POLICY UPDATE: 2025

OCTOBER 2025: LEGISLATIVE UPDATE—PART II

POLICYALERT 2025 Legislative Update Series Part II includes additional statutory revisions to policies from the 2025 Legislative Session. Various changes and updates have expanded anti-discrimination protections in employment and education, allowed for new mandates for special education classroom monitoring, updated corporal punishment definitions, and enhanced employee rights and disciplinary protections. Each change has been carefully reviewed and incorporated into the relevant policies accordingly.

2025 LOUISIANA LEGISLATIVE CHANGES

Equal Opportunity Employment Equal Education Opportunity

Act 100, effective August 1, 2025, added “military status” to the list of prohibited discriminations found in La. Rev. Stat. Ann. §17:111 and §23:332. *Equal Opportunity Employment* and *Equal Education Opportunity* policies have been updated accordingly.

Education of Students with Exceptionalities Cameras in Special Education Classrooms Corporal Punishment

Act 479, revised La. Rev. Stat. Ann. §17:416.21, regarding seclusion and restraint procedures, and §17:1948 addressing cameras in special education classrooms.

The changes to policy *Education of Students with Exceptionalities* only include some provisions of the Act

which are appropriate for policy, such as changes to definitions. Much of the Act includes specific procedures which need to be reviewed by School Board staff in order to revise any procedures for the use of seclusion and restraint as provided in the Act. The provisions become effective December 1, 2025.

The Act also removes the provision that cameras “shall only” be installed upon request of parents. New statutory language provides that cameras shall be installed in every special education classroom. The *Cameras in Special Education Classrooms* policy has been updated to remove language regarding parental requests. It also requires that should a camera be out of operation for more than two (2) consecutive days, the school shall provide notice to parents of students in the affected classrooms via normal school communication channels. This portion of the Act becomes effective February 1, 2026.

Act 479 also revises the Louisiana law as it relates to seclusion and restraint for student with exceptionalities. In revising La. Rev. Stat. Ann. §17:416.1, the Act adds the word “physical” to “restraint” in the section regarding what corporal punishment does not include. This change has only been incorporated for the School Boards that have a *Corporal Punishment* policy in effect. The provisions become effective December 1, 2025.

Discipline

Act 439, revising La. Rev. Stat. Ann. §17:416, became effective June 20, 2025. In 2024, statutory language was added to prevent principals from deterring teachers or punishing teachers for using disciplinary measures as provided in School Board policy. Act 439 has expanded this protection to all school employees as well.

The Act also enacted §17:416.18, creating the School Employee Bill of Rights, a copy of which School Boards are required to provide school employees at the beginning of the school year.

UPCOMING LEGISLATIVE CHANGES

As part of our ongoing policy review, our team is actively working on the final grouping of 2025 Louisiana Legislative Updates relative to several acts including, but not limited to, Acts 89, 161, 180, 181, 301, 409, 425 and 469.

Additionally, we are aware of a recent Executive Order from the Governor regarding artificial intelligence and are currently reviewing to determine its potential impact on policy.

We are finalizing the last group of updates and appreciate your continued patience and engagement during this time. As we navigate our business ownership transition and implement significant technology upgrades, our focus remains on enhancing your experience and service. Thank you for your continued support.

CORPORAL PUNISHMENT

Every teacher is authorized to hold every pupil to a strict accountability for any disorderly conduct in school or on the playground of the school, or on any school bus going to or returning from school, or during intermission or recess.

The Morehouse Parish School Board shall allow reasonable corporal punishment of unruly pupils. If such punishment is required, it shall be administered with extreme care, tact and caution, and then only by the principal, assistant principal, or the principal's designated representative in the presence of another adult school employee. At no time shall corporal punishment be administered in the presence of another student. All school personnel and parents shall be fully informed of these provisions at the beginning of each school year.

The use of any form of corporal punishment is prohibited in any public school unless the student's parent or legal guardian provides written consent for the use of corporal punishment in a document created by the state Department of Education solely for such purpose. Such consent applies only to the school year in which it is given.

No form of corporal punishment shall be administered to a student with an exceptionality as defined in La. Rev. Stat. Ann. §17:1942 or to a student who has been determined to be eligible for services under *Section 504 of the Rehabilitation Act of 1973* and has an *Individual Accommodation Plan*. However, the parent or legal guardian of a student who is gifted and talented and has no other exceptionality may authorize the use of corporal punishment as otherwise provided by this policy.

Corporal punishment means using physical force to discipline a student, with or without an object. Corporal punishment includes hitting, paddling, striking, spanking, slapping, or any other physical force that causes pain or physical discomfort. Taping a student's mouth shut or otherwise restricting his or her airway in any manner is prohibited regardless of parental consent.

Corporal punishment does not include:

1. The use of reasonable and necessary physical restraint of a student to protect the student, or others, from bodily harm or to obtain possession of a weapon or other dangerous object from a student.
2. The use of seclusion and [physical](#) restraint as provided in La. Rev. Stat. Ann. §17:416.21.

The following guidelines shall apply to any use of corporal punishment:

1. Except for those acts of misconduct which are extremely anti-social or disruptive in nature, corporal punishment should never be used unless the student is informed

beforehand that specific misbehavior could occasion its use; and, subject to this exception, it should never be used as a first line of punishment. Its use should follow specific failures of other corrective measures to effect student behavior modification. Corporal punishment shall be used only as a last resort for students with significant behavior problems and only within the guidelines provided.

