BATHROOMS FOR LIFE
LONDON

EDITION 29

PAUSE. EXHALE. SEE DIFFERENTLY.

You're entering a curated world —
Where every line, finish, and material has been chosen with intent.

We believe design should be felt, not forced.
So let the noise drop away, and begin to see through a different lens.

In our London studio, every Saneux product is meticulously realised.

Furniture engineered with architectural purpose.
Brassware that's sculptural, not just functional.
Ceramic, colour, and proportion working in quiet, considered brilliance.

We design for longevity.
Guided by creativity. Defined by precision. Driven by a relentless pursuit of
excellence.

Welcome to Saneux.

TRAVIS GURR
Creative Director

OUR STORY

FROM HUMBLE BEGINNINGS BACK IN 1998, SANEUX WAS FOUNDED BY IAIN COOPER IN CROYDON, SOUTH LONDON.

With a family heritage of manufacturing and engineering expertise, Saneux concentrated on quality sanitaryware and coordinating furniture and brassware for smaller spaces. Saneux quickly became recognised as one of the few bathroom brands that could solve projection and space saving problems, designing them to look stylish for years to come. One particular range, I-LINE, was the pinnacle of putting Saneux on the map with it being one of the first collections to feature design led short-projection WCs, basins, and furniture in the UK.

Fast forward to 2025, Saneux has achieved exceptional growth through the introduction of some iconic collections including our HYDE collection of curved ceramics and furniture, and our Monument architecture inspired range which was the first incised fluted collection on the market.

Saneux still carries its family roots and now has a 33,000 sq ft Gatwick office & distribution centre. The Gatwick base allows the team to provide next-day deliveries to over 450 bathroom retailers & showrooms across the UK and Northern Ireland.

"When we started Saneux we were concentrating solely on brassware, but interest grew when we launched our sanitaryware ranges. Initially we re-branded Italian ceramics, but it was only a matter of time before we started our own designs. 2009 was the launch of I-LINE and AUSTEN, and the rest is history."

"We are blessed with a loyal retail customer network supporting us on our journey, and our latest brochure is a testament of hard work from our great team." - Iain Cooper, founder.

SUSTAINABILITY

WE CONTINUOUSLY STRIVE TO FIND WAYS TO HELP MAKE POSITIVE CHANGES TO OUR ENVIRONMENT.

These changes will be through the manufacturing process of our products, through our packaging, and through our working practices at our offices, distribution centre, and factories.

WRAS Approved products are just one of the ways in which we are contributing to looking after our planet. Brassware and flushing systems that have WRAS approval receive certification that they do not use materials that could contaminate water in any way. Almost 75% of our basin mixers, showers and flushing systems have WRAS approval, and by 2030 we aim to get WRAS approval on all of our eligible brassware and flushing system products.

At our distribution centre and factories, we work with waste management companies to recycle materials that can no longer be reused. Any non-recyclable materials that are collected are used to generate power in order to achieve a zero to landfill policy. We are also changing how we package the inside of our products by introducing recyclable fabric wrap to protect them rather than using plastic wrap.

DESIGN

EVERYTHING BEGINS WITH INSPIRED DESIGN AT SANEUX; IT'S THE ONLY WAY WE KNOW.

That's why every product and accessory we make has been imagined, drawn, and perfected by designers who really understand how shape and form can make a bathroom amazing. Looks alone are never enough though, so we also pay fanatical attention to detail when it comes to creating products that perform flawlessly, last a lifetime, and are kinder to the planet too.

CERAMIC

THE VITREOUS CHINA WE USE IN OUR PRODUCTS IS BETTER KNOWN AS CERAMIC, AND ITS HERITAGE DATES BACK TO ANCIENT EGYPT.

Shiny, impervious and undeniably beautiful, it's a wonderfully durable material that keeps its good looks no matter how hard a life it has, which is why it works so well in hotels and busy buildings, not just private homes.

