Fine Art Papers

Bamboo 290 gsm · 90% bamboo fibres · 10% cotton · natural white

The matt premium inkjet coating delivers excellent printing results with defined reproduction of color and detail, particularly for warm hues and monochrome prints. The unique combination of sustainable bamboo fibres, soft surface texture and impressive print quality gives the artwork outstanding expression and soul.

Hemp 290 gsm · 60% hemp fibre · 40% cotton · white

Colors and details are brilliantly reproduced, the depth of the black truly stands out and contrasts are reproduced with stunning effect. Hemp was an essential part of paper production for centuries, and due to its extremely robust fibres, it has often been used for long-lasting historical documents, such as the Gutenberg Bible and the US Declaration of Independence.

Agave 290 gsm · 70% agave fibre · 30% cotton · white

The rough, yet delicately defined surface texture gives the subject a captivating sense of depth and impresses with a pleasant, soft feel. The matt premium inkjet coating guarantees outstanding print results with excellent reproduction of color and detail, deep black and optimum contrasts.

Photo Rag 308 gsm · 100% cotton · white

The white cotton artist's paper, with its characteristic, wonderfully soft feel, boasts a lightly defined felt structure, lending each artwork a three-dimensional appearance and impressive pictorial depth.

Combined with the matt premium inkjet coating, this paper produces outstanding prints that feature brilliant colors, deep blacks, striking contrasts and perfect reproduction of detail. Whether it is used for FineArt photography or art reproductions, the ideal combination of structure, print quality and weight makes Photo Rag® one of the most versatile FineArt inkjet papers.

Photo Rag Ultra Smooth 305 gsm · 100% cotton · white

The matt premium inkjet coating guarantees extraordinary print results with impressive reproductions of color, detail and very deep blacks. Photo Rag® Ultra Smooth is versatile and produces impressive results for FineArt photography as well as art reproductions.

Photo Rag Satin 310 gsm · 100% cotton · white · satin-finish

In combination with the satin-gloss premium inkjet coating, it produces outstanding prints with a beautiful sense of depth and three-dimensional quality. Colors and details are perfectly reproduced, the depth of the black truly stands out and contrasts are reproduced with stunning effect. The printed areas have a soft sheen, while the unprinted areas remain matt to beautifully accentuate brilliance.

Fine Art Papers

William Turner 310 gsm · 100% cotton · white · genuine mould-made paper

The fine yet highly pronounced felt structure of the genuine mould-made paper gives photographs and art reproductions a striking depth and three-dimensional effect. The premium matt inkjet coating guarantees excellent print results with outstanding reproduction of color and detail, impressive contrasts and deep blacks. The characteristic feel and structure guarantees extraordinary FineArt prints and art reproductions with artistic flair.

German Etching 310 gsm · 100% α -cellulose · white · genuine mould-made paper

The unique surface texture adds a very special touch to images, showcasing them in all their splendour with impressive three-dimensional effect and depth. The premium matt inkjet coating guarantees outstanding print results with excellent reproduction of color and detail, deep black and optimum contrasts. This heavyweight FineArt inkjet paper is one of the most popular paper for FineArt prints and art reproductions thanks to its characteristic tactile feel and surface texture.

Photo Rag Metallic 340 gsm · 100% cotton · natural white · high-gloss metallic finish

Photo Rag® Metallic features a special silvery-shimmering surface finish. The high-gloss premium inkjet coating with a unique metallic effect guarantees impressive printing results with bold colors, deep blacks and the perfect reproduction of color and detail. The sophisticated silver metallic effect underscores the image and makes motifs with metallic elements, reflections, ice and glass, architecture and landscape shots, as well as black and white photographs with high-contrast tones shine.

FineArt Baryta 325 gsm · 100% α -cellulose · high-gloss finish

The high-gloss premium inkjet coating guarantees outstanding print results with perfect reproduction of color and detail, deep blacks and striking contrasts. The barium sulphate within the coating gives FineArt Baryta the feel of a traditional analogue baryta paper and makes it a popular alternative for inkjet printing. FineArt Baryta is a versatile classic for FineArt applications and sets standards in the printing of both black and white and color photographs.

Baryta FB 350 gsm · 100% α -cellulose · high-gloss finish

In combination with the high-gloss premium inkjet coating, it produces excellent print results. Black has impressive depth, colors are brilliantly reflected, and details and contrasts are perfectly reproduced. The barium sulphate in the coating gives the paper the feel of a traditional analogue baryta paper. The high-gloss, extra-smooth FineArt inkjet paper makes color photographs pop and reproduces black and white shots in a unique fashion.