2. The principal or the designee shall punish corporally only in the presence of a second school employee, who should be informed beforehand of the reasons for the punishment. Such punishment shall be administered in the office of the principal or such places as may be designated by the principal.
3. In cases where a student protests innocence of the offense or ignorance of the rule, a brief but adequate opportunity shall be provided for the student to explain his/her side of the situation.
4. School principals, assistant principals or appropriate designees who have administered corporal punishment shall provide the child's parents or legal guardians, upon request, a written explanation of the reasons and the name of the school employee who was present as a witness. In any case, a *School Behavior Report Form* shall be completed for each incident of corporal punishment, including name of student, time, date and details of violation, the form of discipline administered, the names of the person administering the punishment and the witness, each of whom shall sign the documentation upon completion. The report form shall be maintained in the administrative offices of the school.
5. The use of corporal punishment shall at all times be reasonable and proper. Considerations in this regard shall include but not be limited to the following:
 - A. Age of child;
 - B. Size of child;
 - C. Sex of child;
 - D. Ability to bear the punishment; and
 - E. Overall physical condition of the child.
6. Corporal punishment shall not be administered in anger or with malice at any time.
7. Corporal punishment shall be administered by the use of an appropriately sized paddle on the *buttocks only*.

Nothing contained herein shall be interpreted as prohibiting an employee from using physical force, reasonable and appropriate under the circumstances, in defending himself/herself against a physical attack by a student or to restrain a student from attacking another student or employee, or to prevent acts of misconduct which are so anti-social or disruptive in nature as to shock the conscience.

IMPERMISSIBLE CORPORAL PUNISHMENT

Corporal punishment administered other than as outlined hereinabove shall be deemed and defined to be *impermissible corporal punishment*. Any accusations involving employees using impermissible corporal punishment shall be promptly investigated, in accordance with provisions of policy *GAMC, Investigations*.

EDUCATION OF STUDENTS WITH EXCEPTIONALITIES

The Morehouse Parish School Board shall make available a free appropriate public education in the least restrictive educational environment to each student with an exceptionality, ages three through twenty-one, who is a resident of the geographical boundaries of the school district. Special education and related services may be provided by the School Board to eligible children with exceptionalities under three years of age. Generally, identified children shall be screened and evaluated to determine eligibility to receive special education and related services. If it is determined through the evaluation process that a child has a disability and, by reason thereof, needs special education and related services, then the child is classified in accordance with Louisiana's *Pupil Appraisal Handbook*, Bulletin 1508, and becomes eligible to receive special education services. All special education services shall be provided to eligible students with exceptionalities in accordance with the regulations outlined in *Regulations for the Implementation of the Exceptional Children's Act*, Bulletin 1706 and all other applicable federal and state regulations.

The School Board shall establish and maintain policies and procedures in accordance with federal and state laws and regulations to ensure that students with exceptionalities and their parents are provided the necessary procedural safeguards with respect to the provision of free appropriate public education by the School Board.

NOTIFICATION OF INDIVIDUAL RIGHTS

Each school shall provide parents, legal guardians, or tutors of students with exceptionalities written information regarding legal procedures affecting the transfer of individual rights from parent, legal guardian, or tutor to child when the child attains the age of majority, including but not limited to supported decision making, power of attorney, continuing or permanent tutorship, and limited and full interdiction. The document shall inform parents, legal guardians, or tutors and how each option relates to such transfer of rights.

At the child's first Individualized Education Program (IEP) meeting of the school year, the document shall be provided to a parent, legal guardian, or tutor of each child who is fourteen, fifteen, sixteen, or seventeen years old who participates in alternate assessment pursuant to La. Rev. Stat. Ann. §17:24.4(F)(3) or an alternate pathway to promotion pursuant to La. Rev. Stat. Ann. §17:24.4(H). Parents, legal guardians, or tutors shall be provided a form by which to confirm receipt of the information.

SECLUSION AND RESTRAINT

The School Board recognizes that, in order for students to receive a free appropriate public education, a safe learning environment needs to be provided. In doing so, the

School Board also recognizes that there are circumstances in school under which reasonable and appropriate measures and techniques will need to be employed in dealing with students with exceptionalities who pose an imminent risk of harm to self or others.

The School Board fully supports the use of positive behavior interventions and support when addressing student behavior. The School Board reserves its right, however, to use physical restraint and/or seclusion consistent with state law to address the behavior of a student with an exceptionality when school personnel reasonably believe the behavior poses an imminent risk of harm to the student or others. The School Board shall not preclude the use of physical restraint and/or seclusion performed consistent with the requirements of a student's *Individualized Education Program* (IEP) or behavior intervention/management plan.

The provisions regarding seclusion and restraint shall not be applicable to a student who has been deemed to be gifted or talented under Bulletin 1508, unless the student has been identified as also having a disability under Bulletin 1508.

Definitions

Crisis intervention means the implementation of an action plan for school personnel to implement when a student exhibits disruptive behaviors that prevent him from participating in classroom or daily activities. Crisis intervention may include the following:

The use of positive behavioral supports and sensory rooms or other calming spaces intentionally designed to help comfort and stabilize a student so that he may return to the classroom or daily activities.

In extraordinary circumstances, the use of seclusion and physical restraint as a means to safely de-escalate a situation in which a student poses a risk of imminent risk of harm to self or others.

Information about a school's use of crisis intervention, including the proper use of seclusion and physical restraint, shall be included in a school's student handbook and made available to the parent and legal guardian of each student with an *Individualized Education Program* or *Behavioral Intervention Plan*.

Imminent risk of harm shall mean an immediate and impending threat of a person causing substantial physical injury to self or others.

Seclusion shall mean a procedure that isolates and confines a student in a designated separate room or area until he or she is no longer an ~~immediate danger~~ imminent risk of harm to self or others. Seclusion shall be used only as a last resort when de-escalation and other positive behavioral support attempts have failed and the student continues to pose an imminent risk of harm to self or others. Seclusion shall not be used as a routine school safety, discipline, or intervention measure or to address behaviors such as general

non-compliance, self-stimulation, academic refusal, and other behaviors that, while disruptive to a classroom setting or other daily school activities, do not present an imminent risk of harm to self or others. School employees shall respond to such behaviors with less strenuous and less restrictive techniques, such as those included in a school's or student's crisis intervention plan or a student's Individualized Education Program or Behavioral Intervention Plan.