Things have moved on since the Pharaohs, and our products today are made using state-of-the-art technologies, achieving tolerances so tight that their performance is reliably high and their fit is consistent and seamless.

A PLACE FOR EVERYTHING AND EVERYTHING IN ITS PLACE, THEY SAY. WE COULDN'T AGREE MORE.

At Saneux, we know that neat, seamless and well organised spaces are the key to feeling calm, and nowhere more so than in your bathroom. To make it happen, we use intelligent design and our acute understanding of spacial layouts to create interiors that are safe, functional and a joy to use. Interiors whose ingenious use of storage creates the order and harmony you need for relaxing.

All this practicality never comes at the expense of style. Our talented designers have an instinct for aesthetics and an eye for detail, producing bathroom furniture that feels luxurious, looks exceptional, and fits beautifully into everyday life.

QUALITY

A BATHROOM SHOULD ENHANCE YOUR LIFE AND DELIVER THAT UNMISTAKABLE SENSE OF CALM AND WELL-BEING.

For that, you need the peace of mind that comes from knowing every element has been made and supplied with quality in mind. From the design, materials and engineering that goes into our products right through to the way we look after you and your project, everything about the way we work sets new standards.

STORAGE

THE FIRST STAGE OF SELECTING A BASIN & FURNITURE UNIT IS FINDING OUT WHAT YOU WILL BE NEEDING TO STORE, NOT JUST CURRENTLY, BUT YOU ALSO NEED TO THINK ABOUT ITS USE IN THE FUTURE. WHETHER IT IS GOING TO BE USED BY ONE PERSON OR FIVE PEOPLE, IT WILL NEED TO CATER TO EVERYONE'S NEEDS.

WALL MOUNTED UNITS

The ultimate space saving option, wall mounted furniture is fixed off the floor and gives bathrooms the illusion of more space. They are often found in contemporary styles and their usability is always the focus when designing new styles. Cleaning is made easier which is perfect for family bathrooms.

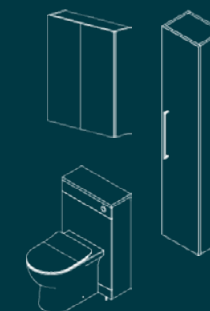

FLOOR STANDING UNITS

If extra storage space is what you need, then have a look at our floor standing furniture. These units come with shelving to help you to store more of, and organise, your toiletries, plus they help to hide the pipework, creating a much tidier space.

COUNTERTOP UNITS

For a more contemporary style, units with countertops can offer both form and function. More internal storage space is available as well as countertop space to hold soaps and lotions whilst giving a luxurious look, and they can work on both wall mounted and floor standing units.

ADDITIONAL UNITS

Extra storage space can be found through our tall side units and mirror cabinets. The tall units can store a plethora of items thanks to their height and shelving, whilst the mirror cabinets are perfect for storing toiletries and any items you use regularly. There are also WC units so that if you want a concealed cistern, you can hide it whilst ensuring that the furniture look is consistent.

OXFORD

POISE IN EVERY CURVE

Born from the grandeur of Oxford Circus, OXFORD is where sculptural form meets everyday ritual. Fluted like the columns that inspired it, and rounded in reverence to the *Circus*, this piece doesn't just stand, it speaks. A quiet moment of architecture. A daily act of design.

FRONTIER

CRAFTED TO CAPTIVATE

Inspired by Scandinavian influences and classic Italian style, Frontier is our minimalist and luxurious furniture collection. The vanity units are modern yet simplistic, paying homage to Scandinavian designs, while the carrara white countertops incorporate Italian flair to instantly bring the units to life.

MONUMENT

ICONIC
ARCHITECTURE INSPIRED

Influenced by Sir Christopher Wren and Dr. Robert Hooke's commemoration of the Great Fire of 1666, Monument furniture pays homage to London's rich history. The furniture echoes the fluting found on the Monument column at Fish St Hill, London EC3R.

