AT WINDOW ZONE,

The Focus is Simple

- Install custom, American-made replacement windows so they fit, seal, and perform the way they should.
- Work with leading manufacturers to offer dependable windows at different price points.
- Deliver the kind of service customers want: on-time, efficient installers who are courteous and competent.
- Stand by our work with comprehensive and transferable warranties.

Every project includes detailed measurement, dedicated oversight, and installation practices designed to avoid the issues homeowners deal with later.

You Deserve a Better Window Replacement Experience

Replacing your windows is a significant investment, and you deserve a process that's smooth and done right the first time.

Well-installed replacement windows should bring in natural light, improve comfort, reduce outside noise, and operate properly from day one. At Window Zone, the focus is on getting the details right. From initial consultation through final installation, every step is handled with precision and accountability. The result is a home that looks better, feels more comfortable, and performs the way it should for years to come.

Warranty Coverage You Can Rely On

Your window replacement is backed by warranty coverage designed to protect both the product and the installation.

- Coverage for manufacturing defects
- Workmanship warranty for proper fit and sealing
- Transferable if you sell your home
- Responsive local support if any issues arise
- Backed by established manufacturers with strong warranty programs

American-Made Windows Installed Right

(or Every Window Custom Ordered and Installed for a Precise Fit)

Choosing a window replacement company comes down to more than product selection. The difference shows up in how consistently the work is done. We've maintained 5-star reviews on Google and HomeAdvisor by consistently delivering the same level of quality from one project to the next.

The Differences That Matter

ACCURATE MEASUREMENT

Windows should be built to your opening—not forced to fit with fillers and adjustments.

PROPER INSTALLATION

Even high-quality windows won't perform if they're not sealed and insulated correctly.

HONEST PRICING

Two companies can quote very different prices for nearly identical windows and installation.

LONG-TERM PERFORMANCE

Drafts, sticking windows, and seal failures usually trace back to installation shortcuts.

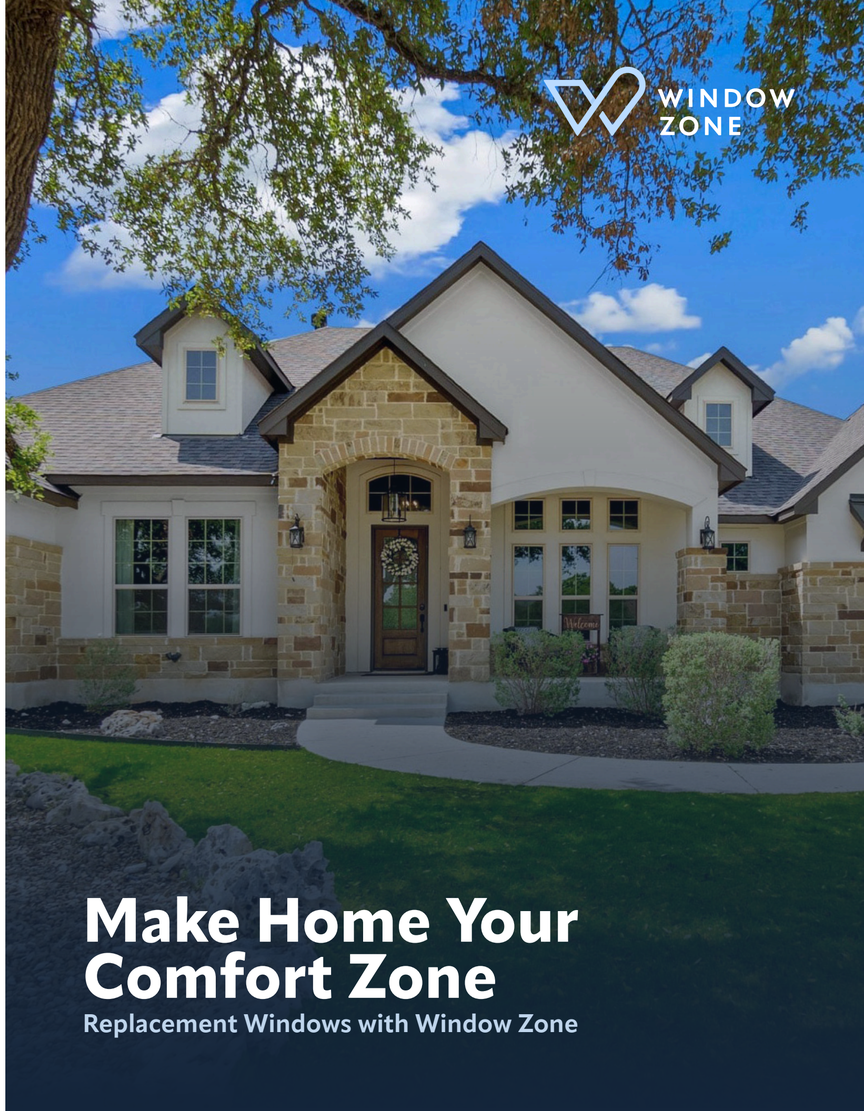
©2026 Window Zone. Trademarks mentioned in this document are the property of their respective owners. For detailed information on the energy efficiency or savings of our products, please consult with a Window Zone representative. Energy savings and efficiency vary based on installation and usage conditions. Not all Window Zone products may be ENERGY STAR-certified. Insulated Glass Notice: Insulated glass units that require capillary tubes may experience some argon gas depletion. Wood Component Maintenance: Proper preparation of hardwood components is essential prior to painting or staining. Failing to adhere to recommended finishing procedures may affect the finish quality and is not covered under the standard product warranty. It is crucial to seal and finish all wood components of bay or bow windows within the first 30 days post-installation. Neglecting this may lead to fading, swelling, warping, or other defects not included in the warranty. Warranty Information: For the complete terms of the product warranty, please contact your Window Zone Sales Representative. The limited warranty excludes damages caused by factors beyond Window Zone's control. Safety Warning: Window screens are not designed to prevent children from falling out of windows. Always keep children away from open windows. The primary function of the screen is to limit insect infiltration. Color Variations: Actual product colors may slightly differ from their appearance in this brochure. We recommend making final color selections using actual product samples. Subject to Change: Specifications and designs are subject to change without notice. Printed in the USA.



