Experience Meaningful Engagement

Practical Leadership for Complex Work

Practical workshops, facilitation, and advisory support that help leaders turn complex projects, stakeholder demands, and competing perspectives into clearer communication, stronger decisions, and coordinated action.

Ways to Work Together

- **Workshops:** Focused **Leadership Sparks**, 90-minute to three-hour working sessions, half- or full-day **Leadership Labs**, and multi-session **Leadership Series**. Each engagement begins with a current challenge and ends with shared language, a practical tool, and clear next-step commitments.
- **Consulting:** Customized advisory and facilitation for organizations navigating culture, alignment, change, or stakeholder challenges. Support clarifies the current context and desired future state, then translates both into fair decisions and practical implementation steps.
- **Guest Speaking:** Keynotes, panels, retreats, leadership cohorts, and professional-development programs shaped around a current challenge. Topics include belonging, listening and mindfulness, the built environment, health equity, advocacy, professional branding, authentic engagement, and leadership in moments of complexity and tension.

Power Series™ Leadership Development

What becomes possible with greater clarity, courage, and connection?

The Power Series™ turns clear communication, courageous decisions, inclusive action, and meaningful connection into everyday leadership practice.

Begin with The Power of Presence

Listen. Reflect. Connect. This 60-minute Leadership Spark turns insight into intentional action and one practical commitment.

Start with the Conversation That Matters Most

Choose one topic—or combine several—to address the leadership challenge that matters most now.

Build credibility and follow through

The Power of Trust

Strengthen connection across differences

The Power of Relationships

Examine identity, perception, and lived experience

The Power of Color

See how messages shape belief

The Power of Media

Recognize the stories that shape leadership

The Power of Your Story

Ask better questions and stay open

The Power of Curiosity

Work across roles and boundaries

The Power of Collaboration

Lead with clarity, influence, and accountability

The Power of Leadership

Explore expectations, behavior, and belonging

The Power of Culture

Engage with honesty, purpose, and respect

The Power of Authentic Engagement

Choose the Format That Fits

Leadership Spark

45 – 60 minutes

Working Session

90 minutes – 3 hours

Leadership Lab

Half or full day

Leadership Series

3 – 6 sessions

Advisory + Facilitation

Customized

From Conversation to Practice

Participants build clarity in decisions, courage in difficult conversations, and connection across roles. Progress shows in shared language, clear ownership, practiced behaviors, and implementation milestones.

Built for Professional and Community Leadership

For emerging leaders, managers, technical and project professionals, multidisciplinary teams, public agencies, institutions, associations, and professional-services organizations.

Why Penelton Interactive

Penelton Interactive combines expertise in facilitation, planning, public engagement, and complex professional practice to deliver participatory, adaptable, scalable experiences.

What leadership challenge matters most to your team?

Schedule a discovery conversation to identify the right topic, format, and starting point.