MONUMENT

ICONIC PORTLAND OAK

The Monument, built from Portland stone, stands as a timeless symbol of London. Inspired by this heritage, Portland Oak reimagines the reference in a warm oak hue. Available as a 2-drawer design in 60cm and 80cm, it combines Monument's signature fluting with natural character for the modern bathroom.

DESIGN FOR
EVERY DIMENSION

Over a decade of quiet refinement. UNI pairs ultra-thin basins with minimalist, handleless forms. Now stretching from 40cm to 200cm in three carefully curated finishes. Built to bring calm to any space.

THERE'S A REASON IT'S CALLED UNI.

Design your perfect modular setup with 60, 80 or 100cm base units. Add optional 20cm spacers, finish with a countertop, then choose your basin to complete the look. Modular, simplified. UNI, by design.

HYDE

ULTIMATE SPACE SAVING

Hyde was designed for those tight spaces. Whether it's a cloakroom or a compact additional ensuite, Hyde offers both a striking statement and indispensable storage. Choose from the 50, 55, 60 and 70cm units for the pinnacle of space-saving basin arrangements.

HYDE

Please allow 5cm of space either side for door units to allow for the doors to open fully.

THE CHOICE OF TOILET FOR YOUR BATHROOM DEPENDS NOT ONLY ON THE PRACTICALITY OF IT, BUT ALSO THE STYLE YOU WANT. WHETHER YOU WANT TO SAVE SPACE OR WANT TO OPT FOR SOMETHING A BIT MORE CLASSIC, WE WILL HAVE AN OPTION PERFECT FOR YOUR NEEDS.

CLOSE COUPLED

The most popular choice, close coupled toilets are found in many family bathrooms. These toilets show an exposed cistern installed on the pan. There are lots of designs from contemporary to traditional. Ours sit fully back to the wall to cover pipework which creates a seamless look and is ideal for cleaning.

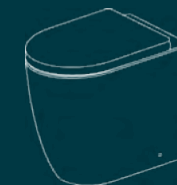

—

CLOSE COUPLED OPEN BACK

Just like the standard close coupled toilet, the open back version still has the cistern fitted with the pan, but the pan itself will have a gap at the back to allow access to the pipework. These have a slightly more traditional look, but are still sleek in design.

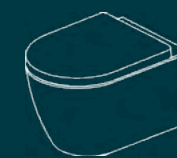

—

BACK TO WALL

Back to wall toilets sound similar to the close coupled toilets, but the cistern is concealed in a wall rather than sitting on the back of the pan. This gives the toilet a contemporary style and helps to save space as these pans are often shorter in projection in comparison to close coupled toilets.

—

WALL MOUNTED

The most modern of them all, a wall mounted or wall hung toilet is a great option for space saving. These toilets are when the pan is floating off the floor which allows you to clean underneath the pan and save on floor space. They are usually best placed in small, cloakroom bathrooms, and they can hold up to 400kg in weight when paired with a framed cistern.

TO HELP YOU SELECT THE OPTIMUM BRASSWARE FOR YOUR PROJECT, WE HAVE MARKED OUR PRODUCTS WITH THE PRESSURE REQUIREMENT.

THIS IS REPRESENTED AS FOLLOWS:

