

HZ370

H-Class Vacuum

H-Class equipment is the legal requirement when working with high-risk, non-explosive, hazardous dusts and materials, including asbestos.

- ✓ Incorporated H13 filter module
- ✓ Perfect for dealing with hazardous dusts and materials
- ✓ Compact and ready to go

Numatic

The HZ370 forms a valuable part of any environment where the control of hazardous and health endangering dusts is required.

With a compact 370 container design, the HZ370 can be neatly stored away and ready when you need it.

- **H-Class Compliant**

Engineered to meet the legal requirements when working with high-risk, non-explosive, hazardous dusts and materials, including asbestos.

- **Compact & Ready**

The compact design is easily stored away and always on-hand when you need it.

- **Take Control**

The HEPA filter unit is mounted in an all-steel, secure module with a separate primary pre-filter in the container itself.

- **High Efficiency**

Engineered with an advanced filtration system, including HEPA13 filter, TriTex filter and HepaFlo filter bags.

- **Powerful & Professional**

In it for the long-haul, the machine's powerful long-life 960W motor is proven to deliver powerful, professional and efficient results.

Powerful Motor

Tested for a minimum of 1600 hours' continuous life, delivering powerful, efficient and long-life cleaning performance.

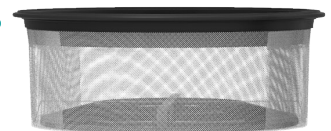

HEPA13 Filter Cartridge

Certified HEPA13 filtration down to 0.3 microns at 99.97% efficiency. Our most advanced filtration in the Numatic commercial vacuum series.

TriTex Filter

Traps fine dust within its high-efficiency, triple-layer membrane.

HepaFlo Filter Bag

3-layers of high-efficiency filter material and unique self-seal tab trap and retain fine dust during vacuuming and emptying.

Built to Last

Tested beyond industry standards, delivering performance you can trust from the UK's most reliable vacuum brand.