Seclusion room means a room or other confined area, used on an individual basis, in which a student is removed from the regular classroom setting for a limited time to allow the student the opportunity to regain control in a ~~private~~ safe, secure and supervised setting and from which the student is involuntarily prevented from leaving until he/she is no longer at risk of imminent harm to self or others. A seclusion room shall:

- Be free of any object that poses a danger to the student placed in the room.
- Have an observation window and be of a size that is appropriate for the student's size, behavior, and chronological and developmental age.
- Have a ceiling height and heating, cooling, ventilation, and lighting systems comparable to operating classrooms in the school.

Sensory room means a room or space that is used for the monitored separation of a student in an unlocked setting in which school personnel may use positive behavioral interventions and support to help to calm or stabilize a student's disruptive behavior. A sensory room may also be referred to as a "calming room", "calming space", "comfort room", "comfort space", "sensory space", "timeout room", or "timeout space". The appropriate use of sensory rooms shall not be considered seclusion, which shall only be used for the limited purpose of responding to a student posing an imminent risk of harm to self or others.

Mechanical restraint means the application of any device or object used to limit a person's movement. Mechanical restraint does *not* include:

1. A protective or stabilizing device used in strict accordance with the manufacturer's instructions for proper use and which is used in compliance with orders issued by an appropriately licensed health care provider; and
2. Any device used by a duly licensed law enforcement officer in the execution of his/her official duties.

Physical restraint means ~~bodily force used to limit a person's movement~~ the use of manual restraint techniques that involve physical force applied to restrict the movement of all or part of a person's body. Physical restraint does *not* include:

1. Consensual, solicited, or unintentional contact.

2. Momentary blocking of a student's action if the student's action is likely to result in harm to the student or other person.
3. A school employee holding a student for less than three consecutive minutes within any given hour for the protection of the student or others.
4. ~~Holding of a student, by one~~ A school employee holding a student for the purpose of calming or comforting the student, provided the student's freedom of movement or normal access to his or her body is not restricted.
5. Minimal physical contact for the purpose of safely escorting a student from one area to another.
6. Minimal physical contact for the purpose of assisting the student in completing a task or response.

Positive ~~behavior~~ behavioral interventions and support means a systematic approach to embed evidence-based practices and data-driven decision making when addressing student behavior in order to improve school climate and culture.

School Employee means a teacher, paraprofessional, administrator, support staff member, or a provider of related services.

School health designee means a school employee designated to assess the use of seclusion and physical restraint in the event that a school nurse is not present on a school campus at the time such measure is used.

Written guidelines and procedures means the written guidelines and procedures adopted by the School Board regarding appropriate responses to student behavior which may require intervention.

Documentation and Notification

Each principal or his/her designee shall notify each parent or legal guardian of a student enrolled at the school with an Individualized Education Program of the prohibition of the use of seclusion and physical restraint if the student has a condition who is known to have any medical or psychological condition that precludes such action, as certified by a pediatrician, neurologist, or mental health provided in a written statement provided to the school in which the student is enrolled. Such notification shall be made annually and be incorporated into the student's Individualized Education Program meeting.

The parent or other legal guardian of a student who has been placed in seclusion or physically restrained shall be notified ~~as soon as possible~~ by phone as soon as practicable but no later than the end of the same school day. The student's parent or other legal

guardian shall also be notified in writing, ~~within twenty-four (24) hours~~ as outlined below, of each incident of seclusion or physical restraint. ~~Such notice shall include the reason for such seclusion or physical restraint, the procedures used, the length of time of the student's seclusion or physical restraint, and the names and titles of any school employee involved.~~ The director or supervisor of special education shall be notified any time a student is placed in seclusion or is physically restrained.

~~A school employee who has placed a student in seclusion or who has physically restrained a student shall document and report each incident. Such report shall be submitted to the school principal not later than the next school day immediately following the day on which the student was placed in seclusion or physically restrained and a copy shall be provided to the student's parent or legal guardian.~~

A school employee who secluded or physically restrained a student shall document and report the incident in accordance with School Board policies. The employee shall submit such report to the school principal by the end of the next school day following the incident. The principal or his designee shall submit the report to the parent by the end of the next school day following receipt of the report. At a minimum, the incident report shall include the following:

1. The name, age, grade, gender, race, and disability of the student secluded or restrained.
2. The date, time, location, and duration of the seclusion or physical restraint.
3. The name and title of each school employee involved and who was a witness.
4. A description of the events requiring the use of seclusion or physical restraint, including a description of the procedures and types of restraint used, any actions taken in an attempt to de-escalate the situation, and the student's behavior that suggest the student posed an imminent risk of harm to self or others.
5. A description of any student injuries, visible marks, or medical emergencies that occurred during or after the seclusion or physical restraint.
6. A description of the actions taken immediately following the student's release from seclusion or physical restraint, including actions to notify the student's parent or legal guardian.
7. A description of the student's actions immediately following the student's release from seclusion or restraint.

~~The guidelines and procedures regarding seclusion and restraint maintained by the Superintendent and staff shall be provided to the Louisiana Department of Education.~~

~~(LDE), all school employees, and every parent of a student identified with a disability under Bulletin 1508.~~

All instances where seclusion or physical restraint is used to address student behavior of students with disabilities under Bulletin 1508 shall be reported, in accordance with the Louisiana Board of Elementary and Secondary Education (BESE) policy, by the School Board to the [Louisiana Department of Education](#) (LDE).

Guidelines and Procedures

The School Board shall require the Superintendent and staff to maintain adequate written guidelines and procedures governing the use of seclusion and physical restraint of students in accordance with federal and state law, as well as regulations and guidelines promulgated by BESE. ~~The School Board shall approve written guidelines and procedures regarding appropriate responses to student behavior that may require immediate intervention using seclusion and/or restraint.~~ The written guidelines and procedures shall be provided to all school employees and every parent of a student with an exceptionality and shall include reporting requirements and follow-up procedures, including notification requirements for school officials, notification to the student's parent or legal guardian, and reporting of seclusion and restraint incidents to the LDE.