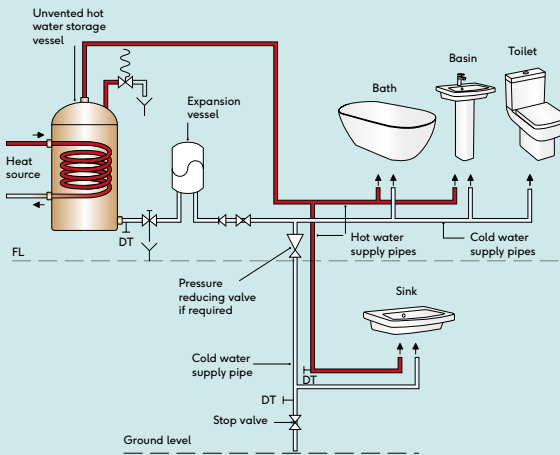

- LP** – MINIMUM 0.2 BAR
- MP** – MINIMUM 0.5 BAR
- HP** – MINIMUM 1.0 BAR

FIGURE 1

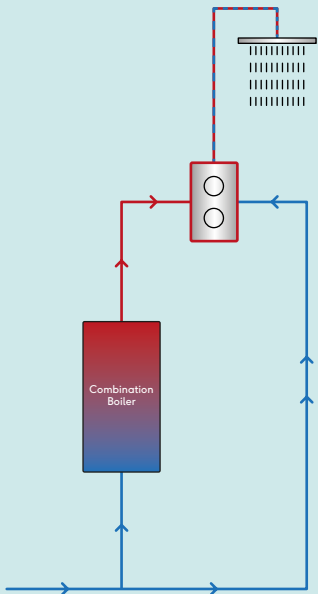

Cold water is stored in a header tank which feeds the hot water tank, and usually the cold water to the bathroom. This means the water is delivered at low pressure and therefore only taps with LP or minimum 0.2Bar (2 metre Head) can be used. If the header tank is in the loft space and the taps are on the ground floor the pressure may be higher so taps marked MP 0.5 bar (5 meter head) may be able to be used. You will need to check your requirements with your plumber as, if a power shower is required a pump will need to be fitted.

FIGURE 2

The unvented cylinder stores hot water at mains pressure, usually between 2 and 3 bar, allowing hot and cold water to be delivered at the same pressure. This means a power shower can be achieved without the need of a pump. All LP, MP and HP taps and fittings may be used.

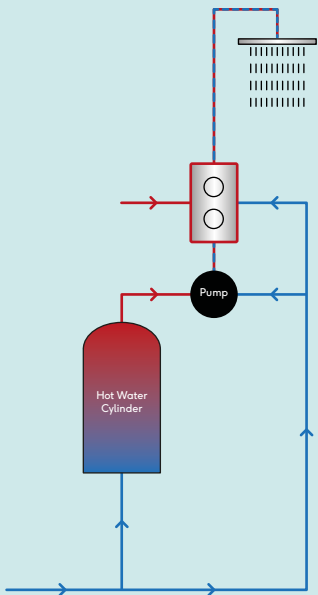

FIGURE 3

A combination boiler heats water on demand, and although it is fed by mains pressure this is regulated to the speed which the boiler can heat the water.

All LP and MP taps and fittings may be used.

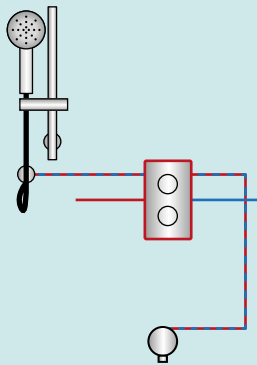

FIGURE 4

A pump assisted system will deliver water at high pressure and depending on the specifications of the pump fitted LP, MP and HP taps and fittings may be used.

MIRRORS AND MIRROR CABINETS ARE A GREAT ADDITION TO A BATHROOM; THEY OFTEN BRING THE ROOM TOGETHER. THEY CAN CATER TO DIFFERENT NEEDS WHETHER IT BE TO LIGHT UP YOUR BATHROOM OR TO PROVIDE MORE STORAGE IN A CLUTTERED SPACE.

MIRRORS

Electric and non-electric mirrors add many benefits to a bathroom. They help to create the illusion of a bigger space, reflect more light to brighten up the room, and be the focal point of the bathroom. Electric mirrors have features like adjustable lighting, Demister Pads, and shaver sockets, thus providing both form and function.

MIRROR CABINETS

If you need extra space to store your toiletries, mirror cabinets provide the practicality of storage whilst offering a visually pleasing aesthetic. We have mirror cabinets to suit a particular range, and mirror cabinets that can work with all our furniture collections. The choice is endless.
