence in the Participant; or
 - b) in the event that the Participant would consist of a trust or foundation, a person being, either directly or indirectly, the beneficiary of 25% or more of such trust or foundation's assets or having direct or indirect control over 25% or more of such assets;

The Fund Manager may, if situations warrant that, always decide to lower this percentage.

- (iv) if the applicant Participant has an ultimate beneficiary owner as described under (iii), to establish and verify such ultimate beneficiary owner's identity.

In certain cases, a "simplified" client investigation suffices (e.g. for applicant that are listed companies, credit institution, financial service providers, collective investment schemes, investment firms, insurance undertakings based in the Netherlands, the European Union, Argentina, Australia, Brazil and several other countries). It is sufficient to establish and lay down the purpose and the nature of the envisaged business relationship and to retain a reliable document evidencing that the relevant applicant Participant falls under one of the categories for which a "simplified" client investigation applies.

In other cases (e.g. increased risk of money laundering or terrorism financing, applicant is a “Politically Exposed Person”, client is a natural person that is not present for identification purposes), an “extended” client investigation must be performed. In that case, extensive verification and monitoring requirements apply.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the Fund takes into account some Principal Adverse Impacts (PAIs) on sustainability factors. The Fund's selection process includes *a number* of PAI indicators as an integral part of the process with the aim of minimizing adverse impacts. The assessment takes into account the direct and the indirect effects of an investment. In relation to the shares, the relevant SFDR PAI indicators for this this Fund have been identified and are periodically reviewed to determine adverse effects on sustainability factors. If the data for this selection of PAI indicators are missing, the Fund Manager will conduct additional research.

What investment strategy does this financial product follow?

The Fund invests in a concentrated portfolio of approximately forty (40) stocks from North America and Europe.

The stocks are selected from a universe of more than 1,000 companies based on quantitative investment factors such as valuation, low volatility, momentum and quality. In addition, competitiveness and sustainability are assessed. Companies preferably have a sustainable competitive advantage and are in the process of strengthening that position.

Shares are purchased for the long term and the Fund Manager supplements the strategy by periodically Writing Call Options. In doing so, the Fund amasses additional premium resulting in a better risk/reward ratio. The upside potential of the stocks in the portfolio is capped by the written Call options.

The Fund promotes ecological and social characteristics, as defined in article 8 SFDR.

Selection process

The investment selection decision-making process always considers environmental, social and governance factors for each stock by applying:

- O Exclusions;
 - O Minimum ESG score of the investments;
 - O Screening investments against international standards;
 - O Selecting investments with lower pollution values;
 - O Selecting investments that can contribute to an environmental or social objective;

The investment strategy guides investment decisions based on factors such as investment objectives and risk

Exclusions

The Fund maintains the following exclusions, companies involved in:

- O Extraction of fossil energy
- O Weapons
- O Pornography
- O Furs and special leathers
- O Aviation

Before an investment is included in the portfolios, it is assessed whether the company is not involved in the above sectors.

In addition to the above, at least bi-annually it is assessed whether a company meets the conditions below:

Minimum ESG score

All investments are required to have a minimum ESG score of 45. The ESG score stands for "Environmental, Social and Governance". This score reflects environmental, social and good and governance requirements. The score can vary between 0 and 100. Before including an investment in the portfolio, the Fund Manager assesses the ESG score of the investments based on information from an external data provider. The Fund Manager periodically monitors the score of the companies included in the portfolio. If the ESG score of a company falls below 45, the position is closed as soon as possible.

Screening international standards

When selecting investments, the Fund takes into account requirements on good governance by assessing, before an investment is made, the extent to which companies act in accordance with relevant legislation and internationally recognized standards, including:

- O The OECD Guidelines for Multinational Enterprises
- O The UN Guiding Principles on Business; and
- O Human Rights and UN Global Compact.

To this end, the Fund Manager reviews the SFDR report of its external data provider in which negative publications/controversies per company are listed. Each controversy will be investigated individually, and follow-up measures will be taken if necessary. It is an ongoing process performed at least bi-annually and as such it forms part of the Fund managers monitoring program of Pandion Fund (PWF).

Lower pollution values (best in class)

The Fund aims for lower pollution values than those of the benchmark (iShares MSCI World index ETF) in terms of:

- CO2 emissions
- Water use
- Energy use
- Waste generation

These values for these parameters are obtained from external data provider and, if necessary, supplemented with data from the (sustainable) annual report of the companies concerned. This is monitored on an ongoing basis.

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The fund uses the following binding elements:

1. Exclusion of companies active in:
 - Fossil energy extraction (0%)
 - Weapons (0%)
 - Pornography (0%)

2. Minimum ESG score of 45 based on external data provider
3. Companies must act in accordance with the following international standards:

6. Energy Intensity

Average weighted energy intensity lower than the Benchmark (iShares MSCI World index ETF)

What is the policy to assess good governance practices of the investee companies?

practices include

transitional activities are activities for which

low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best practice, expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

Companies identified by external data providers as violating or otherwise failing to comply with the principles of the United Nations Global Compact (UNGC), the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights are identified and further investigated.

After reviewing this external data, companies that show persistent and serious violations and/or fail to have good governance practices in place, and demonstrate insufficient initiative to remediate these insufficiencies, are excluded from the Fund. The Fund's policy is to review the entire portfolio on a monthly basis. Manager will strive to divest as soon as possible in an orderly manner and in the best interests of the Fund participants in the event of lack of good governance practices.
