

Converting Hydra FLKR for appropriate bale size

1. If Hydra FLKR is mounted on Hydra Bed, remove clamp hooks from each side and slide Hydra FLKR rearwards approximately 18" to 24".
2. Using a 3/16" Allen wrench, remove (4) 5/16 x 1/2" Button Head Cap Screws from top of platform.
3. Using (2) 1/2" wrenches and/or ratchets, loosen 3 bolts/nuts (A) and remove 1 bolt/nut (B) from platform support brackets on each end of underneath of platform Hydra FLKR.
4. Slide platform forward (for 3-ft. wide bales) or rearward (for 4-ft. wide bales) 6 inches to second series of (4) holes on top of platform.
5. Replace (4) Button Head Cap Screws on top of platform.
6. Tighten bolts/nuts (A) and replace bolt/nut (B) to platform support bracket underneath Hydra FLKR platform.

ADJUSTABLE PLATFORM