Make Home Your Comfort Zone

Replacement Windows with Window Zone

Personalized Window Artistry

Infuse your unique style into your space with Window Zone's collection. Our range of designs, colors, and custom accents is meticulously curated to complement your home's architectural beauty, reflecting our commitment to making your home your comfort zone with every detail.

ENHANCE YOUR HOME WITH OUR

Premium Window Collection

A. Single-Hung Windows: Perfect for a classic look with modern functionality, these windows bring elegance and simplicity together.

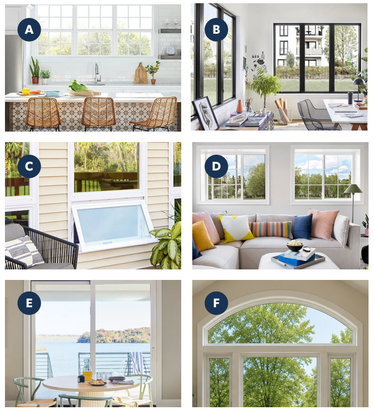
B. Casement Windows: Ideal for those who desire a mix of modern design and practicality, our casement windows offer excellent ventilation and a clear view.

C. Awning Windows: Small in size but big on impact, awning windows are perfect for adding extra light and air to your space.

D. Sliding Windows: For ease of use and contemporary styling, our sliding windows provide a sleek, space-saving solution.

E. Promenade Patio Sliding Doors: Available in 2-panel, 3-panel, and 4-panel configurations, these doors seamlessly blend the indoors with the outdoors.

F. Custom/Shape Windows: Tailored to your specific needs, our custom windows ensure that your unique vision comes to life.



DURABLE VINYL CONSTRUCTION

High-quality vinyl frames resist warping, cracking, fading, and corrosion while requiring very little maintenance over their lifespan.

ADVANCED WEATHER PROTECTION

Multiple weather seals and precision-fit construction help reduce drafts, air infiltration, and water intrusion for year-round protection against harsh DFW weather.

ENERGY-EFFICIENT FRAME DESIGN

Multi-chamber frame construction helps reduce heat transfer and supports improved energy efficiency and year-round indoor comfort.

ENHANCED SECURITY FEATURES

Reinforced construction, durable hardware, and secure locking systems help improve security and provide added peace of mind.

CUSTOM-FIT MANUFACTURING

Every window is manufactured to the exact dimensions of the opening for a clean appearance, smooth operation, and consistent performance.

AMERICAN-MADE QUALITY

Built in the United States using quality materials and modern manufacturing processes designed for long-term durability and reliability.

LONG-LASTING EXTERIOR FINISH

Color-through vinyl helps keep minor surface marks less noticeable and eliminates the need for painting.

ADVANCED GLASS PACKAGES/UPGRADES:

LoE³-366® Quadratherm
LoE³-366 is a clear coating that blocks even more solar gain, reflects heat, and lets the light stream in. It even outperforms the tinted glass often used in warm climates.

LoE³-452® Sun Matrix
New Quad 452+ is a true four-layer silver coating with exceptionally low emissivity, 99% UV protection, low exterior reflection and superior solar control. It also comes standard with Neat+™ — an exterior coating that stays cleaner longer and is easy on the environment.

LoE³-340+® Sun Shield
Blinding glare has met its match. LoE³-340+ tamps down intense sunlight without darkening the room. Engineered for high-sun regions, it improves indoor comfort with controlled brightness — reducing eye strain, TV reflection, and uncomfortable hotspots.

THERMAL PERFORMANCE COMPARISON:

Advanced Glass Option	Solar Heat Control	Natural Daylight	UV Protection
LoE³-366® *Best Overall Performance* **Best for:** Homeowners wanting the brightest, clearest view. *SHGC 0.22	★★★★☆	★★★★★	★★★★★
LoE³-452® *Best Value* **Best for:** Homeowners wanting a balance of comfort & efficiency. *SHGC 0.18	★★★★½	★★★★☆	★★★★★
LoE³-340+® *Maximum Heat Control* **Best for:** West-facing windows and hot, sunny rooms. *SHGC 0.14	★★★★★	★★★★☆	★★★★☆

*SHGC = Solar Heat Gain Coefficient

Enhanced Cavity Foam Insulation Options

Optimize your home's efficiency with our unique silver-gray foam insulation. It's not just about keeping your home comfortable year-round; it's about smart energy savings.

- The integration of high-purity graphite granules enhances the insulation performance, going beyond standard options.
- This specialized foam not only insulates but also reflects radiant heat, reducing energy loss.
- Strategically placed in key window areas, our foam liners significantly boost energy efficiency, evidenced by a lower U-Factor – the lower it is, the better the energy savings.

Available across various window styles, Window Zone's insulation technology is a smart choice for eco-conscious homeowners.

[1] For sizes exceeding specific dimensions, advanced structural reinforcements are incorporated to maintain performance integrity. [2] Automatically upgraded to reinforced models for units beyond certain dimensions for enhanced durability and stability. [3] Lock design may vary based on window style and size. [4] Optional enhancements are available for larger windows or specific performance ratings. [5] Design specifications may be modified for larger window installations to ensure top performance. [6] Enhanced weatherstripping options are available to further bolster window resilience. [7] Available exclusively with the full-screen option.
