Multiwash™ PRO

The new re-designed range of Multiwash PRO scrubber dryers will wash, scrub and dry in just one single pass. Giving improved cleaning results, your floors will be left clean and dry ready for your customers and staff to walk on.

SIMPLE

One simple push button to dispense cleaning solution

4 LITRE TANK

Accessible and removable tank for fast filling, emptying and cleaning

ACCESSORIES

Side brush allows you to clean right up to the edge

Trolley allows for easy transportation

7 litre solution tank for greater productivity

VERSATILE

Effective on all floors with brushes available for carpets, hard floors, escalators and entrance matting

EASY

Handle assembly is quick and easy to assemble to the base, ready for the machine to be used

EFFECTIVE

Easy to change brush pressure to accommodate floor type and level of dirt

POWERFUL

Counter-rotating cylindrical brushes scrub & lift dirt and water onto a rotating recovery drum to pick up solution

EFFICIENT

Exceptional pick up of solution that leaves floors ready to walk on in seconds

INCREASED PRODUCTIVITY

Increased brush diameter gives 12% more scrubbing power providing an even better cleaning performance

Multiwash™ II 340/ PUMP Battery

Battery powered multi-purpose floor cleaning machine that will wash, scrub and dry both hard and soft floor coverings in a single pass.

4 LITRE TANK

4 litre solution tank that is removable and easy to clean

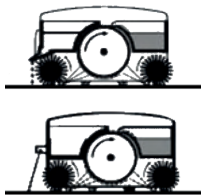

EFFICIENT

Continuous battery run time of up to 50 minutes. Plus, quick change battery system enabling longer run times with a second battery

PRODUCTIVITY

Model	Mop	MWPRO240	MWPRO340	MWPRO440
Theoretical m2/h		650	930	1150
Practical m2/h	150	250	350	430

HOW IT WORKS

The cleaning solution is applied by a built in pump motor. Counter-rotating cylindrical brushes scrub & lift dirt and water onto a rotating recovery drum to pick up solution. No vacuum motor needed. The front brush does most of the scrubbing and drying.

The rear brush completes the scrubbing and collects the remaining water off the floor. Solution is removed from the drum by a scraper blade to fill the recovery tank. The floor is left clean and dry.