At the beginning of each school year, the written guidelines and procedures adopted by the School Board shall be posted at each school under the jurisdiction of the School Board, and on the School Board's website.

Follow Up

Following any situation resulting in the use of physical seclusion or restraint of a student, a *Functional Behavioral Assessment* (FBA) should be considered. If a student subject to the use of seclusion or physical restraint is involved in ~~five (5)~~ three (3) such incidents in the school year, the student's *Individualized Education Program* (IEP) team shall review and revise the student's Behavior Intervention Plan (BIP) including any crisis intervention plans, to include any appropriate and necessary behavioral supports. Thereafter, if the student's challenging behavior continues or escalates, requiring repeated use of seclusion or physical restraint ~~practices~~, the special education director or supervisor or his/her designee shall review the student's plans at least once every three (3) weeks.

Employee Training Requirements

The Superintendent or his/her designee shall be responsible for conducting or obtaining appropriate training programs for school personnel designed to address the use of seclusion and restraint techniques with students with disabilities. In addition, positive behavioral intervention strategies, crisis intervention, and de-escalation, as well as other procedures, may also be included in any training.

Charter Schools

Notwithstanding any state law, rule, or regulation to the contrary and except as may be otherwise specifically provided for in an approved charter, a charter school established and operated in accordance with State law, including its approved charter and the school's officers and employees, shall be subject to the School Board's policy and written procedures and guidelines regarding the use of seclusion and restraint with students with exceptionalities.

The School Board shall establish and maintain policies and procedures in accordance with federal and state laws and regulations to ensure that students with exceptionalities and their parents are provided the necessary procedural safeguards with respect to the provision of free appropriate public education by the School Board.

NOTIFICATION OF INDIVIDUAL RIGHTS

Each school shall provide parents, legal guardians, or tutors of students with exceptionalities written information regarding legal procedures affecting the transfer of individual rights from parent, legal guardian, or tutor to child when the child attains the age of majority, including but not limited to supported decision making, power of attorney, continuing or permanent tutorship, and limited and full interdiction. The document shall inform parents, legal guardians, or tutors and how each option relates to such transfer of rights.

At the child's first Individualized Education Program (IEP) meeting of the school year, the document shall be provided to a parent, legal guardian, or tutor of each child who is fourteen, fifteen, sixteen, or seventeen years old who participates in alternate assessment pursuant to La. Rev. Stat. Ann. §17:24.4(F)(3) or an alternate pathway to promotion pursuant to La. Rev. Stat. Ann. §17:24.4(H). Parents, legal guardians, or tutors shall be provided a form by which to confirm receipt of the information.

SECLUSION AND RESTRAINT

The School Board recognizes that, in order for students to receive a free appropriate public education, a safe learning environment needs to be provided. In doing so, the

School Board also recognizes that there are circumstances in school under which reasonable and appropriate measures and techniques will need to be employed in dealing with students with exceptionalities who pose an imminent risk of harm to self or others.

The School Board fully supports the use of positive behavior interventions and support when addressing student behavior. The School Board reserves its right, however, to use physical restraint and/or seclusion consistent with state law to address the behavior of a student with an exceptionality when school personnel reasonably believe the behavior poses an imminent risk of harm to the student or others. The School Board shall not preclude the use of physical restraint and/or seclusion performed consistent with the requirements of a student's *Individualized Education Program* (IEP) or behavior intervention/management plan.

The provisions regarding seclusion and restraint shall not be applicable to a student who has been deemed to be gifted or talented under Bulletin 1508, unless the student has been identified as also having a disability under Bulletin 1508.

Definitions

Crisis intervention means the implementation of an action plan for school personnel to implement when a student exhibits disruptive behaviors that prevent him from participating in classroom or daily activities. Crisis intervention may include the following:

The use of positive behavioral supports and sensory rooms or other calming spaces intentionally designed to help comfort and stabilize a student so that he may return to the classroom or daily activities.

In extraordinary circumstances, the use of seclusion and physical restraint as a means to safely de-escalate a situation in which a student poses a risk of imminent risk of harm to self or others.

Information about a school's use of crisis intervention, including the proper use of seclusion and physical restraint, shall be included in a school's student handbook and made available to the parent and legal guardian of each student with an *Individualized Education Program* or *Behavioral Intervention Plan*.

Imminent risk of harm shall mean an immediate and impending threat of a person causing substantial physical injury to self or others.

Seclusion shall mean a procedure that isolates and confines a student in a designated separate room or area until he or she is no longer an imminent risk of harm to self or others. Seclusion shall be used only as a last resort when de-escalation and other positive behavioral support attempts have failed and the student continues to pose an imminent risk of harm to self or others. Seclusion shall not be used as a routine school safety, discipline, or intervention measure or to address behaviors such as general

non-compliance, self-stimulation, academic refusal, and other behaviors that, while disruptive to a classroom setting or other daily school activities, do not present an imminent risk of harm to self or others. School employees shall respond to such behaviors with less strenuous and less restrictive techniques, such as those included in a school's or student's crisis intervention plan or a student's Individualized Education Program or Behavioral Intervention Plan.

Seclusion room means a room or other confined area, used on an individual basis, in which a student is removed from the regular classroom setting for a limited time to allow the student the opportunity to regain control in a safe, secure and supervised setting and from which the student is involuntarily prevented from leaving until he/she is no longer at risk of imminent harm to self or others. A seclusion room shall:

- Be free of any object that poses a danger to the student placed in the room.
- Have an observation window and be of a size that is appropriate for the student's size, behavior, and chronological and developmental age.
- Have a ceiling height and heating, cooling, ventilation, and lighting systems comparable to operating classrooms in the school.

