BALE SPEAR OPTION

THE J & I BALE BED OPTION CAN BE ADDED TO ANY BED WITH SOME ALTERATIONS, IT HAS THE ADDITION OF A SET OF HARDENED BALE SUPER SPEARS. THE BALE BED COMES WITH A 2-WAY ELECTRIC OVER HYDRAULIC PUMP TO POWER 2-3" X 10" HYDRAULIC CYLINDERS. INCLUDED ARE ALL HYDRAULIC FITTINGS & HOSES, ALL ELECTRIC LINES AND A 150 AMP CIRCUIT BREAKER. WE RECOMMEND THAT THE PUMP BE MOUNTED IN AN ENCLOSED TOOL BOX (NOT INCLUDED). THE SPEARS WILL GO DOWN PAST LEVEL FOR EASE OF BALE SPEARING AND PAST STRAIGHT VERTICAL TO SET THE BALE UP OVER THE BODY. THE REAR HITCH IS STRAIGHT DOWN WITH THE TAIL SECTION TO ALLOW THE BALE TO BE FULLY SPEARED. BALE SPEARS CAN BE REMOVED FOR EASE OF PULLING A GOOSE NECK TRAILER AND STORED BENEATH THE BED IN A 2" X 4" SPEAR HOLDER.
