

Joy Chmelar

Executive Assistant

Joy Chmelar has spent more than a decade making sure that what happens between a Senior Advisor and a client happens without friction. As the primary operational partner to Senior Advisor Lee Bason, Joy oversees and coordinates all aspects of his client engagements — from first contact through final delivery — across industries including manufacturing, financial services, energy, defense, health sciences, and hospitality.

Joy interacts regularly with C-suite leaders, organizational team leaders, and their direct reports, providing the management and logistical support that allows the behavioral assessment process to run smoothly and on time. Her attention to detail and ability to anticipate client needs before they become issues are what Senior Advisors and clients alike count on.

Before Teamalytics, Joy co-founded a retail development company with locations in Colorado Springs and Denver, and has held roles in massage therapy and accounting administration — giving her an operator's instinct for service that shows in every engagement she supports.

Joy and her husband, Chad, live in College Station, Texas.
