Besler Quality Built Bale Loaders

[3000 Series](#) • [Model 2000](#) • [Model 750](#) • [Model 1000](#)

3000 Series

The Besler Bale Loader combines the convenience and comfort of a pickup cab with the ability to haul 2 bales of up to 2,200 lbs. each. The synchronized squeeze arms center the bale on the bed. Rack feed bales or unroll bales for pasture feeding all from inside the cab with fingertip control. With over 30 years of Bale Loader manufacturing experience, Besler builds a heavy-duty loader built for your demanding use.

Besler Features:

- Free floating arms provide a smooth ride for lopsided or frozen bales
- Choose between 12 volt electric over hydraulic or live hydraulic power
- Advanced pivot arm design won't build up with wet hay or freeze in the winter
- Provides controlled feeding; unroll only what you need
- Available in lengths ranging from 108" to 141"
- Drop bales into the feeder without leaving the cab - great for winter feeding
- Constructed with 11 gauge deck plate and 6" stringers

Standard Equipment:

- Dual lift cylinders
- Tie down rails with stake pockets
- Removable side boards
- Synchronized squeeze arms
- Lights in the headache rack
- Louvered sun visor
- Spinners
- 30,000 lb recessed 5th wheel ball
- Toolbox optional
- Receiver hitch

Available Models:

Model	Overall Width	Overall Length	Standard with Fenders	Cab to Axel	Rear Wheels	Weight
3100	85"	108"		56"	Single	1860
3150	85"	117"		60"	Single	1890
3200	95"	108"		56"	Dual	1910
3240	95"	108"	yes	56"	Dual	1940
3300	95"	115"		60"	Dual	1960
3350	95"	117"	yes	60"	Dual	1990
3400	95"	131"		84"	Dual	2040
3450	95"	131"	yes	84"	Dual	2070
3550	95"	141"	yes	84"	Dual	2130

(Do not exceed truck axle load rating.)

Model 2000

Put a Bale Loader on your own Flat Bed without buying another Flat Bed.

- Fits most any flat bed
- Loads and carries one or two bales
- Unloads them both, one at a time
- Unloads bale into feed rack
- Unrolls bale on the ground
- Loads bale onto trucks or trailers
- Will pick up bale from ends or sides
- Electric-Hydraulic powered
- Operates from pickup cab

- Mounting the Besler Bale Loader on your Flat Bed requires approximately 2 hours.
- The low profile lets you hook up to your Gooseneck Trailer without having to raise it up higher than normal.
- For "controlled feeding," the bale loader is the ticket. Unroll only the amount of hay needed, then move on to the next herd.
- For "free choice" feeding, open the arms and drop the bale into the feeder without leaving the comfort of the cab.
- When it comes to storing hay for the winter, your bale loader will stack bales

two high to help you store more in less space.

- When moving large quantities of hay over long distances, just load your truck or trailer using the bale loader. Then put two more bales on your pickup. You do the job faster and use less gas than with the tractor and loader method.

Specifications:

- Weight Approximately 850 lbs.
- Lifting Capacity 2,000 lbs.
- Frame Width 46 Inches
- Total Width 78 Inches
- 12 Volt Electric Hydraulic Pump
- Constructed of Heavy 4 inch Square Tubing

Standard Equipment:

- Requires a 14" x 30" hole cut out for the 12 Volt electric Hydraulic Pan.

Optional Equipment:

- Hydraulic Box is available to mount on the side.
- Under-the-Hood Power Unit

Model 750

The Besler 750 Tractor Mount is an economical way to handle your big round bales, and can be adjusted to fit bale widths of four, five or six foot. The Model 750 comes complete with hydraulic cylinder and hoses.

Model 1000

The The Besler 1000 Tractor Mount is an economical way to handle your big round bales. It is quick hitch ready, and can handle bale widths of four, five, or size foot. The Model 1000 comes complete with hydraulic cylinders and hoses.

Standard Equipment:

- Two Hydraulic Cylinders
- Hydraulic Hoses
- Heavy 4" Square Tubing
- Quick Hitch Ready
- Spinners
- Total Width: 78'