Sensory room means a room or space that is used for the monitored separation of a student in an unlocked setting in which school personnel may use positive behavioral interventions and support to help to calm or stabilize a student's disruptive behavior. A sensory room may also be referred to as a "calming room", "calming space", "comfort room", "comfort space", "sensory space", "timeout room", or "timeout space". The appropriate use of sensory rooms shall not be considered seclusion, which shall only be used for the limited purpose of responding to a student posing an imminent risk of harm to self or others.

Mechanical restraint means the application of any device or object used to limit a person's movement. Mechanical restraint does *not* include:

1. A protective or stabilizing device used in strict accordance with the manufacturer's instructions for proper use and which is used in compliance with orders issued by an appropriately licensed health care provider; and
2. Any device used by a duly licensed law enforcement officer in the execution of his/her official duties.

Physical restraint means the use of manual restraint techniques that involve physical force applied to restrict the movement of all or part of a person's body. Physical restraint does *not* include:

1. Consensual, solicited, or unintentional contact.

2. Momentary blocking of a student's action if the student's action is likely to result in harm to the student or other person.
3. A school employee holding a student for less than three consecutive minutes within any given hour for the protection of the student or others.
4. A school employee holding a student for the purpose of calming or comforting the student, provided the student's freedom of movement or normal access to his or her body is not restricted.
5. Minimal physical contact for the purpose of safely escorting a student from one area to another.
6. Minimal physical contact for the purpose of assisting the student in completing a task or response.

Positive behavioral interventions and support means a systematic approach to embed evidence-based practices and data-driven decision making when addressing student behavior in order to improve school climate and culture.

School Employee means a teacher, paraprofessional, administrator, support staff member, or a provider of related services.

School health designee means a school employee designated to assess the use of seclusion and physical restraint in the event that a school nurse is not present on a school campus at the time such measure is used.

Written guidelines and procedures means the written guidelines and procedures adopted by the School Board regarding appropriate responses to student behavior which may require intervention.

Documentation and Notification

Each principal or his/her designee shall notify each parent or legal guardian of a student enrolled at the school with an Individualized Education Program of the prohibition of the use of seclusion and physical restraint if the student has a condition who is known to have any medical or psychological condition that precludes such action, as certified by a pediatrician, neurologist, or mental health provided in a written statement provided to the school in which the student is enrolled. Such notification shall be made annually and be incorporated into the student's Individualized Education Program meeting.

The parent or other legal guardian of a student who has been placed in seclusion or physically restrained shall be notified by phone as soon as practicable but no later than the end of the same school day. The student's parent or other legal guardian shall also

be notified in writing, as outlined below, of each incident of seclusion or physical restraint. The director or supervisor of special education shall be notified any time a student is placed in seclusion or is physically restrained.

A school employee who secluded or physically restrained a student shall document and report the incident in accordance with School Board policies. The employee shall submit such report to the school principal by the end of the next school day following the incident. The principal or his designee shall submit the report to the parent by the end of the next school day following receipt of the report. At a minimum, the incident report shall include the following:

1. The name, age, grade, gender, race, and disability of the student secluded or restrained.
2. The date, time, location, and duration of the seclusion or physical restraint.
3. The name and title of each school employee involved and who was a witness.
4. A description of the events requiring the use of seclusion or physical restraint, including a description of the procedures and types of restraint used, any actions taken in an attempt to de-escalate the situation, and the student's behavior that suggest the student posed an imminent risk of harm to self or others.
5. A description of any student injuries, visible marks, or medical emergencies that occurred during or after the seclusion or physical restraint.
6. A description of the actions taken immediately following the student's release from seclusion or physical restraint, including actions to notify the student's parent or legal guardian.
7. A description of the student's actions immediately following the student's release from seclusion or restraint.

All instances where seclusion or physical restraint is used to address student behavior of students with disabilities under Bulletin 1508 shall be reported, in accordance with the Louisiana Board of Elementary and Secondary Education (BESE) policy, by the School Board to the Louisiana Department of Education (LDE).

Guidelines and Procedures

The School Board shall require the Superintendent and staff to maintain adequate written guidelines and procedures governing the use of seclusion and physical restraint of students in accordance with federal and state law, as well as regulations and guidelines promulgated by BESE. The written guidelines and procedures shall be provided to all

school employees and every parent of a student with an exceptionality and shall include reporting requirements and follow-up procedures, including notification requirements for school officials, notification to the student's parent or legal guardian, and reporting of seclusion and restraint incidents to the LDE.

At the beginning of each school year, the written guidelines and procedures adopted by the School Board shall be posted at each school under the jurisdiction of the School Board, and on the School Board's website.

Follow Up

Following any situation resulting in the use of physical seclusion or restraint of a student, a *Functional Behavioral Assessment* (FBA) should be considered. If a student subject to the use of seclusion or physical restraint is involved in three (3) such incidents in the school year, the student's *Individualized Education Program* (IEP) team shall review and revise the student's Behavior Intervention Plan (BIP) including any crisis intervention plans, to include any appropriate and necessary behavioral supports. Thereafter, if the student's challenging behavior continues or escalates, requiring repeated use of seclusion or physical restraint, the special education director or supervisor or his/her designee shall review the student's plans at least once every three (3) weeks.

Employee Training Requirements

The Superintendent or his/her designee shall be responsible for conducting or obtaining appropriate training programs for school personnel designed to address the use of seclusion and restraint techniques with students with disabilities. In addition, positive behavioral intervention strategies, crisis intervention, and de-escalation, as well as other procedures, may also be included in any training.

Charter Schools

Notwithstanding any state law, rule, or regulation to the contrary and except as may be otherwise specifically provided for in an approved charter, a charter school established and operated in accordance with State law, including its approved charter and the school's officers and employees, shall be subject to the School Board's policy and written procedures and guidelines regarding the use of seclusion and restraint with students with exceptionalities.

