Colours + Finishes.

BE BRAVE... WHY NOT MIX AND MATCH?

Look out for a range of kitchens finished in different colours.

FIVE PIECE FOIL WRAPPED

The four frames of the door are individually wrapped in foil and available in smooth or wood-grained finishes. The grained effect on all four frames run in the correct direction, imitating the appearance of a wooden door, making it a popular choice.

VINYL WRAPPED

These doors are wrapped in a vinyl foil, which gives the door a very hard-wearing finish, offering good resistance to moisture and abrasion.

HIGH GLOSS PAINTED

Multiple layers of gloss paint are applied to the door offering a resilient, durable high gloss finish.

ACRYLIC

1mm layer of acrylic is applied to the front face of the door with matching lasered edging. Acrylic doors are durable, resistant to UV light, moisture and stains and will never fade.

SOLID WOOD, VENEERED CENTRE PANEL

The frames of these doors are made using solid ash and the centre panel is constructed of a thin section of Ash veneer, which is uniform in finish and grain consistency. The use of veneer in doors provides stability by minimising shrinkage and expansion in dry and moist conditions, which will eliminate any cracking or splitting of the wood.

Cabinet Finishes.

All of our In-frame kitchens come with high quality lacquered oak dovetail drawer boxes with Blum Movento full extension runners and Blum integrated soft-close hinges. All In-frame cabinets feature a classic Davenport oak finish. Quality as standard to give you that extra peace of mind.

DRAWER BASE UNIT

Both standard and pan drawers are 450mm deep.

BASE UNIT

WALL UNIT

All base units supplied with 150mm adjustable legs.

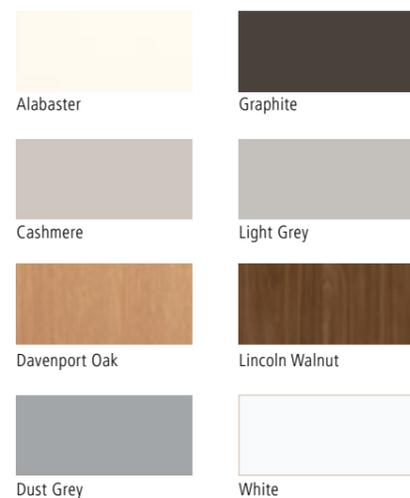

Cabinet Finishes.

All of our standard range are supplied with Blum Antaro full extension, soft close drawer boxes and Hettich Sensys integrated soft close hinges. To complete the look, we have eight on trend cabinet finishes to complement your chosen door style. We use 18mm as standard to give you a more robust, longer lasting kitchen cabinet.

8 CABINET FINISHES

VERSE The handleless carcass varies slightly as it is specially designed to accommodate the handleless rail system.
