

TT1840G

Compact Mains Scrubber Dryer

Numatic

The TwinTec 1840 cable machine has been designed to address the question of size, being exceptionally compact, yet with performance equal to bigger machines.

Although designed for small and congested areas, the TwinTec TT1840G is equally at home in larger areas and can be used in conjunction with our cable roll, extending the cable length from 20m to 40m without any loss of performance.

When it comes to quick and simple floor maintenance there are many smaller and often congested applications than bigger areas... Whether you're in a shop, cafeteria, showroom, office or bank, this is really cleaning the way it should be... you will never look back!

The style and proportion of the polyform water tanks allow for the machine to adopt a convenient tilt position for single handed brush or pad changing.

Compact & Convenient

Performance of a bigger machine, in a smaller, more convenient package.

Clean, Dry & Safe Floors in Minutes

Consistent, quick and high-quality cleaning results, wherever they're needed.

Optimise Productivity Everywhere

Compact and unobtrusive design for small and congested areas.

User-friendly Controls