Ct. 437 (1974); Regents of University of California v. Bakke, 98 S. Ct. (1978).

DISCIPLINE

It is the purpose of the Morehouse Parish School Board to operate the schools in a manner that will provide an orderly process of education and that will provide for the welfare and safety of all students who attend these schools. The school's primary goal is to educate, not discipline; however, when the behavior of the individual student comes in conflict with rights of others, corrective actions may be necessary both for the benefit of that individual and the school as a whole.

The Morehouse Parish School District shall endeavor to address student behavior with a focus on evidence-based interventions and supports, and to prioritize classroom- and school-based interventions in lieu of out-of-school disciplinary removals to address student misconduct in order to minimize the loss of academic instructional time. Every teacher and other school employee shall endeavor to hold each accountable for his/her behavior in school, or on the playgrounds of the school, on any school bus, on the street or while going to or returning from school, during intermission or recess, or at any school sponsored activity or function.

To assist the teacher, the School District shall establish regulations for the use of disciplinary measures within the schools and continually monitor and appraise their usefulness. Discipline shall be administered uniformly, consistently, and in a nondiscriminatory manner, in accordance with the School Board's/District's *Student Code of Conduct*.

Principals shall have both the authority and the duty to take disciplinary action whenever the behavior of any student(s) materially interferes with or substantially disrupts the maintenance of a proper atmosphere for learning within the classroom or other parts of the school. However, no student shall be disciplined in any manner by the School District or school administrator, teacher, or other school employee for the use of force upon another person when it can be reasonably concluded that the use of such force more probably than not was committed solely for the purpose of preventing a forcible offense against the student or a forcible offense provided that the force used shall be reasonable and apparently necessary to prevent such offense. A student who is the aggressor or who brings on a difficulty cannot claim the right stated above to defend himself/herself.

Each teacher and school employee may take disciplinary action to correct a student who violates school rules or who interferes with an orderly education process. No principal or administrator shall prohibit or discourage a teacher or school employee from taking disciplinary action, recommending disciplinary action, or completing a form to initiate disciplinary action against a student who violates school policy or who interferes with an orderly education process. No principal or administrator shall retaliate or take adverse employment action against a teacher or school employee for taking disciplinary action against a student if the disciplinary action that the teacher takes is in accordance with School Board policy.

Disciplinary action by a school employee may include, but is not limited to:

1. Oral or written reprimands.
2. Referral for a counseling session which shall include but shall not be limited to conflict resolution, social responsibility, family responsibility, peer mediation, and stress management.
3. Written notification of parents of disruptive or unacceptable behavior, a copy of which shall be provided to the principal.
4. Other disciplinary measures approved by the principal and faculty of the school and in compliance with School Board policy.

STUDENT REMOVAL FROM CLASSROOM

When a student's behavior prevents the orderly instruction of other students, poses an immediate threat to the safety of students or the teacher, or when a student violates the school's code of conduct the teacher shall have the student immediately removed from his/her classroom and placed in custody of the principal or his/her designee.

Any student removed from class in kindergarten through grade five shall not be permitted to return to class for at least thirty (30) minutes unless agreed to by the teacher initiating the disciplinary action. A student removed from class in grades six through twelve shall not be permitted to return to class during the same class period, unless agreed to by the teacher initiating the disciplinary action.

Whenever a teacher is struck by a student, the student, in addition to any other discipline given, shall be permanently removed from the teacher's classroom, unless the teacher objects, or unless the principal, with the concurrence of the building level committee, finds the striking incident to be entirely inadvertent.

Upon the student being removed from class and sent to the principal's office, the principal or designee shall advise the student of the particular misconduct of which he is accused as well as the basis for such accusation, and the student shall be given an opportunity at that time to explain his/her version of the facts. The principal or his/her designee then shall conduct a counseling session with the student as may be appropriate to establish a course of action, consistent with School Board policy to identify and correct the behavior for which the student is being disciplined.

Once removed, the student shall not be readmitted to the classroom until the principal has implemented at least one of the following disciplinary measures:

1. Conferencing with the principal or his/her designee.
2. Referral to counseling.

3. Peer mediation.
4. Referral to the school building level committee.
5. Restorative justice practices.
6. Loss of privileges
7. Detention
8. In-school suspension
9. Out-of-school suspension
10. Initiation of expulsion hearings
11. Referral for assignment to an alternative setting
12. Requiring the completion of all assigned school work and homework that would have been assigned and completed by the student during the period of out-of-school suspension.
13. Any other disciplinary measure authorized by the principal with the concurrence of the teacher or building level committee.

Parental Notification

The principal or his/her designee shall provide oral or written notification to the parent or legal guardian of any student removed from the classroom. Such notification shall include a description of any disciplinary action taken.

When a student has been removed from a classroom, the teacher or the principal or his/her designee may require the parent, or legal guardian of the student to have a conference with the teacher or the principal or his/her designee before the student is readmitted. Such conference may be in person or by telephone or other virtual means.

Upon the student's *third* removal from the same classroom, the teacher and principal shall discuss the disruptive behavior patterns of the student and the potentially appropriate disciplinary measure before the principal implements a disciplinary measure. In addition, a conference between the teacher or other appropriate school employee and the student's parent, or legal guardian is required prior to the student being readmitted to that same classroom. Such conference may be in person or by telephone or other virtual means. If such conference is required by the school, the school shall give written notice to the parent.

For students who experience multiple behavioral incidents or disciplinary referrals, a principal or his designee shall consider a referral of the matter to an appropriate school building level committee. If the disruptive behavior persists, the teacher may request that the principal transfer the student into another setting.

PARENT CONFERENCES

In any case where a teacher, principal, or other school employee is authorized to **require** the parent or legal guardian of a student to attend a conference or meeting regarding the student's behavior, and after notice, the parent or legal guardian willfully refuses to attend, the principal, or his/her designee, shall file a complaint, in accordance with statutory

provisions, with a court exercising juvenile jurisdiction. *Notice* of the conference, specifying the time and date of the conference, shall be given by contacting the parent or legal guardian by telephone at the telephone number shown on the student's registration card or by sending a certified letter to the address shown on the student's registration card.

