## Original w/ Bale Spear Option

## Literature Downloads

### Products and Features

**Feed with Ease!** Never leave the comfort of your cab. Spend more time drinking coffee and less time trying to get the tractor started. The money you save on tractor tires will pay for your new bale bed. Hydraulic pump is mounted in the passenger side toolbox and your hand controller is located inside the truck cab. Bale spears can be removed and stored behind the rotation bar, locked in, so you can still pull your gooseneck trailer. The IRONSTAR Bale bed on your truck is the best addition to any ranch since barbed wire.

### Standard Features

- 4" channel length sills
- 12 gauge steel tread plate floor
- gooseneck box and plate with chain hooks
- removable 4" steel sideboards
- rear bumper with receiver tube
- 7 clearance lights and cab shield lights
- powercoat finish

- mudflaps
- 2 toolboxes
- Hydraulic pump and controller
- Bale tines
- 7 way trailer plug