REPORTS TO PRINCIPAL

Any teacher or other school employee may report to the principal any student who acts in a disorderly manner or is in violation of school rules, or any misconduct or violation of school rules by a student who may or may not be known to the teacher or employee. Incidents of alleged discipline violations shall be reported on the *School Behavior Report/School Bus Behavior Report* form provided by the Louisiana Department of Education. The forms shall be submitted in accordance with procedures outlined by the School District, the Superintendent, and school system personnel. The principal shall review and act upon such information submitted, to determine if suspension or other disciplinary action is necessary.

Should the principal fail to act on any report of misconduct or school violation, he/she shall explain the reasons for doing so to the Superintendent or his/her designee and to the teacher or school employee, student, parent, or legal guardian reporting the violation.

DELINQUENT STUDENTS

Students who regularly disrupt the normal school environment shall be considered as delinquent, and may be reported by appropriate school personnel to the juvenile court. Any student that exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general may be recommended by the principal for expulsion, assignment to an appropriate alternative educational placement, or transfer to adult education if the student is:

1. Seventeen (17) years of age or older with less than five (5) units of credit toward graduation;
2. Eighteen (18) years of age or older with less than ten (10) units of credit toward graduation; or
3. Nineteen (19) years of age or older with less than fifteen (15) units of credit toward graduation.

RECUSAL OF ADMINISTRATOR IN DISCIPLINE MATTERS

Any school administrator or administrator's designee who is required to make a recommendation, decide an issue, or take action in a matter involving the discipline of a student shall recuse himself/herself whenever a member of the immediate family of the administrator or administrator's designee is involved in any manner in the discipline

matter. In case of recusal, the action to be taken shall be done so by the Superintendent or an impartial designee of the Superintendent.

Immediate family means the individual's children, brothers, sisters, parents, and spouse and the children, brothers, sisters, and parents of the spouse.

DISCIPLINE OF STUDENTS WITH DISABILITIES OR EXCEPTIONALITIES

Discipline of students with disabilities or exceptionalities, or an Individualized Education Program or Section 504 Individualized Accommodation Plan, shall be to the extent allowed by applicable state or federal law and regulations or the provisions of the student's specific plan.

DISCIPLINE OF STUDENTS ENGAGED IN VIRTUAL INSTRUCTION

All students will be held accountable according to the established *Student Code of Conduct* whether said student is physically present in class or on School Board property, or participating in School Board sponsored virtual instruction. All classroom rules and regulations, including respect for the teacher and adherence to general rules of interaction and decorum will be followed and practiced at all time.

STUDENTS ON COURT PROBATION

In the event such a student is the cause of a school problem, his/her case should be referred to the Supervisor of Child Welfare and Attendance, who will work with the probation officer and the principal toward a settlement of the problem. The principal shall keep the student's teacher(s) informed of any developments in the case.

other activities aimed at improving the behavior and conduct of the student.

DISCIPLINE

It is the purpose of the Morehouse Parish School Board to operate the schools in a manner that will provide an orderly process of education and that will provide for the welfare and safety of all students who attend these schools. The school's primary goal is to educate, not discipline; however, when the behavior of the individual student comes in conflict with rights of others, corrective actions may be necessary both for the benefit of that individual and the school as a whole.

The Morehouse Parish School District shall endeavor to address student behavior with a focus on evidence-based interventions and supports, and to prioritize classroom- and school-based interventions in lieu of out-of-school disciplinary removals to address student misconduct in order to minimize the loss of academic instructional time. Every teacher and other school employee shall endeavor to hold each accountable for his/her behavior in school, or on the playgrounds of the school, on any school bus, on the street or while going to or returning from school, during intermission or recess, or at any school sponsored activity or function.

To assist the teacher, the School District shall establish regulations for the use of disciplinary measures within the schools and continually monitor and appraise their usefulness. Discipline shall be administered uniformly, consistently, and in a nondiscriminatory manner, in accordance with the School Board's/District's *Student Code of Conduct*.

Principals shall have both the authority and the duty to take disciplinary action whenever the behavior of any student(s) materially interferes with or substantially disrupts the maintenance of a proper atmosphere for learning within the classroom or other parts of the school. However, no student shall be disciplined in any manner by the School District or school administrator, teacher, or other school employee for the use of force upon another person when it can be reasonably concluded that the use of such force more probably than not was committed solely for the purpose of preventing a forcible offense against the student or a forcible offense provided that the force used shall be reasonable and apparently necessary to prevent such offense. A student who is the aggressor or who brings on a difficulty cannot claim the right stated above to defend himself/herself.

Each teacher and school employee may take disciplinary action to correct a student who violates school rules or who interferes with an orderly education process. No principal or administrator shall prohibit or discourage a teacher or school employee from taking disciplinary action, recommending disciplinary action, or completing a form to initiate disciplinary action against a student who violates school policy or who interferes with an orderly education process. No principal or administrator shall retaliate or take adverse employment action against a teacher or school employee for taking disciplinary action against a student if the disciplinary action that the teacher takes is in accordance with School Board policy.

Disciplinary action by a school employee may include, but is not limited to:

1. Oral or written reprimands.
2. Referral for a counseling session which shall include but shall not be limited to conflict resolution, social responsibility, family responsibility, peer mediation, and stress management.
3. Written notification of parents of disruptive or unacceptable behavior, a copy of which shall be provided to the principal.
4. Other disciplinary measures approved by the principal and faculty of the school and in compliance with School Board policy.

STUDENT REMOVAL FROM CLASSROOM

When a student's behavior prevents the orderly instruction of other students, poses an immediate threat to the safety of students or the teacher, or when a student violates the school's code of conduct the teacher shall have the student immediately removed from his/her classroom and placed in custody of the principal or his/her designee.

Any student removed from class in kindergarten through grade five shall not be permitted to return to class for at least thirty (30) minutes unless agreed to by the teacher initiating the disciplinary action. A student removed from class in grades six through twelve shall not be permitted to return to class during the same class period, unless agreed to by the teacher initiating the disciplinary action.

Whenever a teacher is struck by a student, the student, in addition to any other discipline given, shall be permanently removed from the teacher's classroom, unless the teacher objects, or unless the principal, with the concurrence of the building level committee, finds the striking incident to be entirely inadvertent.

Upon the student being removed from class and sent to the principal's office, the principal or designee shall advise the student of the particular misconduct of which he is accused as well as the basis for such accusation, and the student shall be given an opportunity at that time to explain his/her version of the facts. The principal or his/her designee then shall conduct a counseling session with the student as may be appropriate to establish a course of action, consistent with School Board policy to identify and correct the behavior for which the student is being disciplined.

Once removed, the student shall not be readmitted to the classroom until the principal has implemented at least one of the following disciplinary measures:

1. Conferencing with the principal or his/her designee.
2. Referral to counseling.

3. Peer mediation.
4. Referral to the school building level committee.
5. Restorative justice practices.
6. Loss of privileges
7. Detention
8. In-school suspension
9. Out-of-school suspension
10. Initiation of expulsion hearings
11. Referral for assignment to an alternative setting
12. Requiring the completion of all assigned school work and homework that would have been assigned and completed by the student during the period of out-of-school suspension.
13. Any other disciplinary measure authorized by the principal with the concurrence of the teacher or building level committee.

Parental Notification

The principal or his/her designee shall provide oral or written notification to the parent or legal guardian of any student removed from the classroom. Such notification shall include a description of any disciplinary action taken.

When a student has been removed from a classroom, the teacher or the principal or his/her designee may require the parent, or legal guardian of the student to have a conference with the teacher or the principal or his/her designee before the student is readmitted. Such conference may be in person or by telephone or other virtual means.

Upon the student's *third* removal from the same classroom, the teacher and principal shall discuss the disruptive behavior patterns of the student and the potentially appropriate disciplinary measure before the principal implements a disciplinary measure. In addition, a conference between the teacher or other appropriate school employee and the student's parent, or legal guardian is required prior to the student being readmitted to that same classroom. Such conference may be in person or by telephone or other virtual means. If such conference is required by the school, the school shall give written notice to the parent.

For students who experience multiple behavioral incidents or disciplinary referrals, a principal or his designee shall consider a referral of the matter to an appropriate school building level committee. If the disruptive behavior persists, the teacher may request that the principal transfer the student into another setting.

PARENT CONFERENCES

In any case where a teacher, principal, or other school employee is authorized to **require** the parent or legal guardian of a student to attend a conference or meeting regarding the student's behavior, and after notice, the parent or legal guardian willfully refuses to attend, the principal, or his/her designee, shall file a complaint, in accordance with statutory

provisions, with a court exercising juvenile jurisdiction. *Notice* of the conference, specifying the time and date of the conference, shall be given by contacting the parent or legal guardian by telephone at the telephone number shown on the student's registration card or by sending a certified letter to the address shown on the student's registration card.

REPORTS TO PRINCIPAL

Any teacher or other school employee may report to the principal any student who acts in a disorderly manner or is in violation of school rules, or any misconduct or violation of school rules by a student who may or may not be known to the teacher or employee. Incidents of alleged discipline violations shall be reported on the *School Behavior Report/School Bus Behavior Report* form provided by the Louisiana Department of Education. The forms shall be submitted in accordance with procedures outlined by the School District, the Superintendent, and school system personnel. The principal shall review and act upon such information submitted, to determine if suspension or other disciplinary action is necessary.

Should the principal fail to act on any report of misconduct or school violation, he/she shall explain the reasons for doing so to the Superintendent or his/her designee and to the teacher or school employee, student, parent, or legal guardian reporting the violation.

DELINQUENT STUDENTS

Students who regularly disrupt the normal school environment shall be considered as delinquent, and may be reported by appropriate school personnel to the juvenile court. Any student that exhibits disruptive behavior, an incorrigible attitude, or any other discipline problems in general may be recommended by the principal for expulsion, assignment to an appropriate alternative educational placement, or transfer to adult education if the student is:

1. Seventeen (17) years of age or older with less than five (5) units of credit toward graduation;
2. Eighteen (18) years of age or older with less than ten (10) units of credit toward graduation; or
3. Nineteen (19) years of age or older with less than fifteen (15) units of credit toward graduation.

RECUSAL OF ADMINISTRATOR IN DISCIPLINE MATTERS

Any school administrator or administrator's designee who is required to make a recommendation, decide an issue, or take action in a matter involving the discipline of a student shall recuse himself/herself whenever a member of the immediate family of the administrator or administrator's designee is involved in any manner in the discipline

matter. In case of recusal, the action to be taken shall be done so by the Superintendent or an impartial designee of the Superintendent.

Immediate family means the individual's children, brothers, sisters, parents, and spouse and the children, brothers, sisters, and parents of the spouse.

DISCIPLINE OF STUDENTS WITH DISABILITIES OR EXCEPTIONALITIES

Discipline of students with disabilities or exceptionalities, or an Individualized Education Program or Section 504 Individualized Accommodation Plan, shall be to the extent allowed by applicable state or federal law and regulations or the provisions of the student's specific plan.

DISCIPLINE OF STUDENTS ENGAGED IN VIRTUAL INSTRUCTION

All students will be held accountable according to the established *Student Code of Conduct* whether said student is physically present in class or on School Board property, or participating in School Board sponsored virtual instruction. All classroom rules and regulations, including respect for the teacher and adherence to general rules of interaction and decorum will be followed and practiced at all time.
